THURSDAY, FEBRUARY 6, 1868.

Petroleum Bank at Titusville.

Notes on the above bank are now in demand at 90 cents to the dollar. J. L. Wyckoff, we understand, is now offering that figure for notes on said bank.

Sales of Real Estate.

Joseph Brutzman, of Smithfield, sold his house and lot, in Stroudsburg, on Main Street, to Geo. W. and J. B. Drake, for \$1,700.

Samuel S. Dreher, Esq., bought David Bowly's property, on Saturday last, for \$1,600.

The Conference of this Congressional District will meet in this place on the 25th instant, to choose Delegate and Alternate to the Chicago National Republican Convention. We would suggest the propriety of the Republicans of this county being prepared to act in connection with Carbon County in the selection of a Delegate to the Republican State Convention to be held at Philadelphia, on Wednesday, the 11th day of March next.

Church Dedication!

The new M. E. Church at Tannersville, will be dedicated on Sunday, the 16th inst. Rev. James Mason, the Presiding Elder, will preach at 10 o'clock, in the forenoon; and Rev. N. D. McComas will preach at 7 o'clock in the evening.

We understand that the Methodists at that place have been long and earnest in their efforts to get their church erected, and only recently succeeded in getting their edifice completed. We hope therefore that all friendly to that church will not fail to be present at the dedication and lend a helping hand. The preaching will undoubtedly be worthy the attention of the public.

The Concert to be given at the Court-House, on Wednesday evening, the 12th inst., promises to be the best ever given in Stroudsburg. The Ross Quartette is pronounced by the press everywhere to be the best Trio of Vocalists travelling. Mr. & Mrs. Ross, in their Sentimental and Comic Duets, are said to be unrivalled; and what will make the Concert more interesting is that Mr. Lorenzo G. Eilenberger (formerly of this place), who has, for the last year, been under the instructions of Prof. Ross, and whose equal as a Bass Singer is now challenged for a Thousand Dollars, is to take part in the Concert. At Philadelphia, he was enthusiastically received and christened by critics the "American Basso."

The Lecture.

Dr. Jackson delivered his lecture entitled "A Summer Cruise in the Mediterranean," on Tuesday evening last. The cruise commenced at Gibraltar, which the lecturer described pretty fully, following up the various places of interest and touching briefly the peculiarities each place possessed which he visited. The lecture, of course, was interesting and instructive, especially to those who had not given the matter much previous attention, while to those who have read up tolerably well on the subject of the lecture, or who have read the Doctor's letters as published in the Democrat from time to time, will be unable to say they heard any thing remarkably new, though none were harmed by hearing it repeated, and probably many profited.

The Doctor's lecture was good in that it tends to excite an interest in a subject too much neglected by the majority of persons.

The next lecture of the course will be delivered next Tuesday evening, by L. W. Brodhead, Esq. Subject—"The Mistletoe and Its Early People."

Get Your Life Insured—Get Insured Against Accident.

Life Insurance has been in successful operation in Europe over one hundred and fifty years, and it has been in operation in this country over fifty years. Life Insurance is a present provision for future necessities; a legacy already bestowed while living; a child's free will offering to indigent and infirm parents; a gift to a dependent wife and children; a security for payment of obligations that may not otherwise be discharged; in short, Life Insurance is a guaranteed security of a competency to the needy; of kind attentions and comfort to the sick; of strength and support to the weak and dependent; of consolation to the mourning and of education to the orphan. All these results are more or less accomplished by Insurance. Those desiring to insure their lives can ascertain all the particulars by calling on James Carr, jr., of this place, who is both the Agent of the American Co. at Philadelphia, and also of the Aetna of Hartford, Conn.

Persons insured are almost daily drawing insurance money. Tyler Kemble, of Luzerne Co., was insured in the Travelers' Insurance Co. of Hartford, Conn. He met with an accident a few days since which disabled him for eight weeks. The Co. promptly sent him a check for the amount due him, by James Carr, jr., their agent. A man named Norcut, residing at Peekville, Luzerne Co., on the 18th ult. was instantly killed in falling a tree in the woods, who was fortunately insured for \$1,000. As soon as Mr. Carr, their agent, can get the facts to the Co. they will forward a check for the insurance to the unfortunate man's family. Life is uncertain; hence the present is the proper time to attend to this matter.

Diamonds in Brazil.

We have been gratified by a visit from H. M. Lane, Esq., the Agent for Ayer's Pills, Sarsaparilla and Cherry Pectoral, in South America, who has just visited the mines with his medicines, and described to us the process of taking gems from the earth. A driver places his gang of slaves in a mud hole, where the gems are found, and pans out the earth in the water, like gold washers. The negroes are naked, to prevent their secreting the diamonds in their clothes. They are required to work facing their overseer, and forbidden to raise a hand to the face, lest they should swallow the jewels when found. Yet they do carry them away, by becoming so expert that they can snuff them with their fingers from the pan to their mouth, without detection. Ayer's medicines are the talismans for their diseases, and it was not difficult to exchange with the negroes, Ayer's Pills is about even weight, for the rough stones in which the brilliants are holden. — [Boston Leader.]

Consumption.

Notwithstanding the many articles advertised to cure Consumption, we do not believe, when seated too long, it can be cured. But we do know of hundreds of cases where persons were supposed to be suffering under that fatal disease, who have become perfectly well and robust from the use of Spear's Port Grape Wine. Many times people for years wasted and at last die from diseases of the kidneys or glands, when they were supposed to have and were treated for Consumption. A long-continued affection of the kidneys however, may eventually result in Consumption. Spear's wine, used alone, or taken with a fresh raw egg, or new milk, daily, has been found to be an excellent remedy, and has the reputation of rendering a perfect cure for Consumption. — Medical Times.

The wine certainly contains valuable properties; let our physicians and invalids try it. To be had of druggists.

The friends of Rev. N. D. McComas, of Monroe Circuit and the adjoining section, are cordially invited to attend a donation gathering on Wednesday, 12th inst. at the M. E. Church in Canadensis, from whence they will repair to the new work shop of Palens & Northrup, (directly opposite) which has been recently fitted up for a "Good Templars' Lodge." This will be used as a reception room. The lower part of the building will be arranged for the festival board. The rooms are commodious and ample to accommodate a large party. Supper will be provided, for which partakers will be required to show their "Tickets." Come one, come all.

C. D. BRODHEAD'S NEW STORE.—C. D. Brodhead, having lately purchased James A. Paul's large store stand, is now selling off at his old stand, all kinds of the very best Dry Goods, &c., below cost. People should avail themselves of this opportunity before it is too late. Mr. B. will take possession of his new store stand in a short time.

FOR SALE.—The residence of C. D. Brodhead, Esq., on Main Street, Stroudsburg, is now for sale again. Mr. Geo. L. Walker not having purchased said property as was announced in our columns a few weeks ago.

William Dreher, of this borough, has been appointed Whiskey Inspector, vice J. H. Copner, resigned.

The White Haven Robbery.

ANOTHER ARREST.—RECOVERY OF \$10,000 IN BONDS.—We find the following in the New York Times of Sunday the 26th ult.:

On Thursday last, John Flynn, keeper of a saloon at the corner of Spring and Thompson streets, was arrested by Marshal Murry, charged with having in his possession certain bonds of the Susquehanna Canal, stolen from the Lehigh Coal and Navigation Company, at White Haven, Pennsylvania, in July last. Ten of these bonds, of the denomination of \$1,000 each, were found in Flynn's possession, and being positively identified by the Company's agents, and affidavits being made that Flynn knew they were stolen when he purchased them, the latter was held to bail in the sum of \$10,000.

THE HISTORY OF THE ROBBERY.

On the night of the 9th of July last the office of the Lehigh Coal and Navigation Company at White Haven, Pa., was entered, the vault and safe opened by means of false keys, and \$56,000 in bank bills, currency, and bonds stolen. The entrance to the building had also been effected with false keys, and while no clue to the robbers remained, it was evident the job had been carefully planned, and that thorough professionals were concerned in it. On discovery of the loss the officers of the Company telegraphed Pinkerton's National Police Agency, and detectives were at once detailed to work up the case. The steps taken by them in this matter are not revealed, but the result is before us in the arrest of Cyrus Starks, S. E. Spencer, Elias Griffin, and Emanuel Sinclair, all of whom have been arraigned before the Luzerne County (Penn.) Court, and are either in confinement or under heavy bonds to appear for trial at the April term of that Court.

A fifth party—Shinburn, alias Baker, alias Walker, &c.—was also arrested, but escaped from the officers and is again at liberty.

It appears that the robbery was planned as early as March last, Cyrus Starks, proprietor of the White Haven Hotel, in White Haven, being the suggester of it. Starks has heretofore borne a good reputation, is somewhat of a politician, and is a brother of the Starks now Burgess of Wilkes-Barre, and late candidate for the Legislature from the Luzerne District. In March last Starks began casting evasive glances toward the strong boxes of the Coal and Navigation Company, and sending for his friend Griffin, who resides in Scranton, explained to him that a raid on these boxes, if properly planned, would be highly remunerative. Griffin, having no conscientious scruples, readily acquiesced, and agreed to procure professional aid to carry out the project. Starks was able to supply a correct diagram of the office—showing position of vault, safe, &c., and also a wax impression of the office key. He further informed Griffin that the agent carried all the keys about his person, but that possession of them might be obtained by entering his house, and also that large sums of money were kept in the safe only on pay-day, which was usually between the 8th and 10th of each month.

Armed with this information, Griffin returned to Scranton, and went thence to Dunmore, where he consulted with his friends, Spencer and Sinclair. It was then decided to call in the services of Shinburn, who was a thorough professional, and had aided the party before—having been associated with Sinclair and Squire E. B. Hollister of Hollisterville, Penn., in the Waymart Robbery, six months previously.

Shinburn readily answered the summons, and having received such information as Sinclair and Spencer were able to give, visited White Haven by night, entered the Agent's house, and then his bed-chamber, took from the pockets of the sleeping man all the keys, safe, vault, &c., of which he took impressions in wax, and having returned the keys and removed all signs of his visit, departed. The impressions were given to Griffin, by Griffin to Sinclair, and by the latter to a young Englishman, an employee of a Scranton machinist shop, who made the keys at his house. When completed Shinburn was again summoned from New York, again visited White Haven in the night, this time entering the Coal Company's office and opening the various doors and the vault; the safe key was found to be imperfect, and was returned to the young Englishman, who remounted the defect, when Shinburn again entered the office, and found all his keys in perfect working order, the vault and safe opening to his touch.

The thieves now waited only the arrival of the money to do their work, but although the preparations just mentioned were completed in March, and Shinburn entered the office on the occasions of the April and May payments, it was not until July that circumstances favored them.

On July 5th Griffin hired a team at the livery stable of Starr Allen, in Dunmore, representing that he would be absent a number of days. A short distance out of town he met Sinclair and Shinburn, to whom he surrendered possession of the turn out, returning to town himself. Sinclair then drove to a rendezvous in the woods near Wilkes-Barre, where they remained until the 9th. At 6 p.m. of that day they left their hiding place and drove to White Haven, arriving at midnight. Shinburn entered the office, opened the safe, abstracted the money, and in twenty minutes the pair were dashing away toward Scranton, \$56,000 richer for their nocturnal visit. At noon of the 10th they reached Dunmore, where the weary horses were turned over to Griffin, and Shinburn was taken up by Spencer with a fresh team and driven to Waymart, and thence to Narrowsburg, on the Erie Railway, where he took the New York train and returned to this city.

DIFFICULTIES OF DETECTION.

It will be seen that although the principal character in this robbery—the New York professional, Shinburn—visited White Haven six times, made a leisurely inspection of the Company's office on five occasions, and became thoroughly conversant with the locality before executing the deed, he was never upon the streets of the town in daylight, and indeed had never been seen by a citizen of the place. He is an old offender, and is the same who figured in the Keene, N. H., some years ago; was convicted, sent to jail, and almost immediately escaped.

Starke, Spencer, Sinclair and Griffin, are of the same party as Looby, Miller, Clark, Johnson, Galligan, and Argue, who were convicted of the Hope Express robbery at Wilkes-Barre in February, 1867. The detectives deserve much credit for unraveling so difficult a case, though it is to be regretted they should have failed to hold Shinburn when he was in their custody. It does not look well that the most important prisoner has escaped them; but we trust he will soon be brought to justice.

That Iron is valuable as a Medicine has long been known, but it is only since the preparation of it in the particular form of Peruvian Syrup was discovered that its full power over disease has been brought to light. Its effect in cases of dyspepsia and debility is most salutary.

Among the many restoratives which nature has supplied to relieve the afflictions of humanity there is no more favorite one for a certain class of diseases than the "medicinal gum" of the Wild Cherry Tree; but however valuable it is, its power to heal, to soothe, to relieve and cure, is enhanced tenfold by scientific and judicious combination with other ingredients, in themselves of equal worth. This happy mingling exists to a remarkable degree in

Dr. Wistar's Balsam of Wild Cherry, whose value in curing Coughs, Colds, Bronchitis, Whooping Cough, Croup, Asthma, Pulmonary Affection, and Inipient Consumption is inestimable.

Strong Testimony. From Benjamin Wheeler, Esq., Depot Master of South Royalton, Mass.

"In the spring of 1858 I was most severely afflicted with a bad, dry cough, with its usual accompaniments of night sweats, completely prostrating my nervous system, and producing such a debilitated state of health that, after trying medical aid to no purpose, I had given up all hope of ever recovering, as had also my friends. At this stage of matters I was prevailed upon through the influence of a friend to try Wistar's Balsam of Wild Cherry, and before using two bottles the effect was almost magical. My cough entirely left me, the night sweats deserted me, and I once more felt my depressed spirits, and soon I had attained my wonted strength and vigor. Thus has this Balsam, as has often been remarked by persons who have used it, literally saved my life. I am indebted to the young man, who you are at liberty to use this for the benefit of the afflicted."

Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

GRACE'S CELEBRATED SALVE. Cures in a very short time all kinds of CUTS, GURNS, SCALDS, WOUNDS, BRUISES, SPRAINS, ERYSIPELAS, SALT RHEUM, RING-WORM, CHAPPED HANDS, BOLLERS, FROZEN LIMBS, FELLOWS, CHILBLAINS, &c.

It is prompt in action, removes pain at once, and reduces the most angry looking swellings and inflammations, as if by magic, thus affording relief and a complete cure.

CHILDREN'S LIVES SAVED FOR 50 CENTS.

THOUSANDS OF CHILDREN DIE annually of Croup. Now, mothers, if you would spend 50 cents, and always have a bottle of Dr. Tobias' Venetian Liniment in the house, you need never fear losing your little one when attacked with this complaint. It is now 20 years since I have put up my Liniment, and never heard of a child dying of Croup when my Liniment was used; but hundreds of cases of croup have been reported to me, and many state if it was \$10 per bottle would not be without it. Besides which, it is a certain cure for Cuts, Burns, Headache, Tooth-ache, Sore Throats, Swellings, Mumps, Colic, Diarrhoea, Dysentery, Spasms, Old Sores, and Pains in the Back and Chest. No one ever tries it who is ever without it. It is warranted perfectly safe to take internally. Full directions with every bottle. Sold by the Druggists, Depot, 56 Cortlandt Street, New York. [Feb. 6-1m.]

ERRORS OF YOUTH.

A Gentleman who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, will, for the sake of suffering humanity, send free to all who need it, the recipe and directions for making the simple remedy by which he was cured. Sufferers wishing to profit by the advertiser's experience, can do so by addressing, in perfect confidence, JOHN B. OGDEN, 42 Cedar Street, New York. May 16, 1867-1 yr.

ADDRESS TO THE NERVOUS AND DEBILITATED whose sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable. If you are suffering or have suffered from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, get out of order? Is your urine sometimes thick, milky, or sticky, or is itropy on setting? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspnoea? Are your bowels constipated? Do you have spells of fainting or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling upon this subject? Do you feel dull, listless, mooping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flabby, given to fits of melancholy? If so, do not say it to your liver for dyspepsia. Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man—Did you ever think of those bold, defiant, energetic, persevering, successful business men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or any other morbidness about them. I do not mean those who keep the organs inflamed by running to excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men from badly-cured diseases, from the effects of self-abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease—idocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease, which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have decorated for all but the right one.

Diseases of those organs require the use of a diuretic. HELMBOLD'S FLUID EXTRACT OF BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether arising in Male or Female, from whatever cause originating and no matter of how long standing.

If a treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from those sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy.

Helmbold's Extract Buchu, established upwards of 18 years, prepared by H. T. HOLMBOLD, Druggist, 594 Broadway New York, and 104 South 10th St., Philadelphia, Pa. Price—\$1.25 per bottle, or 6 bottles for \$6.50, delivered to any address. Sold by all druggists everywhere. [Feb. 28, '67.]

PROOFS OF THE SUPERIORITY OF THE AMERICAN WALTHAM WATCHES.

This country has reason to be proud of this splendid specimen of American operative genius and enterprise. That it will work a revolution in the watch manufacturing of the world no one can doubt who examines the operations of the Waltham establishment, for it turns out watch movements at just about one-half the cost of imported movements—beside the uniform reliability of the machine-made watches must give them a great advantage over all others wherever known. A poor time-piece of the machine make will be as rare in the future as a good one of hand make has been heretofore, for machinery is arbitrary in its performance, and can make a perfect article just as easy as one that is worthless. It will be a cause of congratulation that this highly useful American Enterprise shall have the effect of driving out of market the thousands of trashy "foreign-made" timekeepers, by furnishing so excellent and economical a substitute. —N. Y. Times.

"We have had one of the works of this Company in a case for some considerable time, and, comparing them with former first-class works of different manufacture possessed by us, they have established in our opinion the superiority over any ever introduced for correctness as time pieces." —The World.

"We notice with regret (writing of the Paris Exposition) the absence of specimens American manufacture, which, although only comparatively recent birth among us, is already producing results of the most satisfactory character. The watches manufactured by the Waltham Company are certainly, so far as strength, durability, and excellence as time-keepers are concerned, as good as anything produced by the French or Swiss manufacturers." —N. Y. Herald.

"The beauty, the precision, the greater cheapness, the uniform excellence of a watch constructed by machinery—so exquisite that the mere spectacle of its operation is poetic, gradually give the American Watches a public preference which will not be deceived." —Harper's Weekly.
