THE peculiar mint or infection which w call Schorena lurks in the constitutions of multitudes of men. It either produces or is produced by an erfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and-

decay. The scrofulous contamination is variously caused by mercurial disease, low ag, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the inequities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and firely Consumption; in the lands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements thick produce indigestion, dyspepsia, and liver complaints; on the skin, emptive and cutaneous affections. These, all having the came origin, require the same remedy, viz., purification and invigorathese dangerous dietermers leave you. Will feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh"

dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Seald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases. Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity cases may be found in Aven's AMERICAN ALMANAC, which is furnished to the dauggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are Lealthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now effer to the public under the name of Aver's SARSAPARILLA, although it is composed of ingredients, some of which execed the lest of Saraparilla in alterative power. By its aid you may protect yourself from the ruffering and danger of these disorders. Purge out the foul corruptions that ret and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lark within the system or burst out

on any part of it. We know the public have been deceived ly many compounds of Saraparille, that omised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by alundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach, Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effeetual than any other which has ever been eveilable to them.

AYER'S CHERRY PECTORAL, The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief
