

The Jeffersonian

THURSDAY, MARCH 12, 1868.

RADICAL RESTORATION. Its good effects are permanent. It not only restores the color of the hair, but the quantity and natural glossiness.

There never was a time when the march of improvement was so rapid in this neighborhood as now. A few weeks ago we announced a dozen buildings—the erection of which was contemplated.

Many suffer rather than take nauseous medicines. All who suffer from coughs, colds, irritation of the bronchial tubes or tendency to consumption, will find in Dr. Wistar's Balsam of Wild Cherry a remedy as agreeable to the palate as effectual in removing disease.

During services in the Presbyterian Church, on Sunday morning last, the choir varied the usual routine by a most brilliant rendering of the "Grand Te Deum laudamus."

The warm weather which commenced on Friday night last, has played hob with our sleighing, and rendered it a question as to whether runners or wheels are the best means of locomotion.

Bug Furniture.

The 1st of April is nearly come. Begin by taking your beds, chairs, and general furniture to the painter. It is as good as a general fumigating to the house.

To Sickly Persons.

To persons who are weak and sickly, the use of Spear's Port Grape Wine will restore their health and strength. Physicians, clergymen and temperance advocates should encourage the use of the Port Grape Wine, and thus aid the cause of temperance and moderation.

Our druggists have procured some direct from the vineyard. It is excellent for females to use.

The Action of Congress Triumphant

HARRISMAN ELECTED GOVERNOR

ABOUT 3,000 MAJORITY

A dispatch from the Scranton Morning Republican brings to us the glorious intelligence, that the gallant Harrisman has again met the Rebel enemy and routed them horse, foot, and dragoon. His majority over Sinclair is about 3,000.

The annual conference of the Philadelphia Methodist Episcopal Church convened in Philadelphia this week.

The Republican Convention.

This body of patriots met at Philadelphia yesterday, to nominate candidates for the offices of Auditor and Surveyor-General, and delegates at large to represent the State in the Chicago Republican Convention.

At the evening session the Convention elected a delegation to the National Convention and an electoral ticket. Lewis C. Cassidy, of Philadelphia, from the Committee on Resolutions, made a report which was adopted: That the prompt restoration of all the States to enjoyment of all rights in the Union is essential to our progress and prosperity as a nation.

The warm weather which commenced on Friday night last, has played hob with our sleighing, and rendered it a question as to whether runners or wheels are the best means of locomotion. It is a good thing to have the snow, which, on the level, has melted away at least one-half, go off in this way, for had it gone with a warm rain the amount of damage done along our streams would, doubtless, have proved perfectly paralyzing to business energy in this neighborhood.

The Registry Law now before the Legislature is a good one and ought to be passed immediately. If this law had been pushed through last winter, it would have secured the election of a Republican Judge of the Supreme Court.

Opinion of Attorney-General Black. We quote from the "Opinion of Attorney-General Black upon the powers of the President." "To the Chief Executive Magistrate of the Union is confided the solemn duty of seeing the laws faithfully executed. But his power is to be used only in the manner prescribed by the legislative department.

The Registry Law now before the Legislature is a good one and ought to be passed immediately. If this law had been pushed through last winter, it would have secured the election of a Republican Judge of the Supreme Court. It is said, however, that a sufficient number of illegal votes have already been discovered in the State in contested election cases, to elect Judge Williams, who declines the election.

The Pennsylvania Democratic Convention has resolved that "in enacting the Tenure-of-office law, the executive and legislative branches of the Government each had a right to judge of its constitutionality." Very true. The President, judging of "its constitutionality" for himself, disobeys the act.

Democratic journals teem with predictions that if the Senate finds Mr. Johnson guilty of the acts for which he has been impeached by the House, and removes him from his office, the Republican party will be overwhelmingly defeated at the Presidential election.

The Louisiana Reconstructing Convention has finished a new Constitution for the State, and the members have signed it—except seven, who refused.

PENNSYLVANIA DEMOCRATIC CONVENTION

CHARLES E. BOYLE, OF FAYETTE, NOMINATED FOR AUDITOR-GENERAL, AND WELLINGTON H. ENT FOR SURVEYOR-GENERAL—RESOLUTIONS ADOPTED—NO PREFERENCE EXPRESSED FOR PRESIDENT.

HARRISBURG, March 4.—The Democratic State Convention met in the Hall of the House of Representatives, and was called to order by Hon. William A. Wallace, Chairman of the State Central Committee.

At the evening session the Convention elected a delegation to the National Convention and an electoral ticket. Lewis C. Cassidy, of Philadelphia, from the Committee on Resolutions, made a report which was adopted: That the prompt restoration of all the States to enjoyment of all rights in the Union is essential to our progress and prosperity as a nation.

THE IMPEACHMENT TRIAL.

WASHINGTON, March 7, 1868. There was nothing interesting in the Senate yesterday aside from impeachment. The objections to Mr. Wade's being sworn were renewed by the Democratic members. An attempt was made to check debate on the point, by the enforcement of the 23rd of the rules adopted by the Senate on the 2nd for the conduct of proceedings during the impeachment trial.

WASHINGTON, March 8. The summons to the President is made returnable on Friday, the 13th, when the President's counsel will ask for a delay of thirty days, but there is no probability that over a week or ten days, will be granted him.

The managers on the part of the House have not yet taken any testimony, and all stories to the contrary are unfounded. Several witnesses have volunteered, but none have as yet been accepted by the committee, nor has the question of withdrawing Mr. Butler's article even been suggested in the committee.

There is much diversity of opinion as to the duration of the trial, and although no accurate estimate can be formed at this time, it is most likely that the trial will last until the middle or last of April. No one here who has an opportunity to judge and who can look upon the issue impartially, doubts a conviction at no distant day, and none believe that Mr. Johnson can so far overcome his insatiable thirst for office as to resign even for a day or an hour.

The President stated to a member of Congress yesterday that hereafter ad interim Congress would be invited to attend Cabinet meetings, and should be recognized as Secretary of War, and if any one did not like to have him exercise the duties of the office he could resort to legal proceedings to remedy it.

The act to establish an additional State institution for the insane, has passed both branches of the Legislature. The bill authorizes the Governor to appoint three commissioners to select a site and build a hospital for the insane of the Northern district of this State, comprising the counties of Monroe, Carbon, Pike, Wayne, Susquehanna, Potter, McKean, Tioga, Lycoming, Columbia, Luzerne, Clinton, Centre, Wyoming, Montour, Sullivan, Bradford, Clearfield, Elk, Cameron, Warren and Erie.

The Baltimore Gazette (Dem.) is out of patience with the Northern people because they accept the impeachment business with calmness. It says: If the people here to save the Constitution and their rights, now is the time to speak. If they would but start into action in every town and hamlet in the land, and make known their will, the promoters of this fraudulent and disgraceful impeachment scheme would shrink in terror from its further prosecution.

All the passenger cars on the Reading railroad are supplied with a new patent safety stove, which in case of accident cannot set fire to the cars.

Queries by the Philadelphia Post.

If a President is never to be impeached, pray why is there a Constitutional provision for that extreme process? If a President is to execute merely those laws which may happen to suit his convenience or to square with his convictions, pray what is the use of having a Congress at all? If a President may with impunity make the Secretary of War his mere creature, pray what is the use of having a War Department at all, and why not do its business in some back office of the White House?

The highest elevation overcome in Pennsylvania, in a single rise by a locomotive road, is on the Delaware, Luckawanna, and Western Railroad from the Delaware river, where it is 288 feet above tide, to the Pokono summit, which is 1,969 feet above tide, making the altitude surmounted 1,681 feet.

To get out of the Wyoming and Lackawanna coal basins across the water shed to the Lehigh and Delaware rivers, greater elevation is overcome than is encountered at the Allegheny Mountain. True, the Allegheny summit is higher above tide than any other mountain in Pennsylvania, but the Allegheny is twice as many miles distant from tide water as the Wyoming, Pokono and Moosic, which rise between the Northern coal field and the great markets.

A Savannah Negro Turning White—Strange Freak of Nature.

There is in this city a negro man who is gradually undergoing a transformation—a change of color—for which no cause can be assigned nor reason ascribed.—The man in question is a drayman, and is well-known to parties here, who have for some time remarked the wonderful and curious change of which we speak.

Edwin Forrest is worth \$700,000; Barney Williams, \$350,000; Edwin Booth, \$150,000; Maggie Mitchell, \$150,000; W. J. Florence, \$100,000; John Broughman, \$75,000; J. E. Murdoch, \$65,000; J. E. Counterfeit Twenty-five Cent Notes. A large number of these notes are in circulation. They are the best executed counterfeit of this denomination yet manufactured, and are calculated to deceive the most careful money takers.

Don Platt, in a letter to the N. Y. Tribune, says of the Democratic party—"It is the organized ignorance and blind prejudice of the land, and is therefore immortal. At the great day, when the Almighty calls the people to judgment, the Democratic party will come up shouting for a 'white man's Government,' and avowing its solemn determination to 'vote the ticket, the whole ticket, and nothing but the ticket.'"

Our Insane.

The Medical Society of the State of Pennsylvania has sent a memorial to the Legislature, setting forth the number and condition of the insane in this Commonwealth, and has requested the erection of a hospital for the northern and eastern counties, and if the finances of Pennsylvania will permit, of a hospital in the southeastern counties.

The charge that Republicans make the matter of impeachment a party question is effectually disproved by the course of the party in the New-York Assembly. Mr. Dorn, a Republican, one of the Canal Commissioners, has been charged with malfeasance in office by a Democratic Assemblyman from Kings County.

Money in Every Man's Pocket.

In every view of the case, removal by impeachment of Andrew Johnson, will be beneficial to the nation. It will save the people's money. It has been removed a year since, one hundred millions now lost to the treasury, would have been saved. Removed him even yet, and Reconstruction will be speedily effected; the Revenue service will have its morale and honesty restored; business will revive; confidence in the future will be re-established, and the nation will be strengthened in the eyes of the world.
