THE peculiar taint of infection which we call Scrorula lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes inempetent to sustain vigorous action, and

leaves the system to

fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, fiith and filthy habits, the depressing vices, and, above all, by origin, it is hereditary in the constitution, descending "from parents to children unto seems to be the rod of Him who rays, "I willvisit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Serofula produces tubercles, and family Communitien; in the glands, swellings which rup thate and become ulcerous sores; in the stomach and' bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King'a Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Plotches and Sores, Erysipelas, Rose or St. Authony's Fire, Salt Rheum, Seald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Meuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases. Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Aven's American ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable curvs which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have accers to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of laman life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Aven's SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarseparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of discase, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distenpers

which lurk within the system or land out on any part of it. We know the public have been deceived by many compenseds of Sarseparille, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effeetual than any other which has ever been available to them.
