Although the farm, from its August Belmont, and red thus: Having provided ourselves with a new, adjoining were two working horses and high elevation, is rather difficult of acfive three-year old colts. Several of the latter were magnificent creatures, one es- visitor. pecially eliciting our admiration. In the rear of this last stall we were shown a pen, about eight by ten feet in size, in which were crowded six yearling colts.

Leavnig these stables we were taken to the barn, a substantial stone building, over one hundred feet long. In the first

In the next stable there were seven cows, one heifer and nine calves. In the next were twenty two two-year old heifers and steers. In the next stable were thirty-six heifers and steers, fourteen two-year olds ranged on one side, and twenty-two yearlings on the other. In the next stall were ten calves nine months old, and nine fat oxen four years old. The latter were in excellent condition, being well fattened, and would weighed from seven hundred to one thousand pounds apiece when killed and dressed. In the next stall were eleven cows, six calves and one sheep; and in the next, two fine white mares.

Leaving the barn we were conducted to another separate stable, in which we found, huddled together and untied, eighteen colts two years old, of every

We then proceeded to a yard adjoining the barn, and surrounded by a number of stacks and a row of sheds, in which were confined thirty-four steers and heif-Carriages repaired, trimmed and paint ers of various ages. These are quartered in this enclosure the entire winter, hav-Having first class material always on ing no other shelter save the sheds men-

We were also shown four very fat hogs, the backs of which were a number of In connection with his Carriage Shop chickens, apparently well contented with nure during the heat of summer; the The next wuz from Franklin Peerse, their warm roost. The remainder of his hogs, fifteen in number, are kept during winter in a field, half a mile distant from the barn, and having for shelter a pen constructed like a collier's hut. In here they crowd together at nights, and manage to keep each other warm. The above comprises the whole stock, which adds up as follows: - Horses, 14; colts, 40; cows, 17; beeves, 109; calves, 15; hogs. 19; sheep, 1 - making a sum total of

> These figures are less than the general average amount of stock, as we were told by Mr. Texter that he had lately disposed of a number of horses, steers, etc., and has not yet commenced his usual spring purchases. His average amount of stock may safely be estimated at three hundred head. He supplies himself, for future particulars :raising, with from forty five to fifty calves every spring, which he obtains from neighboring farmers. Although possesscellent condition.

girl had charge of one hundred head. cashier.
