**GRACE'S CELEBRATED SALVE.**  
We are constantly hearing favorable reports from those who have tried this remedy. Any Anthony, wife of Mark Anthony, of this city, and living at No. 6 Locust Street, afflicted with a felon on the finger, was recently induced to make a trial of the Salve. Almost instantly she experienced relief from the pain, which had been almost unendurable. Every other remedy but this proved unavailing. Those who have tried it, once are satisfied of its merits, and nothing will induce them to be without a supply. — *Philad. River News.*

**Testimony of Mr. PETER SHAW.**  
WEST WINDFIELD, N. Y., Dec. 10, 1860.  
Messrs. S. W. FOWLE & SON, Boston.  
Gentlemen:—During the winter of 1859 I was very much out of health, afflicted with a severe Cough, Pain in the side and Lungs, and a general depression of health to such an extent as greatly to alarm myself and friends as to the result. During this time I tried several highly recommended remedies, with little or no result, and had concluded to try the effect of Southern climate upon my health; but, before carrying this resolution into effect, I was induced by the urgent solicitation of your agent, Mr. Huntley, to give Dr. WISTAR'S BALSAM OF WILD CHERRY a trial. I did so, and to my great joy found immediate and permanent relief by the use of only one bottle, and I am now in as good health as ever. I believe your Balsam one of the best remedies for Coughs, Colds, and all Lung Diseases, now in use, and conscientiously recommend it as such.  
Yours truly,  
PETER SHAW.

**UNION MOWER & REAPER.**  
(A combination of different patents.)  
IT COMBINES MORE VALUABLE features and will better meet the wants of Farmers than any Machine ever invented. Has been in use for the past seven years, and has proved a perfect success. Can be worked successfully on rough and stony land, and is the most durable machine in use. Has a loose pole and no pressure on the horse's neck. Has an elevating lever for raising the bar. The bar can be retained at any required height without the assistance of the driver, and can be securely folded for transportation. The Cut-bar, in front of driver, is mounted on wheels which reduces the friction, and by means of which the height of cut can be regulated. The patented draft arrangement prevents side draft, and enables the Cutters to pass in and out of furrows with ease and safety. The Guards are of malleable iron, steel faced, and are placed near together on the Bar and form a protection to the Cutters, and are warranted not to break. The Bar and Frame are raised at the same time and obstructions passed, between the wheels, as high as the axle. The working parts and Bar always retain the same relative position; there is, therefore, no unusual strain or wear on the gearing or knife bar, as is the case in other machines. Every machine is warranted.
