THE peculiar taint or infection which we call Schoftla lurks in the constitutions of nullitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that flyid becomes incompetent to sustain the vital forces in their vigorous action, and

Fleaves the system to

fall into disorder and decay. The scrofulous commanden is varionsly cancel by mereurial disease, low living, disordered disastion from unhealthy food, impure cir. fifth and filtly habits, the depressing vices, and, alose all, by the repercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation; " indeed, it seems to be the rod of Hua who anys, "I will view the iniquities of the fathers upon their children." The diserver it originates take various names, according to the organs it attacks. In the lungs, Scrobila produces tubercles, and finally Communition; in the glands, swellings which suppurste and bocome ulcerous rores; in the storagely and bowels, derangements which pr duce indigestion, dyspepsia, and liver compt. "ts; or the skin, emptive and cutations affection. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have accofulous disease.

Ayor's Sarsaparilla

is compounded from the most effected anti-

dotes that medical science has discovered for this afflicting distansper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is. known by all who have given its trial. That and satisfactorily. Orders taken for Silver it does combine virtues truly extraordinary in their effect upon this class of complaints. is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuborculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgis, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggies for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable curvs which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal yearlie than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of luman life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Aven's SARSAPARILLA, chicoph it is conjused of ingredients, set o of which exceed the best of Sarsaparille in alterative power. By its aid you may protect you self thomathe suffering and danger of these disorders. Purge out the feul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will tollow. By its peculiar virtues this remedy attinulates the vital functions, and thus expels the distenpers which lack within the system or turst out

on any part of it. We know the public Pave Leen decrived by many compounds of Serreparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effeetual than any other which has ever been
