"Grant, the Butcher!"

It has been a favorite charge of the Democracy that Gen. Grant, after his as sumption of the command of the Army of the l'otomae, butchered off his men with out stint, and cared but little for the lo of life so that he secured victory to hi efforts. For this alleged reason he most liberally denounced as " Grant, the Butcher," and figures are paraded to show that his march from the Rapidan to Richmond was at best but a moving slaughter-house in which Union soldiers were unmercifully butchered. On our first page we present a statement of facts, carefully prepared from the official docu ments, which go to show that, notwith standing the heaviest battles of the war end, the suppression of the Rebellion, was accomplished by him, his losses of men foot up some 40,000 less than were the losses to the same army prior to his gun scares and all. Hon. Isaac N. Morris, an old influen tial Democrat of Quincy, Illinois, made a long and able speech lately in favor of Grant and Colfax. The conclusion of it was as follows:
