Since the adjournment of the Demo tratic Convention curious stories are gaining currency of the convivial meetings of delegates at small hours of the morning when even reportors were abed, and re bellion was glorified in speech and song. and bumpers were filled in honor of the Frank Blair bopes to regain it.

Does any little thing make you start or jump ? Is your sleep broken or restless ! Is the lustre of your eye as brilliant ! The bloom on your cheek as bright ! Do you enjoy yourself in society as well ! Do you pursue your business with the same energy ? Do you feel as much confidence in yourself! Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver-complaint ?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation. when in perfect health, make the man. D d you ever think that those bold, defiant, energetic, persevering, successful businessmen are always those whose generative or gans are in perfect health ! You never hear no such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face - none of your downcast looks or any other meanness about them. I do not mean those who keep the organs" inflated by running to excess. These will not only ruin their constitutions, but also those they do business with or for. How many men, from badly-cured discases, from the effects of self-abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease - idiocy, lunacy. paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely over suspected, and have doctored for all but the right one. Discases of these organs require the use of a Diarctic. HELMBOLD'S FLUIDEX TRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weak-ness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing. If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy.
