badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful businessmen are always those whose generative organs are in perfect health? You never hear no such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face - none of your downcast looks or any other meanness about them. I do not mean those who keep the organs inflated by running to excess. Thieves, Trespassers and Sabbath These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly-cured diseases, from the effects of self-abuse and ex- past been greatly annoyed and damaged by cesses, have brought about that state of an idle, impudent and unprincipled class, weakness in those organs that has reduced who go through our crops, break our fences, the general system so much as to induce al- catch our fish, injure and destroy our trees, most every other disease - idiocy, lunacy, paralysis, spinal affections, suicide, and al- use or sell it, annoy us by shooting, &c. &c. most every other form of disease which hu- regardless of dogs, threats, stones, &c., have manity is heir to, and the real cause of the resolved to bear witness and prosecute to the trouble scarcely ever suspected, and have doctored for all but the right one.

Diseases of these organs require the use of a Diuretic. Ayer's Cherry Pectoral.

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the day. at the same time the most effectual remedy that can be given for incipient consumption, and the dan-gerous affections of the threat and lungs. As a pro-vision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this autidote for them. Although settled *Consumption* is thought incurable, still great numbers of cases where the dis-ease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Psetoral they subside and disappear.

Singers and Public Speakers find great protestion from it.

Asthma is always relieved and often wholly Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully
