J. LANTZ, DENTIST.

Has permanently tocated himself in Stroudsburg, and moved his office next door to Dr. S. Walton, where he is fully prepared to treat the natural teeth, and also to insert incorruptible artificial teeth on pivot and plate, in tye latest and most improved manner. Most persons know the danger and folly of trust ing their work to the ignorant as well as the traveling dentist. It matters not how much experience a person may have, he is liable to have some failures out of a number of cases, and if the dentist lives at a distance it is frequently put off until it is too late to save the tooth or teeth as it may be, other wise the inconvenience and trouble of going so far. Hence the necessity of obtaining the services of a dentist near home. All work warranted.
