I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of tea and coffee, and frequent childbirth, it is far oftener caused membrane of the vagina itself. When reviewing the causes of these distressing complaints, it is most painful to con- NO CURE ! template the attendant evils consequent upon them. The mania that exists for precocious education and marriage, causes the years that nature designed for corporeal devolopment to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Thus, with the body half-clothed, and the mind unduly excited by pleasure, perverting in midnight revel the hours designed by nature for sleep and fest, the work of destruction is half accomplished. In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school at a later day, thus aggravating the evil. At last an early marriage caps the climax of misery, and the unfortunate one, hitherto so ulterly regardless of the plain dictates and remonstrances of her delicate nature, becomes the unwilling subject of meditore, becomes the unwilling subject of medi-cal treatment. This is but a truthful picture of the experience of thousands of our young women. Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nervous system, composed of what is called the tissue which is, in common with the female breast and lips, evidently under the control of mental emotions and associations at an early period of life; and, as we shall subsequently see, these emotions, when excessive, lead, long before puberty, to habits which sap the very life of their victims ere nature has selfcompleted their development. For restoring Gray Hair to

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glauds atrophied and decayed. But such as remain can be saved for x. Pass usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a
