Four turkeys were cooped up and fed with bread, boiled potatoes, and oat; four others of the same breed were treated in a similar manner in another pen, but with a pint daily of finely pulverized charcoal added to the food; and an abundant supply of the coal. All eight were killed the same day, and these fed with the charcoal were found to weigh a pound and a half more than the others, and to be of much better quality.

**TO PHYSICIANS.**  
New York, August 13, 1867.

Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are BUCHU, LONG LEAF, CUBEBES, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo, Juniper Berries, by distillation, to form a gin. Cubebes extracted by displacement by liquor obtained from Juniper Berries, containing very little sugar, a small proportion of spirit, and more palatable than any now in use.—The active properties are by this mode extracted.

Buchu, as prepared by Druggists generally, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this, [its active principle], leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopoea, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exists. In this, you have the knowledge of the ingredients and the mode of preparation. Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation.

With a feeling of confidence,  
I am, very respectfully,  
H. T. HELMBOLD,  
Chemist and Druggist of 16 Year's Experience in Philadelphia, and now located at his Drug and Chemical Warehouse, 594 Broadway, New York.

[From the largest Manufacturing Chemists in the World.]

"I am acquainted with H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."  
WILLIAM WEIGHTMAN,  
Firm of Powers & Weightman, Manufacturing Chemists, Ninth and Brown Streets, Philadelphia.

HELMBOLD'S FLUID EXTRACT BUCHU, for weakness arising from indiscretion. The exhausted powers of Nature which are accompanied by so many alarming symptoms, among which will be found, Indisposition to Exertion, Loss of Memory, Wakefulness, Horror of Disease, or Forebodings of Evil, in fact, Universal Lassitude, Prostration, and inability to enter into the enjoyments of society.

The Constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to Consumption or Insanity ensues.

HELMBOLD'S FLUID EXTRACT BUCHU, in affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirous State of the Uterus, and all complaints incident to the sex, whether arising from habits of dissipation, imprudence in, or the decline or change of life.

HELMBOLD'S FLUID EXTRACT BUCHU and IMPROVED ROSE WASH will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superseding those unpleasant and dangerous remedies, Copavia and Mercury, in all these diseases.

USE HELMBOLD'S FLUID EXTRACT BUCHU in all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists and Dealers everywhere. Price \$1.25 per bottle, or six bottles for \$6.50. Delivered to any address.—Describe symptoms in all communications. Address H. T. HELMBOLD, Drug and Chemical Warehouse, 594 Broadway, N. Y. NONE ARE GENUINE UNLESS DONE UP IN steel-engraved wrapper, with facsimile of my Chemical Warehouse, and signed H. T. HELMBOLD.

**Ayer's Sarsaparilla,**  
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys is derived from its cures, many of which are truly marvellous. Incurable cases of Scrofulous diseases, such as the skin eruptions, which are attended with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous humors, have been cured by it. Scrofulous humors, which are the most destructive enemies of our race. Often, this unseen and insidious foe of the organism undermines the constitution, and invites the attack of febrile or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable effect, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcers on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is visible, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, either in length, cure, by the use of this Sarsaparilla: Scrofulous humors of the Liver, and Jaundice, when arising from one of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcers on some part of the body.
