

The Jeffersonian.

THURSDAY, FEBRUARY 11, 1868.

The Rev. Mr. Henkel, we see by the Allentown papers, delivers his able Lecture on "Woman's Influence," to-morrow, Friday, evening, in that city; the proceeds for the benefit of the Societies of Muhlenburg College. A rich treat will the Allentowners enjoy.

We are under obligations to the Hon. Edward McPherson, Clerk of the U. S. House of Representatives, for a copy of the Congressional Directory for the third session of the Fortieth Congress; a very valuable work.

Hon. C. Burnett, of the Senate, and Gen. Selfridge, Clerk of the House, have laid us under obligations for legislative favors.

Divine Service.

The Rev. David Macleis, D. D. will preach in the Presbyterian Church, Providence permitting, on the 2nd and 3rd Sabbath of February inst.

The congregation listened to two very able and interesting sermons from the Rev. Mr. Carroll, of Phillipsburg, N. J., on Sabbath last.

The Millford Herald came to us last week enlarged and somewhat improved in appearance, but as litter in its Democracy as ever. We wish friend Doney a full measure of pecuniary good luck, but hope that political success may not be his until he eschews the ugliness of his political creed.

Return of Thanks.

I wish to acknowledge my heartfelt thanks due to my Congregations, and all other good and kind friends, who have remembered me by word of donation. I have received, in cash and other useful articles, \$200 00. May God bless the generous donors, and give me grace to serve them faithfully in spiritual things.

HENRY SEIFERT.

Quarterly Meeting.

The 4th Quarterly Meeting will be held in the Methodist Church, in this borough, on Sabbath next. Love Feast at 9 o'clock, a. m., and preaching at 10 o'clock, a. m., by the Pastor. In the evening at 7 o'clock, the Rev. Joseph Mason, Presiding Elder, whose term of office expires with the present conference year, will preach his last sermon in his official capacity.

In the Supreme Court.

The Case of Brooks and Orme, confined in our county jail under sentence of death, and who were to have been executed on the 26th inst., has been carried to the Supreme Court on a writ of error. In consequence execution of the Governor's death warrant has been stayed indefinitely by order of the Court. The points are to be argued on Monday, March 1st. Burns, Storm and Lee, for Plaintiff in Error; Davis, Dreher and Holmes for Defendants in Error.

Narrow Escape.

While Theodore Hallock was at work painting the new house in course of erection for Mr. Frank Culverson, in the upper part of the borough, on Monday last, and when near the peak of the roof, the ladder on which he was standing broke into three pieces, and he was precipitated to the ground, paint pots and all. —Dare might have been killed, but we are pleased at being able to state that a slight jarring and a plentiful sprinkling with paint was the extent of his injuries. He fell a distance of some twenty-two feet.

Lots of rare old fun at Hollinshead's Hall this evening. Ad. Collins, Al. Mortimer, H. B. Sinclair, Frank Solomon, G. W. Loller, Mike Magraw, J. Whitmore, and Master Hingley Maguire, of the world renowned Collins and Mortimer Minstrels are to be there, and such a side-splitting entertainment as we shall have, Stroudsburg never saw before; and the entertainment will prove as chaste as it will be amusing. Bring your quarters, and be sure that your buttons and hooks and eyes are fast sewed on.

Aim at perfection in every thing, though in most things it is unattained; however, they who aim at it, and persevere, will come much nearer to it than those whose laziness and despondency make them give it up as unattainable.

The above is particularly applicable to the subject of health—all should do every thing in their power to attain perfection, as near as possible, in that. This can be secured by a regular and continued use of the Zingari Bitters.

Our young friends, Messrs. Palmer & Herrman, having an idea that Printers like good things occasionally, a few days ago made us the recipient of one of the most luscious and beautiful cakes our palate and eyes have feasted on in many a day. The cake itself was elegant, while the ornamental icing was really superbly artistic; showing, conclusively, to us that with the enterprise of the firm, backed by the unsurpassable skill of friend Charley, we have a host here at home in the baking and Confection line. We understand that the firm have secured enlarged facilities for trade in the Spring, and that Ice Cream will be added to their luxurious Bill of Fare in due season.—Goetz's superior Mead on hand.

We publish elsewhere in this week's paper, from the Scranton "Republican," a description, in detail, of a new building to be erected, during the coming season, for our enterprising townsmen, Mr. William Hollinshead. The building will occupy the lot purchased by Mr. H. of the Vail estate, on Main street, and when completed will be one of the handsomest and most convenient private residences in this section of country. The building will be fitted for gas, and, in the absence of a regular gas company, light will be furnished from one of "Wood's Fifteen Burner Automatic Gas Machines," which are now so rapidly being introduced into all the better class residences throughout the country.

Some of our Democratic contemporaries, we observe evince an irresistible itching to put a finger into our gubernatorial pie, and assist us to make a nomination, on such terms as would open up a prospect for their candidate in the fall. They are discovering an army of reasons why Geary should be re-nominated on the one hand, and why Grow or some other good Republican should be nominated on the other; and they are very minute in the particulars as to what influence is at work to kill off this man, and what other influence is determined to kill off that man—what somebody else is doing in this direction, and what somebody else is doing in some other direction. We will do our Democratic friends the justice to say, that they have named none but good representative men of the Republican party in connection with the Republican nomination, but we feel that it would be an imposition to tax their time and patience further. They have a heavy job of their own on hand, and as the people are perfectly satisfied at present with our excellent soldier Governor, they will do well to let well enough for us alone, and attend to their own affairs. The Republican party has come to years of discretion; and should it, by the 23rd of June, become necessary to find a new man for the position now adorned by Governor Geary, our Convention will be, doubtless, able to find him, without Democratic aid. There is not a doubt in the case.

The devotees of St. Valentine should remember that Sunday next is the Saint's natal day, and that Messrs. Brown & Keller are abundantly supplied with his tender missives.

Stroudsburg Improvements.

In looking through the office of H. H. Noll, architect, yesterday, for city improvement items, we found the plan for a private residence, to be built by Mr. Jeremiah Shiffer, of this city, for Mr. Wm. Hollinshead, of Stroudsburg. From Mr. Noll's plans we find that Mr. H.'s house is to be built on the North side of Main street, Stroudsburg, of brick, and to cost about \$10,000. The style of architecture to be Italian, with Mansard roof. It is to be three stories in height, with dimensions 45x64 feet, including the veranda and bay windows. It is to be finished in the best style of modern art, with all the latest improvements and conveniences. On the first floor is to be a parlor, 14x20 feet; dining room, 15x20 feet; sitting room, 15x18 feet; kitchen, 12x15 feet, exclusive of closets; pantry and storeroom, 8x9 feet 9 inches, with veranda in front and rear. On the second floor are four chambers, 15x18 feet 6 inches; 15x16 feet; 14x15 feet, and 11x13 feet feet, respectively, and a bath room 8x9 feet 6 inches. In the third story, or attic, are to be five rooms, 13x18; 11x16; 13x15; 10x12; and 9x13 feet respectively. When finished, Stroudsburg can thank our friend Hollinshead, and Scranton architects and artisans, for introducing a structure of which they can well feel proud.—Scranton Republican Jan. 13.

The theatre in which Mr. Lincoln was assassinated has been converted into a museum of comparative anatomy. Specimens of the more remarkable gun-shot wounds of the entire war, illustrated by the bones, have been gathered from all the hospitals, East and West. Among them are a piece of the spine of J. Wilkes Booth, with a wire, showing where the bullet passed which ended his fateful career, and Gen. Sickles' thigh-bone, which was shattered by bullets at Gettysburg. The curiosities are arranged in cases and daintily put up, with skulls innumerable, so that one feels as if he were in the catacombs of Paris, well illuminated, and with all their ghastliness properly labeled. The museum is well worth a visit, however, and is one of the most interesting "sights" in Washington.

The latest and most horrible form of suicide is that chosen by a young girl in Dauby, Ill., about 25 miles from Chicago, last Thursday evening. She threw herself under a railroad train, which ran over her, severing her head from the body, and throwing it several feet away, and also cutting off one of her feet and crushing one arm. The cause of the terrible act is said to be the refusal of the parents to allow the poor girl to marry a young man to whom she was attached. A letter was found in the pocket of her dress, directed to her lover, bidding him an affectionate good bye. The suicide was committed after dark, and girl apparently threw herself under the cars instead of before the engine.

When the railway across the continent of America is completed, there will be constant conveyance by means of railways and mail packets for passengers desiring to travel round the world. The grand tour will be twenty-two thousand miles in length, and will cost \$1,500, and will be accomplished in about eighty days.—The American tourist will be able to visit England, Japan, China, Ceylon and Egypt. He will cross the Atlantic, North Pacific and Indian Oceans, the Red and Mediterranean seas, the continent of America and the delta of Egypt. He will be able to sail in the beginning of May, and to arrive home again about the middle of July.

Daring Robbery.

Two unknown men perpetrated a most daring robbery, at half-past seven o'clock, this evening, at Benedict's jewelry store No. 621 Broadway. One of them snatched in the plate glass of third window with an iron masher, and the other smashed, through the hole thus made, a tray of diamond rings, valued at \$10,000. The rings got scattered and the burglars escaped with \$1900 worth.

A Tough Case.

Elder Knapp had been holding a protracted meeting in Arkansas, and on a certain Sunday was to have a "baptizing" of converts in the river, in the secluded locality in which the revival took place. As he advanced into the water with a wiry, sharp-eyed old chap, he asked the usual question, whether any person knew any reason why the ordinance of baptism should not be administered. No one answered for a few moments, but at length, a tall, straight and powerful looking chap, with an eye like a blaze, who was leaning upon a long ride and quietly looking remarked: "Elder, I don't want to interfere with this yere business, any way, but I want to say I know that old cuss you've got hold of, and I know that one dip won't do him any good. If you want to get the sin of him, and save him, you'll have to anchor him out in deep water over night."

The Bridge.

Strong efforts are now being made towards rebuilding the bridge across the Delaware, at this place. That we need a bridge, and that one would add greatly to the business interests of the town, no one can deny; but we will not have one unless some of the capitalists, the most interested parties—take earnest hold of the matter. Let every one take hold now and success is certain. A good bridge will certainly pay a liberal premium to its stockholders; in fact, we doubt if at present money could be better invested than in this enterprise. We are pleased to learn that a large amount has already been subscribed, and we hope that we may soon have the satisfaction of announcing that the shares are all taken, and the work commenced. Applications for shares should be made to Jno. C. Mott, or D. A. Wells, Milford, Pa.—Milford Herald.

The Republican State Committee held a meeting at Harrisburg last Thursday, and determined upon the 23d of June next as the time for holding the State Convention for the nomination of candidates for Governor and Supreme Judge. An unsuccessful attempt was made to have the Convention held earlier, but the prevailing sentiment was against a long and laborious campaign. The Committee adopted a resolution calling upon public officers of every kind to promote economy in all their actions, and another favoring the enactment of a metropolitan police bill for Philadelphia. For the office of Governor, no other candidate than Gen. Geary has been suggested, and for that of Supreme Judge there appears to have been no canvassing whatever. It will of course be conceded to Judge Williams.

Relics.

The authorities of Mt. Pleasant township, Wayne county, advertise the effects of Isaac Jenkins, a deceased pauper, to be sold on the 19th inst. Among these are one rifle, bullet-pouch, powder horn, bulletmoulds and scalping knife, supposed to have been the property of the renowned Tom Quick, the great "Indian Slayer," who flourished in this vicinity in the days of "Auld Lang Syne." A fine chance this for curiosity hunters.

Recommended.

The Democrats in Convention, at the Court House, on Monday night, recommended the Hon. Asa Packer, of Mauch Chunk, as a suitable candidate for the gubernatorial chair and the Hon. G. R. Barrett, President Judge of this judicial district, for the Supreme Bench. A very good ticket, but if nominated, sure to be defeated.—Honesdale Citizen.

It may not be generally known that there has, of late years, been a great change in the nationality of the immigration to this country. One immigrant were principally Irish, but the German element now preeminent. In 1868 there came to our shores 120,000 Irish and Scotch. Of the whole number of immigrants, New York city and State kept nearly one half.

Important Decisions by the United States Supreme Court.

Two important decisions by the United States Supreme Court were rendered on Monday, last. One of them expressed the opinion of the court that by a true construction of the Internal Revenue law it was not intended to tax the incomes of persons other than citizens of the United States, wherever residents, whether citizens or not. It also limits the State jurisdiction to impose taxes. The other decision holds that the income tax is constitutional, defines its nature, and lays down the duty of assessors and to returns of income made in coin.
