She leaves a large family to morn her departed worth. The deceased was one of the few born to receive the love of all, and the hate and envy of none. She had a gentle greeting and open frankness which made her a friend to the poor and a mother in Israel, and in her death she gave evidence of having o'clock on the afternoon of the Tuesday obtained that glorious victory which deep seated Christianity is sure to gain over death and the grave. During her illness, which was protracted and severe, she suffered uncomplaining; her only seeming desire was, for more patience to bear her Master's will with a humble resignition. Although our Mother is dead, she still lives in the hearts of those who will always hold her memory dear. In that land beyond the grave she is as a beaconlight to her lonely ones; guiding their frail bark over life's tempestuous ocean, where they can meet on the blissful shores of eternity death, are felt and feared no more.

She's gone, the spotless soul is gone, Triumphant to her place of rest, The prison walls are broken down, The angels speed her swift remove, With praises on their wings she flies And gains her rest in Paradise.

Oh, may we all like her believe, And keep the faith and win the prize, Father prepare and then receive. Our hallowed spirits to the skies, To chant with all our friends above Thy glorious everlasting love.

The "Pain Killer" may justly be styled the great medicine of the world, for there is no re gion of the globe into which it has not found its way, and been largely used and highly prized. Moreover, there is no claim to which it has not preved to be well adapted for the cure of a considerable variety of diseases; it is speedy and afe remedy for burns, scalds, cuts, During April 72,000 sheep, 11,000 bruises, wounds and various other injuries, as well as for dysentery, diarrhoa and bowel com-plaints generally, it is admirably suited for every race of hen on the face of the globe.

It is a very significent fact, that not withstanding the long seriod of years that the "Pain Killer" has been before the world, it has never lost one whit of its popularity, but, on the contrary, the cell for it has steadily increased from its first dicovery, and at no previous time has the demand for it been so great, or the

quantity made ben so large, as it is to-day.

Another significant fact is, that nowhere has the Pain Killer wer been in higher repute, or the been more generally used by families and individuals, than it his been here at home, where for the renewal of the Charter of said Bank. it was first disco ered and introduced. That the Pain Killer vill continue to be, what we have styled it the great medicine of the world, 68,000,000 bushels of oats-the largest there cannot be the shadow of a doubt .- Pro- Bank." vidence Advertise.
