REPUBLICAN STATE TICKET.
FOR AUDITOR GENERAL:
COL. DAVID STANTON, OF BEAVER
FOR SURVEYOR GENERAL:
COL. ROBT B. BEATH, OF SCHUYLKILL
COOK WANTED.
A First class cook, one who thoroughly understands cooking wanted immediately, to whom \$3 per week will be paid. Apply to D. C. Staples, near Ransbury's Bridge, or at this office. [June 29-31.]*
BOARDEES.
Board, with choice rooms, and excellent accommodations, can be obtained on inquiry at the Post Office. Terms, moderate. 3t.
Our street sprinkler is a good institution, and well conducted.

The late Emperor Saloonist, Christie, has completed his improvements, and has now as fine a Billiard Saloon as can be found anywhere. The Hall is large, and well ventilated, and lighted, and is supplied with three first class tables. The entrance to the Billiard Saloon is through the Hall of the house. Christie still makes the keeping of Glantz's celebrated lager, the best in the market by all odds, a speciality, and "Old Billy," himself, never handled an army of *Toutons*, on French Soil, with more grace and effect than does Christie a host of tumblers in answer to the demands of his numerous customers. Christie gives personal attention to the arrangements for the accommodation of his customers, and, of course, they are perfect.

African Wines.—It is not generally known that Cape Colony produced the most delicious wines grown on the face of the earth. A cargo received as a remittance by our neighbors Dr. J. C. Ayer & Co., contains several varieties raised there, among which the Constanca commands the highest price of any wine in the world. Almost the entire crop of it is consumed in the palaces of Europe, this rare exception being sent to them in exchange for their medicines, which have long been the staple remedies of South Africa. [Boston Journal.]

Free Tuition at the Lehigh University.
BETHLEHEM, July 3.—By the additional liberality of the Hon. Asa Packer, founder of the Lehigh University, the board of trustees were enabled at their meeting, to day, to declare the tuition in the institute hereafter free. They also created two new professorships, one of mining and metallurgy and the other of civil and mechanical engineering. These render the technical course complete.

Peach Train.
The Wilmington and Reading Railroad Company are having a number of cars made to be used solely for conveying peaches over their road. Each car will be well ventilated so as to allow a free circulation of air, will contain three rows of shelves, and will be large enough to hold five hundred baskets of peaches. These cars will constitute a special train, which will be run at a rapid rate through to Reading each night. The peaches will be loaded at Dover, Del., the same day they are plucked from the trees, and shipped that night, the peaches reaching Reading early the next morning in the original baskets. Our citizens will thus be treated each morning in the week during the peach season, with ripe, luscious peaches direct from the Delaware orchards. The peaches heretofore procured in boxes, via Philadelphia, are intended for distant markets and gathered from the trees before the fruit is ripe. When the new arrangement takes effect the citizens of Reading, will have better peaches than they ever had at less than half the cost paid heretofore. The peaches that can not be used in Reading and vicinity will be shipped from here in the peach cars to various points north and south, over the Reading Road and branches and connecting lines to Allentown, Pottsville, Williamsport, Harrisburg, &c. These cars are built at considerable expense, and are an evidence of the enterprise of the Wilmington and Reading Railroad Company.—Reading Gazette and Democrat.

Bride Your Tongues.
Slanderers would do well to pursue the following act passed by the Legislature, as it may save them "coming to grief."
Sec. 1. An action may be maintained by a female, whether married or single, to recover for words hereafter spoken imputing unchastity to her, and it shall not be necessary to prove special damages in order to maintain such action. In such actions a married woman may sue alone, and any recovery therein shall be her sole and separate property.
Sec. 2. This act shall take effect immediately.

It may not be known to everybody that the United States is engaged in a war with a foreign power. The Coreans, a race of semi-barbarians, inhabiting a peninsula in the Yellow Sea, some time ago had the audacity to fire upon the American squadron in their waters. The Coreans not making any apology or offer of reparation for this outrage, Commodore Rogers, commanding the American squadron, thought fit to avenge the insulted dignity of his country by punishing the barbarians. The result was a very severe handling of the Coreans. Five of their forts and a great quantity of arms were captured. Over two hundred of the natives are reported to have been killed. The encounter developed the fact that the Coreans have an army of eleven thousand men, together with a naval force. They made a vigorous resistance, and although well armed were unable to cope with the superior weapons of the Americans. Three of the latter were killed in the fight, among them Lieut. McGee, of Louisville, Kentucky.

Mr. Boutwell's monthly exhibit shows a reduction of the principal of the National Debt by more than Seven Millions of Dollars during the month just closed.—Since Gen. Grant became President, the Treasury has purchased and canceled bonds to the amount of \$212,806,750, for which it has paid in gold \$198,126,569, or in currency \$239,075,173. The annual interest on the Debt has been reduced nearly Thirteen Millions of Dollars since the present Administration took the helm; it is reduced more than \$400,000 by the payments of principal in the month just closed.

The German losses: The official lists of the killed and wounded on the German side during the war have now been made up at Berlin, as far as relates to the army of the late North German Band and the Baden division. The number given of killed in action is 13,960, or total casualties, without the missing, 152,884. But to these will have to be added at least 20,000 more of Bavarians and Wurtembergers, so that the Germans altogether may be considered to have lost 175,000, that is, more than 8 times as many as Prussia lost in 1866, when the casualties did not quite reach 20,000. The expenditure of the war is still greater proportion to that of 1866, owing to its long duration. The latter was returned at 124,000,000 thalers. The present war has been rudely estimated at Berlin at amounts varying from \$600,000,000 to \$750,000,000.

It is a question with many late Democrats whether they now belong to the Democratic or Republican party. Their convention adopted the Republican platform, and many think that makes them Republicans.

At Princeton, Ill., last Saturday, a man named McNamee, attempted to hang Miss Patton, a school teacher, for punishing his child. He succeeded in fastening a rope around her neck, and dragged her to the school door, when she was rescued by two men who were passing.—McNamee is in jail.

In California there are eighteen or twenty native species of birds, more or less noted as songsters, and some of the species have many local varieties. The erroneous notion that the State was meagre in bird life, and especially lacked singing birds, arose from the fact that the early routes where few birds remain in the long dry season.
An English chemist has been experimenting for the purpose of ascertaining how much of various kinds of food must be eaten in order to make one pound of flesh. He comes to the conclusion that it requires twenty-five pounds of milk, one hundred of turnips, fifty of potatoes, fifty of carrots, nine of oat meal, seven and a half of barley meal, and three and a half of beans.

THE SALE OF PATENT MEDICINES
Has in no other country reached the enormous proportions it has assumed in the United States. This is owing to the vast extent of territory and the comparative thinness of population, which creates the necessity for some reliable remedy, that can be applied at once in the absence of professional medical aid.
MISLER'S HERB BITTERS has for over ten years been regarded as
The Great Household Remedy, and is relied on in every emergency by thousands of families in every section of the country. It is not a fancy drink, composed of had whisky, flavored with aromatics, to tickle the palate and minister to a depraved appetite, but is a carefully and scientifically prepared compound extract of Roots, Herbs and Barks, possessing great medicinal virtue. Its rare combination presents the most effectual remedy yet discovered for all diseases of the Stomach, Liver, Kidneys and Bowels. Sold everywhere at One Dollar per Bottle. [July 6-1m]

PAIN KILLER
BY DR. PERRY DAVIS, DISPENSER.
1840 1870
The "Pain Killer" may justly be styled the great medicine of the world, for there is no region of the globe into which it has not found its way, and been largely used and highly prized. Moreover, there is no claim to which it has not proved to be well adapted for the cure of a considerable variety of diseases; it is a speedy and safe remedy for burns, scalds, cuts, bruises, wounds and various other injuries, as well as for dysentery, diarrhoea and bowel complaints generally, it is admirably suited for every race of men on the face of the globe.
It is a very significant fact, that notwithstanding the long period of years that the "Pain Killer" has been before the world, it has never lost one whit of its popularity, but, on the contrary, the call for it has steadily increased from its first discovery, and at no previous time has the demand for it been so great, or the quantity made been so large, as it is to-day.
Another significant fact is, that nowhere has the Pain Killer ever been in higher repute, or been more generally used by families and individuals, than it has been here at home, where it was first discovered and introduced. That the Pain Killer will continue to be, what we have styled it the great medicine of the world, there cannot be the shadow of a doubt.—Providence Advertiser. June 1, 1871-1m

MARRIED.
