Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma,

and Consumption. Probably never before in the whole history of

medicine, has anything won so widely and so deeply uson the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estima-tion, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a re-hable protector against them. While adapted to number forms of disease and to young children, it is at the same time the most effectual remedy that can

at the same time the most effectual remedy that can be given for incipient consumption, and the dan-gerous affections of the throat and lungs. As a pro-vision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all should be provided with this antidote for them. Although settled *Consumption* is thought in-encable, still great numbers of cases where the dis-case seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinute of them yield to it. When noth-ing else could reach them, under the *Cherry Pec-toral* they subside and disappear. *Singers and Public Speakers* find great pro-tection from it.

Asthmat is always relieved and often wholly

cured by it.

Bronchitls is generally cured by taking the Cherry Pectoral in small and frequent doses. So generally are its virtues known that we need alish the certificates of them here, or do more then avoure the public that its qualities are fully

As its name implies, it does Curse, and does not fell. Containing neither Arsenic, Quinine, Bismuth, Zhre, not any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague dis-tricts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we reacts of the radical cures effected in obstinate eners, and where other remedies had wholly failed. Tracclimated persons, either resident in, or swelling through miasmatic localities, will be pro-treated by taking the AGUE CURE daily."
