

The Jeffersonian.

THURSDAY, AUGUST 3, 1871.

REPUBLICAN STATE TICKET.

FOR AUDITOR GENERAL: COL. DAVID STANTON, OF BEAVER.

FOR SURVEYOR GENERAL: COL. ROBT. B. BEATH, OF SCHUYLKILL.

A number of our Democratic fellow citizens, on our answering their questions, as to who Luzerne Democrats were naming in connection with the Senatorship, were only rendered more inquisitive by the mention of the names of Sam Turner, A. B. Dunning, Doctor Wheeler, and the rest of the aspirants in that quarter. They seemed very anxious to know the antecedents of these men, whether they have always been faithful to "Luzerne" Democracy, stick to regular nominations without a why or wherefore, or whether they belong to that migratory set of Democrats, which infest Luzerne from its center to its circumference, play here one day and there the next, and only vote the ticket when they themselves or personal friends of their own selecting are upon it.

Not knowing the men named, personally, of course we could not supply the information. We would like it, however, if some of our Luzerne friends would come to the rescue with plain categorical answers. We are not particular about its being any of our Democratic friends who may be hanging around loose up there, who answer. In such matters Democrats of Luzerne, we presume, are not a whit more reliable than are partisans of the same ilk here; and here one Democrat never thinks of asking political information of another without suspicion that he will get the "wool" pulled over his eyes in the answer. If he wants the truth he invariably comes to us, or goes to some other reliable Republican, and never pins his faith to Democratic authority. We draw some pride from this, both for ourself and the party to which we belong, because it is positive evidence that Republican treachery, have never deceived Democratic inquirers after truth, and as we want to be sure of the truth in this matter we hope no Democratic of Luzerne will answer us, because we believe the inquirers honestly want to know what they ask.

The Democracy, en masse, by which we mean the voters, hereabouts are strictly honest. They are laboring under a most marvellous delusion we admit, but that is the fault of the Generals and Captains by whom they are led, and not their own fault. They mean well. They have always gone the "clean quil," and they cannot, for the life of them, see how any man can claim to be Simon Pure, with any show of recognition, who is on this side to-day and on that tomorrow, and who haggles and bawls around Democratic Conventions at Wilkesbarre, only to oppose the nominees, if the political ring to which he belongs is worsted in the fight. Our Democracy want men who can go the whole hog—tail, snout, body, bristles and all—and affiliate with and support no other.

"Ich bin ein good a Democrat—us Jackson Demokrat," is the watch word here, as it must be of all who expect countenance and support from the brethren of that stripe in Monroe, in the furtherance of their aspirations. If Turner, Dunning, Wheeler & Co., can come up to that standard well and good—they may then come in for a share of the spoils; but, if they cannot, our Democracy have their Burnett, their Gilbert, their Coolbaugh, their Merwine, and a host of others, equally faithful and effective, to fall back on, and honor. True, these are all looking Congressward, but that point has become a very dismal looking myth to them. Storm is now in possession and has the inside track for the next term, and before Monroe has another chance for the infliction of a perfect avalanche of franked Patent Office Reports and meaningless speeches—and this is about all her people receive from the office—the gray headed ones will be in their graves, and the younger ones, old enough to have foregone all relish for worldly honors. The Senatorship, for a term or two, would, therefore, come in well as a measure to keep the caldron bubbling, and our patriotic officers of the line faithful to the end. Bolting and bolters are the bane of the faithful ones hereabouts for which no antidote has, as yet, been discovered, and if the Luzerne Democracy present bolters for their candidates, they must look to it, and prepare to abide the consequences.

In this connection we may as well let the cat out now as at any other time, for we should be holding a part of the truth back if we did not. The question is seriously under discussion hereabouts, as to whether it would be safe to allow Luzerne a Senator, at all. The fishings and whiskeyings which have already been indulged upon our Mountain and our low land streams, have not impressed our Democracy very favorably with the richness of Luzerne's material, and we should not be very much surprised, if in the end, firm in the faith that we have better material at home, the Democracy, this side the barren ridge, did not conclude to divide the Senatorship between Monroe and Pike, leaving Luzerne to stand clean out in the cold. It is admitted that the Luzerne men can out brag and out drink ours, but here their superiority ends, and we (meaning all hands) can certainly do better than accept Turner, Dunning and Wheeler, who may be well enough as men, but cannot possibly prove of any account when called upon to figure as Senators. Turner's career for a term, has settled this fact so far as he is concerned; and we have no reason, from what we can learn, to believe that the rest are anything more than so many pieces cut from the same cloth.

The editor of the Wayne Co. Herald, last week, gloated lustily over a mess of Green Corn presented him by an enterprising farmer of Texas township in that county. The donor's name was Miller. Alas! we have as yet no like convincing testimony of the existence of liberal Miller farmer hereabouts.

The Democrat a week or two ago speaks of a young lady who rises very early in the morning, and passes the time in practising on the Piano, while her mother earns bread for the family by practicing on the wash tub. It is a little singular, but according to the Argus, Easton has the same; according to the Times, Bethlehem ditto; according to the Gazette, Catawqua ditto, and according to the Register, Allentown ditto. We believe that so far as Stroudsburg is concerned the charge is an unmitigated slander. The Argus has an opinion that it is moving around in double quick. We are certain it has not reached this point.

Candidates for office hereabouts, and we know there is at least one for each position, are slow in placing their claims before the public. In Mother Northampton, where modesty, in such matters, work to the detriment of bashful aspirants, the papers are as full of them as a hive is of bees just about swarming time. The Argus last week contained the names of six aspirants for Legislative honors, four for the District Attorneyship, six for the Sheriffship, four for County Treasurer, four for County Commissioner, one for Director of the Poor, and one to set on Dead men, or coroner. How many more there will be when nomination day arrives the Lord only knows.

The Democratic Committee of Monroe and Carbon counties met at Long Valley, on Tuesday, to settle the right of the counties to their respective portions of the representative spoils. Monroe's Committee went to the meeting determined to insist upon a four year's share, leaving, under the apportionment law, three years to Carbon county. We do not know how they succeeded, but this we do know—that Carbon can very well afford to be liberal to Monroe in the allotment. In the midst of the feuds among our faithful heretofore Carbon has managed to water her wheel quite easily. Place, you know, was made a yearling once; and things are not so peaceful and lovely among those of the faithful, each one of whom thinks himself the only man, but that the same thing, with some other patriot as the hero, may be made a necessity again. There are more Craigites in Carbon ready to sacrifice themselves for the sake of peace in the "Dimecratic" party. Leonard, you know was around last week, looking after things.

BOROUGH AND COUNTY.

The oats crop, which was predicted would be light, is, we understand, a very heavy one, in this county.

George Labar, residing within a few miles of this borough has entered upon his 110th year, and enjoys his usual excellent health.

The Wayne Co. Herald says: "Hon. C. Burnett, late Senator from this District has been elected a Director of the Lehigh & Easton Railway."

Joe Lynn of the Carbon Democrat, who has been suffering from a long siege of illness, is, we are pleased to learn, about again attending to business.

Fourteen shares of Easton National Bank Stock were recently sold at auction, in that borough, at prices ranging from \$89 to \$89.25 per share. This is said to be the highest figure this Stock has ever reached.

Providence permitting there will be Divine services in the Lutheran Church, in this borough, on Friday evening, August 4th, commencing at 8 o'clock, on Sabbath morning at 10 o'clock and in the evening at 8 o'clock. The public are cordially invited to attend.

But didn't we have a wet spell, during the present week! It could rain just as easy as turn your hand, but sunshine was nowhere. Even picnics and the aspirations of picnickers had no influence with the Clerk of the weather. He was inexorable.

The Premium List of the Twelfth Annual Fair of the Monroe County Agricultural Society, will be found in this week's paper. The premiums will be found to be quite liberal, and our farmers, manufacturers, mechanics and housewives should prepare themselves to contest for them. We present the list in a peculiar shape.

Quite a heavy and destructive hail storm passed over a portion of our county on Friday last. In Cherry Valley the destruction was very heavy. Trees were blown down, fences carried away and corn, oats and garden truck cut up and badly damaged. The track of the storm was not very wide, but extended many miles in length.

The Trout season ended on Monday last. Knights of the rod and line will please take notice. It is not necessary to be caught in the act of fishing in order to secure conviction and the penalties of the law. The possession of a Trout out of season is to be taken as proof positive of the violation of law. Hang up the tackle boys.

E. H. Wicks, has the Agency for, and is now engaged in offering to our citizens, one of the finest lamps ever brought into this section of country. The lamp cannot be made to explode, it consumes but little oil, and is well worth a trial and purchase. We have one in use, and know whereof we speak.

"Filled to the Brim."—We have received the SONG MESSENGER, for August, published by Root & Cady, Chicago, Ill. It is filled to the brim with good music and other matter. We hope to see it a regular visitor to our office. Terms, \$1 per annum, with a fine lithograph portrait of Mme. Nilsson as a premium.

Henry C. Wolfe, formerly a resident here, and Sheriff of this county, was recently, severely injured, by a railroad accident on the Lehigh & Susquehanna Railroad. His escape from instant death was most marvelous. We are glad to learn, as will all his many friends here, that he has so far recovered from his hurts as to be able to attend to business again.

A very pleasant excursion party, representing the South Street Presbyterian Sunday School of Morristown, N. J., visited the Delaware Water Gap on Tuesday. The party numbered about 350 and was under the care of P. H. Hoffman, Superintendent of the School. They returned to Morristown in a special train about 4 1/2 o'clock p. m.,—evidently well pleased with their trip.

There is a young lady, residing near Tobyhanna Mills, this county, a daughter of Mr. William Singer, whose age is nine years, and who weighs 113 pounds. She is tall in stature, well proportioned, and enjoys excellent health. She is very active in her movements; her weight proving no impediment to her whatever. We do not call her a giant, but, a well developed young lady of nine.

Monroe County Camp Meeting.—The Camp Meeting to represent the M. E. Church, in Monroe county, and vicinity, will be held at the Delaware Water Gap, Pa., commencing August 22d, and closing August 30th. There will be extra trains for the accommodation of those wishing to attend. Tents to rent at low rates, and ample provision for both man and beast. W. J. MILLER, Chairman of the Executive Committee.

Our lady friends, and we hope their name, is legion, desire a needle superior to any they have ever heretofore used, they have only to hail our indefatigable friend Sam Brown, at anytime, as he passes by, and they can be supplied with just the article. Sam has the Agency, for this section, for the celebrated Lingington Needles, and as he always has a pocketful of samples by him, is prepared to meet all demands on the spot.

Accident.—On Thursday last, a lad named James Baird, son of Peter Y. Baird, of this borough, while playing, with several other lads, in Mr. Joseph Keller's barn, fell from the hay-mow to the floor below, a distance of some eight feet, and was severely, though we are pleased at being able to say, not dangerously injured. Dr. Seip was at once called to the case, and administered so effectually to the necessities of the sufferer, that he is now recovering.

A Party of Picknickers to Marshall's Falls, on Friday last, had a most delightful time of it, amid the Thunder showers generally, and the gleam of sunshine occasionally, which prevailed during the whole day. The fact is these days are not propitious for picknicks. The clerk of the weather appears to be as much out in his orderings of the weather as are railroad officials in their calculations as to what constitutes the true gentleman. He should do better, or resign.

Peter Gruber, said by the Argus to reside in Stroudsburg, sojourned at the "Pine Tree Hotel," in Easton, a few days ago over night, and after a contest with the landlord and one or two of his pals, was relieved of the contents of his pocket-book, amounting to some \$15. Peter demurred to the proceedings, called in the aid of the police and recovered his money, but concluded not to proceed further. Peter does not live in Stroudsburg. Stroudsburgers never "go to such places to stay over night."

A pile of guano, stored in a building on Main street, affluviated the whole neighborhood, most prodigiously last week. As a stink, clear and unmitigated, it was a perfect success, but as a perfume, or as an accompaniment to a good dinner, in the estimation of a friend of far aldermanic proportions, residing near by, as well as of others, it was a complete failure. After several slight, and one or two heavy, nudgings to those having it in charge, it was removed, and dinners taste just as good as ever therabouts.

The Easton Argus of last week says: "Barney Serfas, formerly of Easton, but for some time past employed as a painter, in Washington, Warren county, eloped on the 4th of July last, with Miss Ada Dilts, daughter of Nathan Dilts, Esq., of the latter place. The girl is only about 16 years of age, and is said to be very pretty, while Serfas is 28 and has a wife living in Stroudsburg."

Barney several years ago married a very pretty and worthy daughter of Monroe, but a few weeks experience with him, convinced her that he was the very worst kind of a counterfeit upon humanity, and she left him. She is at present residing in one of the Eastern States.

Could not some of our country friends manage to keep us posted in matters occurring in their several localities. Our desire is to publish a truly local paper; and marriages, deaths, fires, runaways, accidents, sales of property, removals to and from neighborhoods all go to make up the real live paper. Friends, bestir yourselves, and see if you cannot do something in this line to help us. As the newspapers are, so is the county in which they are published judged to be. Every citizen of Monroe, therefore, has an interest in having the papers published in the county all they should be—real encyclopedias of country news.

Our boys as base-ballists, suffered some in their contest with the Portland boys on Saturday last. The score, at the end of the game stood 36 for the Portlanders to 22 for the Stroudsburgers. This result was not produced by want of skill on the part of our lads, but because they felt around too long, to find out the capacity of the Portlanders. The last two or three innings prove this. We presume other games will have to be played to decide the Championship. The following is the score:

Table with 11 columns: INNING, 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, Total. Rows for Portland and Stroudsburg.

We had the pleasure, a few days ago, of assisting our friend Esquire Drake in the celebration of his birth day. The Squire has always held to the single man persuasion, the more the pity, and moves around as active and spry as a lark. Being now some what rising of Twenty-five, more or less, he will have to bestir himself in the conjugal way, or we will be compelled to stamp him a confirmed Bachelor. In the course of the celebration we helped him demolish, a lucious Fellenwalder, which had been preserved in his apple bin, without a blemish, since last fall. May long and happy years to come be the lot of our friend the Squire.

Our fire laddies should be making preparations to receive the new Steamer, which will arrive here in about two weeks. When it arrives and is accepted by the borough authorities we shall be well provided with fire apparatus. But how about water? Aye! how! It is not probable that we could raise regular waterworks, but we do think that with an effort we could plant cisterns on street corners very readily, and cheaply—and they would be just the thing too. Two of them would be all that would be necessary on Main street, while one—say at the Hicksite Meeting House, or Dreher's corner, would be sufficient for Sarah street. We are glad to be able to say that the action of Council in purchasing the Engine, is very generally approved.

Pound Master Tuttle, has raised quite an excitement among the owners of roving cows, pigs and horses, in this neighborhood. It is seldom now that one of the animals mentioned is seen upon our streets after dark. If one does happen to stand or lay around loose Tuttle gobbles it up, and impounds it in double quick time. Some people insinuate that Tuttle has laid a salt-lick to draw the animals, but slander seems to be a requisite of every faithful public officer. But no matter, salt-lick or no salt-lick, Tuttle has the thanks of all owners of gardens, who now, because of his watchfulness, can sleep nights without danger of waking up in the mornings to find his cabbages eaten off by somebody else's cows. Tuttle is a "brick."

The Board of School Directors of this borough have made the following appointments of Teachers for the ensuing term of the Public Schools:

John W. Brown, of Franklin county, Principal.

Jacob Bush, of Monroe county, 1st Assistant.

Angeline Cross, of Wayne county, 2d Assistant.

Albina Fenner, Teacher at Race street School House.

Elen Cross, teacher at downtown School House.

Ollis B. Gordon, Bark street School House.

The Teachers, with the exception of Mr. Gordon, are all new to the Schools.

Horse Thief Caught.—Detectives Johnson & Yohe, of Easton, Pa., succeeded, on Monday, the 24th inst., in arresting, near Germantown, N. J., one Conrad Peterson, alias Johnson, a colored individual. Conrad, was charged with stealing a horse, in October last, from Wm. E. Henry, of East Stroudsburg, and has since been wandering around loose, while anxious friends, hereabouts, were wondering where in the world he could be staying so long. Conrad had hired the horse of Mr. Henry for a few hours ride, and instead of returning him disposed of him for the filthy lucre with which he went on his travels. He was brought to town, on Wednesday last week, and lodged in Hotel d'Troch, where he will be comfortably cared for until September Court. The prospects are that Conrad will be sent to Chateau d'Cherry Hill, near Philadelphia, a locality where horse flesh is not used in any shape, for quite a lengthened sojourn.

The all absorbing topic since the last issue of this paper, has been the dedication of the new M. E. Church, in this borough. The services connected therewith were more than usually interesting. Sermons were preached by Rev. Dashiell of Dickinson College, Revs. J. Mason, W. J. Paxson, W. M. Ridgeway, J. Walker Jackson and J. Pastorfield. On Thursday evening, and again on Sunday evening, the showers of rain interfered somewhat with the congregations. Those who attended, however felt that success must crown this noble Christian enterprise. The Pastor, the Trustees, and every person present were of one mind. The qualities that ensure success were certainly not wanting. With good preaching, fine and yet not fancy, singing, earnest praying, and faithful presentation of the financial interests of the church—the last dollar of the \$9,500 asked for, was subscribed on Sunday evening at 10 o'clock. Then the M. E. Church of Stroudsburg, was dedicated to the service and worship of Almighty God in accordance with the discipline of the Methodist Episcopal Church.

We learn from those who have seen the list of subscriptions that it is an unusually reliable one. We congratulate all concerned in this noble work, an ornament to our borough, and an evidence of the indomitable energy and perseverance of our Methodist friends.

"Meta a Legend of Delaware Water Gap and the Old 'New World,'" is the title of a very pretty poem, published in pamphlet form, and issued from the press of Haddoc & Son, Philadelphia, for a copy of which we are indebted to its talented author, Mr. A. B. Burrell. The poem is exceedingly well written, while its conceptions show the author possessed of a poetic fancy which should certainly win for him a reputation high up among the most favored of our American poets. It is seldom that we feel inclined to wade through the mazes of a poem of any considerable length, but upon commencing, Meta, we became at once so interested, that we never thought of stopping until we reached the end, and then our only regret was that there was not more of it. The pamphlet also contains two other pieces of more than ordinary merit. We do not know that the work is on sale, but we presume copies could be purchased of the author, at the Water Gap. Lovers of the beautiful song should procure a copy if possible.

Masonic Strength. The strength of the Masonic order in the United States, as reported by the Committee of Correspondence of the Grand Lodge of Pennsylvania, aggregates as follows: Number of lodges, 7,493; members initiated during the last year, 41,936; total number of members in thirty-eight States and one Territory, 466,802. The order is strongest in New York, where there are 650 lodges and 75,262 members. Illinois comes next, with 606 lodges and 33,996 members.—Pennsylvania has 310 lodges and 32,968 members.

Suggestive.—Would it not be well for our borough fathers, to take some measures to prevent base ball practice on our streets. We saw a very near approach to an "accident" during a practising spell, a few days ago. The ball, a very heavy one, and thrown with considerable force, came within an inch of hitting the head of a child, in the arms of its nurse. An inch further to the right in its course, would, undoubtedly, have created a most melancholy necessity for doting parents to follow a loved one to the grave. Practice may be a necessity to our rising athletics, but an ounce of prevention is worth a thousand "Crowners Quests," such as our town is liable to witness, at any moment, so long as these street ball-practicings continue.

OUR SCRANTON LETTER.

SCRANTON, July 30, 1871.

Friend Schoch:—Items of interest have been very scarce in this locality, since I last wrote you, there having been no murders, no fires, nor anything startling to report. The weather continues very unpropitious, hardly a day passing without more or less rain falling, while the mud upon the streets is almost unwholesome.

This city boasts a "Young Men's Christian Association," which appears, at present, to be in a very flourishing condition. An institution of this kind, if conducted in the right manner, could most certainly be productive of much good, and would be a blessing to any community wherein they might exist, and while we wish it distinctly understood in the offshoot that we do not encourage drinking and crime generally, still, we have a few comments to make upon the workings of that Association in Scranton. A City Missionary, who, it appears, is making himself utterly obnoxious in the sight of a large number of our citizens, is employed by the Association, and he is looked upon as general business manager. Some time since they attempted to close up the saloons here, by having as many as they could entrap in their snare, indicted for Sunday liquor selling, and for selling to minors. Now, sir, had they succeeded in closing up the saloons upon either of these indictments in a fair and Christianlike manner, they would, indeed, have done a good work; but when they hire a couple of men, and furnish them with several dollars to go around upon the Sabbath, present all sorts of pleas to get the saloon keepers to sell them liquor, and then have them indicted for Sunday liquor selling, besides getting the men whom they hired to do their dirty work, more or less intoxicated upon that day, we do most certainly fail to see where the christianity of such action comes in. In our estimation, when a true Christian wishes to reform a wayward fellow-creature, it should be done in a mild and temperate manner, and not attempt to force people to think as they do. At some future time I shall give you another chapter upon this subject.

The bill-boards in and around this city will be decorated with posters in a few days, announcing the coming of a very popular concert company, who will occupy the Opera House for a short season. This will certainly prove a variety, from the fact that a one-horse Circus, and one or two entertainments by an Amateur Dramatic Association, have constituted the number of amusements with which we have been treated for a long time. The Opera House, at \$75 a night, appears a little too steep for a majority of the hall entertainments now traveling.

Who is "Black Diamond," Scranton Correspondent of the Monroe Democrat? From the very flourishing manner in which he makes his debut as a "quill driver," one would naturally suppose him to be an escaped lunatic. "Variety is the spice of life," says "Black Diamond," which we admit to be a fact, but your Correspondent fails to see the necessity of referring to the adage of an ancient or modern sage, in order to enable him to chronicle such stale facts as were contained in his letter of last week, and of which your readers had been apprised, through your "Scranton Letter," several weeks previously. And again, the very clear manner in which he represents the future of the Lackawanna coal regions, is startling indeed. He predicts strikes, desolation, and final ruin of our city as a business centre, by the crushing monopolists. Truly a modern prophet dwelleth in our midst! Next! Next! Next!

STEAMBOAT SLAUGHTER.

A terrible catastrophe, involving the loss of many lives—how many it seems impossible yet to say, occurred in New York harbor on Sunday afternoon. The Staten Island ferry boat "Westfield," had embarked at the slip at Whitehall street a full complement of passengers, mostly Sunday excursionists, and was just starting on her trip when the boilers exploded. Many of her passengers were blown into the air, others were swallowed up in the yawning sepulchre into which the explosion converted the vessel, while others were drowned, being carried overboard with the hurricane deck. The scene immediately succeeding the explosion is described as appalling, the dead, dying and wounded lying in all directions on the wreck of the vessel, or floating and disappearing in the water. Measures for the relief of the sufferers were promptly adopted, and all the afternoon ambulances were proceeding up town to the hospital with the wounded. One account states the casualties at one hundred and fifty, while another estimates the number of the killed at forty, but is able to give no idea as to how many were injured. Many of those reported as wounded will die from their injuries, as that some days may elapse before the total loss by the explosion is known.

Respecting the cause of the accident the reports are more precise than usual. The boiler, it is said, was examined by a United States inspector so lately as June 15, and pronounced safe, while the engineer states that just before the explosion he had looked around and found every thing all right. But this boiler, which satisfied the government inspector, had been patched, and so inefficiently that Sunday's frightful slaughter resulted from the breaking of the joints holding the new plate.

The latest report places the killed by the "Westfield" explosion at seventy nine, and the wounded at about one hundred and fifty.

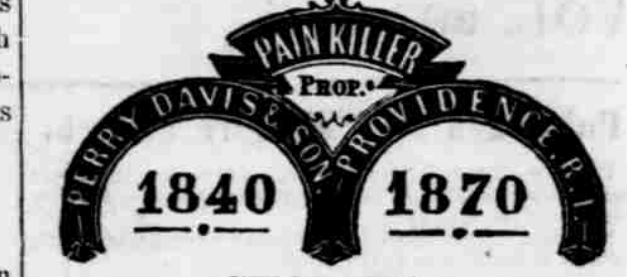

NOTICE. The Stokholders of the "Wickersham German-English Normal School" are hereby notified that, in accordance with a resolution passed by the Board of Trustees at their last meeting, ten per cent. of the stock subscribed is to be paid to the Treasurer, Delis Storm, Esq., Broadheads-ville, Pa., on or before the first day of September, 1871. The money can be paid in person or by mail. D. E. SCHOEDLER, Pres't. Attest: JOHN APPENZELLER, Sec'y. July 27-61.

A remarkable family lives in Dallas county, Ark. The father is 108 years old, the mother 106, and the two are the parents of 29 children—15 boys and 14 girls.

The Cincinnati cotton trade amounts to five millions a year.

Plump lemons have been grown this year at Macomb, Illinois.

Peaches at twenty-five cents per box are very plentiful in the Memphis market.

CHOLERA.

At the commencement of the Diarrhoea, which always precedes an attack of the Cholera, take a teaspoonful of the Pain Killer in sugar and water, (hot if convenient), and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhoea or cramp continue, repeat the dose every ten or fifteen minutes until the patient is relieved. In extreme cases, two or more teaspoonfuls may be given at a dose.

The Pain Killer, as an internal remedy, has no equal. In cases of Cholera, Summer Complaints, Dyspepsia, Dysentery, Asthma, it cures in one night by taking it internally, and bathing with it freely. Its action is like magic, when externally applied to Old Sores, Burns, Scalds and Sprains. For Sick Headache and Toothache, don't fail to try it. In short, it is a Pain Killer. Directions accompany each bottle.—The Pain Killer is sold by all dealers in Medicines. [Aug. 3-1m.]

HON. GEORGE SANDERSON,

Mayor of the city of Lancaster, Pa., writes: "MISLER'S HERB BITTERS is extensively known and used, and so successful are its curative powers that it has become as familiar as a Household Word and a necessary addition in the medical requirements of every family.—Having used it myself and knowing others who have used it with beneficial results, I can only add that in my opinion it is the best remedy ever introduced for the cure of the numerous ills to which flesh is heir." Hon. Thaddeus Stevens, M. C., recommending Misler's Herb Bitters to a friend, pronounced it the most wonderful combination of medical herbs he ever saw. August 3, 1871.—1m.

MARRIED.

At Columbia, N. J., July 29th, 1871, by the Rev. Henry Litts, George M. Primrose, of Portland, Pa., to Miss Emma Detrick, of Columbia, Pa.

7 PER CENT. BOROUGH BONDS FOR SALE.

The Borough of Stroudsburg offers for sale 7 per cent. bonds to suit purchasers. These bonds are issued under Act of Assembly of May 10th, 1871, authorizing the issue of bonds to an amount not exceeding \$5,000, for the purpose of raising funds for the purchase of a Steam Fire Engine and apparatus. Said bonds are exempt from all taxation except for State purposes; and a rare opportunity is offered to capitalists, large or small, for investment at home on the most favorable terms; and at the same time, for aiding a worthy enterprise. For further information inquire of either of the undersigned.

THEO. SCHOCH, Chief Burgess. Attest: B. S. JACOBY, Sec'y. Aug 3-1f

To the Voters of Monroe Co.

I hereby offer myself as a candidate for the office of COUNTY COMMISSIONER, and pledge myself, if elected, to discharge the duties of the office, faithfully, honestly, and to the best of my ability.

JACOB FRABLE, Eldred Township, August 3, 1871.

To the Voters of Monroe Co.

I hereby offer myself as a candidate for the office of COUNTY TREASURER, and pledge myself, if elected, to discharge the duties of the office, faithfully, honestly, and to the best of my ability.

JOHN HARTER, Eldred Township, August 3, 1871.

To the Voters of Monroe Co.

I hereby offer myself as a candidate for the office of COUNTY TREASURER, and pledge myself, if elected, to discharge the duties of the office, faithfully, honestly, and to the best of my ability.

JOHN EDINGER, Stroudsburg, August 3, 1871.

To the Voters of Monroe Co.

I hereby offer myself as a candidate for the office of COUNTY TREASURER, and pledge myself, if elected, to discharge the duties of the office, faithfully, honestly, and to the best of my ability.

SIMPSON FETHERMAN, Sciota, August 3, 1871.

Caution!—Take Notice!

The public are hereby cautioned against harboring or trusting any person, under any pretense whatever, from this date, on my account, as I am determined to resist, to the full extent of the law, the payment of all debts contracted by any one in my name, without regard to person, except upon my written order.

THEODORE SCHOCH, STROUBSBURG, PA., June 7, 1871.

NOTICE.

The Stokholders of the "Wickersham German-English Normal School" are hereby notified that, in accordance with a resolution passed by the Board of Trustees at their last meeting, ten per cent. of the stock subscribed is to be paid to the Treasurer, Delis Storm, Esq., Broadheads-ville, Pa., on or before the first day of September, 1871. The money can be paid in person or by mail.

D. E. SCHOEDLER, Pres't. Attest: JOHN APPENZELLER, Sec'y. July 27-61.

TO CONTRACTORS.

The Board of School Directors of East Stroudsburg, will receive sealed Proposals, up to the 10th of August, for the erection of a frame School House, in said Borough, 30 by 50 feet, 2 Stories high. For plans and specifications, apply to LEVI SMITH, Sec'y or JESSE R. SMITH, Pres't. July 20-71-34.
