

The Jeffersonian.

THURSDAY, AUGUST 10, 1871.

REPUBLICAN STATE TICKET.

FOR AUDITOR GENERAL: COL. DAVID STANTON, OF BEAVER

FOR SURVEYOR GENERAL:

Thanks to the Scranton Republic can for its favorable opinion expressed on Friday last,

James Mullen, of Scranton, announces himself as a candidate for the Assembly. subject to the decision, of course, of the Demoeratic Convention of Luzerne, A better representative Democrat than is "Jim" does not live, and the Democracy of Luzerne will not do itself justice if it fails to nominate him. We believe in each party's bringing out its representative men always.

The Democracy of Monroe came out first best in the pow-wow held at Long Valley, on Wednesday, 2d inst., and secured the four year term for Representative. This is glory enough for our Democracy; but the Democracy of Carbon need not take it much to heart, as they are up to snuff and know a thing or too. As heretofore our Democracy will, without doubt, our hands. The fact is, we, of that party, can- they suppress it? not stand everything.

Ber Luzerne county has been having quite a sensation over an attempt of one of their ornamental Judges to lick the tiger. He went to work, bold as a sheep, to skin the animal, in shape of a returned Californian, out-right, but his weight of metal proved too light, and he got scratched and bruised to the tune of some the trot said to be secured. \$5,000. The name of the Judge is Pfouts, and, as a matter of course he holds a high powould endeavor to staunch the blood and as- last, for an alleged robbery. suage the pain by covering the wound with a bank check, and, in the end, endeavored to This however, did not work, and the consequence is, that an exposure followed which is a disgrace to the Judge and the party which elected him, and which should secure for him, well merited punishment for his crime. Such indulgence, by one occupying the position held by Judge Pfouts, is an outrage of the first

From what we learn hereabouts, we infer that our Democratic friends are destined to have "as bilious an old time" this fall as ever fell to the lot of that party anywhere. No one among them wants office, but some thinking for himself, for fear that an incapa- day last, in Kautz's woods near this borough. this or that position. It is marvelous to went "merry as a marriage bell." think, what a prodigious amount of comfort is ready to be sacrificed, in order that the right man may be selected for the right place. The in their denunciations of whoever may be such things. No body hurt. sent to Harrisburg, or who to fill our Courts and offices. For the present, and keeping but one position in view, we would suggest that, by all odds, the best man to spend a winter in the House of Representatives at Harrisburg, Democrat. He is the only representative man of the party we know of in these diggings; and could be get to Harrisburg from Monroe and Carbon and Jim Mullen from Luzerne, or a passenger train leaves the Stroudsburg 29th, or until each participant, acting for these two be backed up by "Bub" Wells, of Depot, at 5 a. m., every Monday morning himself "gets tired and wants to go home." Pike, the party would possess a full team with for the cities of New York and Philadelphia, motive power to let.

The solution of the Democrat's problem in his last week's issue, clearly indicates that our cotemporary is rather heavy on small mathematics. For instance, he cooly, for this hot season, states, that \$13,000, \$16,000 and \$25, 000, make \$64,000. Now while it is known that all mathematicians enter their solemn protest against the Democrat's sum total, we must be allowed to remark, on our own responsibility, that it looks very much as if our cotemporary was watering his capital stock. But perhaps the Democrat used the same kind of figures by which he used to figure up rousing Democratic victories before the election, but which, after that event, proved to be strong Republican triumphs. Again, the Democrat says that "two-fifths of \$64,000 are \$25,000." But it don't strike us so. And when he comes to divide the firm capital between A and B derfully scared. he smells money, and attempts to play the part of a New York City Democratic official, and deliberately swindles A out of \$600, which sum he evidently pockets, for B only gets his legal share.

But for the sake of politeness, we will acquit our cotemporary of dishonesty, in case he will of Prof. E. R. Walker, who also had generate the first of furniture. It is the intention to establish a lamanagement of the affair, and, as a matter of course, the hop proved just the thing. Strondsburg will also erect a building for the sake of politeness, we will acquit of prof. E. R. Walker, who also had generated as a cost of about \$2,000, exclusive of furniture. It is the intention to establish a sum of 30 cents. Volume VIII. began with that the crop this year promises to surgarded school therein. The Borough of East Strondsburg will also erect a building for the stitutional weakness for "slopping over," which is always liable to manifest itself when which is always liable to manifest itself when the scholars of his school, enjoyed a pic-nic excursion to feel certain that this will prove in all results of the modest of furniture. It is the intention to establish a sum of 30 cents. Volume VIII. began with the the man who always wants to "go furniture. It is the intention to establish a sum of 30 cents. Volume VIII. began with the the crop this year promises to surface of furniture. It is the intention to establish a sum of 30 cents. Volume VIII. began with the the crop this year promises to sufficient to so management of the affair, and, as a matter of furniture. It is the intention to establish a sum of 30 cents. Volume VIII. began with the crop this year promises to sum of 50 cents. Already they are so so for 50 cents. Already they are so for 50 But for the sake of politeness, we will acquit he attempts to crack solid prose problems, and in the hope that he may better succeed in hiding his infirmity for a season, we would re- borough, on Thursday last.
