REPUBLICAN STATE TICKET.

FOR AUDITOR GENERAL: COL. DAVID STANTON, OF BEAVER.

FOR SURVEYOR GENERAL: COL. ROBT B BEATH, OF SCHUYLKILL.

LUTHERAN CHURCH.

Liturgical Services next Sunday. Morning, 10; Evening, 7. G. W. MARRIOTT, D. D., Pastor.

READER don't forget the meeting on Wednesday, September 27th. Hon. Simon Cameron, Hon. John W. Forney and Hon. John Hickman will certainly be there to address you.

CALIFORNIA!

The Republicans of the country are justly enthusiastic over their great political triumph in California. At the last State election the Democratic majority was about nine thousand, and in the Legislature that party was very largely in the ascendancy. Now all this is reversed. On Wednesday last Newton Booth was chosen Governor by about 6500 majority, with a Legislature so decidedly Republican that a Senator of the same faith to succeed Mr. Cole is certain to be elected. More than this, the Republicans, who had only one of the three Representatives in the last Congress, have now three of the State delegation. The revolution is complete. Well done, California! Advance, Pennsylvania!

MAINE—The Election in this State, on Monday last, resulted in the election of Perham, Republican, by over 10,000 majority, and 29 out of 31 State Senators and more than three fourths of the Representatives.

THE DEMOCRAT ON A HOAX.

The chandler of the Monroe Democrat of last week, sets up a very vigorous crowing and cackling, which is peculiar to that bird, over a very rotten egg of its own laying. But what are the facts? Why just these: George O. Evans, was appointed by Gov. Geary early in 1867, Agent of this State to settle the claims held against the United States on account of the War. The resolution authorizing the appointment of such agent is as follows:

"Resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in general assembly met. That the Governor be and is hereby authorized to appoint a special Agent to collect the disallowed and suspended claims against the United States, whose compensation for that purpose shall not exceed ten per centum of the amounts thus collected, and shall be paid out of such collections."

These claims had been rejected by the United States government. The Agent was to be at all the expense of collecting said claims, and was to pay to the State Treasurer the sums which might be collected by him, less the ten per cent. compensation as allowed by Act of the Legislature. This was also stipulated in the agreement between the Executive and Evans. April 24, 1871, Evans effected a settlement of these previously rejected war claims, and subsequently paid to the State Treasurer the entire sum thus settled and collected, less the commission, which the Act of the Legislature and his agreement between the Executive expressly allowed him to retain. There was no other provision for his compensation, and had he paid over the entire sum, these was no officer of the State who could or would pay him a cent, as no appropriation had been made for that purpose.

The cause of the dispute between the State Treasurer and Auditor General with Evans, seems to be a technical quibble. The State authorities alleging that Evans should have paid into the State Treasury the entire sum collected by him, and then the State Treasurer would have allowed Evans to draw his commission. The money, which the truthful Democrat alleges that Evans stole from the State, is precisely the sum total of his commission on the amount collected by him for the State, namely: \$291,000.

The whole matter in a nut-shell, we repeat, is simply a technical quibble between the State authorities and Evans—the former alleging that the latter should have paid into the State Treasury, the entire sum collected by him, before he was entitled to his commission; while Evans alleges that he had a right to retain his commission out of the sum collected, believing that the act of the Legislature and the article of agreement between him and the Executive, warranted him in doing so.

The State can lose nothing in any event. But it is possible that Evans has legally forfeited his commission, by his failure to have his account with the State formally settled by the State authorities at an earlier date; and if so, the State, in that event, will have gained or profited by Evans' neglect nearly \$300,000. And this is the money which the truthful and astute Democrat asserts Evans "stole" from the State.

That is all there is in the Democrat's mare's nest. But for fair and square stealing, and soundness of the most perfect type, we would refer our Democratic friend to the New York City Democratic officials, who plunder their constituents by millions of dollars, but who just now don't feel good over it.

We vote next year in Pennsylvania for President, Governor, Congress, a Supreme judge, and a Legislature to elect a United States Senator to succeed Senator Cameron.

The Republicans of Carbon, in county convention met, nominated a full ticket for the support of the people of that county. This is a proceeding throughout which should be speedily followed by Republicans of Monroe county. It is the only course that will secure a perfect organization of the party here, and enable us to act with a show of ever breaking the chains which bind the mass of our people to the car of Democracy. Brethren, let us think seriously of this thing, and see if we cannot, by another year, bring ourselves to the task of doing our whole duty to our country, to posterity and to ourselves.

DANIEL KALBFUS, Esq.—The Republicans of Carbon have presented this gentleman to the Republicans of Monroe for their support for the office of Representative. The right to the nomination, this year, is vested in Carbon; and it does us good to see that they have so well acquitted themselves in the exercise of their right. Mr. Kalbfus is a gentleman of the utmost integrity, is possessed of more than usual talent, is a finished speaker, and would represent us at Harrisburg with an honor such as has seldom fallen to our share there. Against his Democratic opponents we would say nothing disparagingly, but no one will pretend to say that in point of fitness either of them approach anywhere near him.

Republicans you have a duty to perform this fall, and you should perform it faithfully. One part of that duty is to support this nomination with all your might.—Another part of your duty is to avoid entangling alliances with the Democracy. There are skunks to skin in that party—let its members perform the disagreeable job themselves.—For us let us work and vote for Kalbfus and Republicanism, and if we fail to elect him, we will have left to us the proud consciousness of having faithfully acted as every man who loves the principles of the Republican party should act. We shall have worked and voted for a man in every way deserving of our confidence and support.

BOROUGH AND COUNTY.

Beautiful—the "Northern Lights."

Autumn has arrived, which accounts for the exceedingly cool evenings and mornings.

The buckwheat crop in this county is not very good. At least, so say our farmers.

The new steamer—that is to be—appears to be the all absorbing topic of conversation upon our streets.

The alarming increase of the disorderly element in the rising generation may well excite the attention of thoughtful persons.

Owing to the appearance of Jack Frost, the ice cream trade has become a "dead issue." Delicious bivalves will be next in order.

Mr. Casper Metzgar, of Stormville, brought a potato to our office, on Monday last, which weighs one pound and ten ounces. Who can beat it.

The Peach season throughout the country, appears to be about wound up. They are dreadful scarce in this market.

The Doylestown Agricultural and Mechanics Institute hold their 7th Annual Fair on the 3d, 4th, 5th and 6th, of October inst. Our thanks are due for a compliment.

The Potato crop was never finer in this section than it is this season. The general say is, that they were never better in quality and size, and that there are so many in a hill that the wonder is they grew so large.

The Congregation of the A. M. E. Church, held a festival at the Fireman's Hall, on Tuesday and Wednesday evenings. The attendance was quite large, and the effort to raise money to assist in paying off the Church debt, encouragingly successful.

Unpleasant—to be obliged to whisper words of love to your sweetheart in the open air these cool evenings, with the yard fence between you. This probably accounts for the loss of so many palen from the fences upon our back streets.

A New Steamer to Come.—Our borough fathers have contracted with the Clapp & Jones Manufacturing Company, of Hudson, New York, for a new third class Steam Fire Engine. The machine will be delivered here about the first of November, and is to be complete in all its appointments, and though third class in size, is to be a No. 1 in working capacity and efficiency. The cost of the Steamer, delivered here, will be \$4,100.

A Pleasant Re-union.—The members of Mountain Home Lodge, No. 684, I. O. of O. F., located at White's Tannery, in this county, in a body paid their brethren of Fort Penn Lodge, in this borough, a friendly visit on Saturday evening. A very pleasant time was had, and the visiting brethren returned to their homes, at a late hour in the evening, well pleased with their visit. The brethren of Fort Penn hope the same thing may occur again.

Fair of the Farmers' and Mechanics' Institute at Easton, Pa.—The Board of Directors of the Farmers' and Mechanics' Institute have resolved to hold their annual fair this year, on their grounds, at Easton, Pa., on the 19th, 20th, 21st and 22d days of September next. The premium list is liberal and the building, grounds, track and stabling are the finest of any society or association of a like kind in the State of Pennsylvania. [Aug. 10/71-5t.]

Again would we remind our readers of the approaching county Fair, to be held on the 26, 27, 28 and 29, of September, and prevail upon them the necessity of each one preparing an article of some description, and taking it there for exhibition, in order to make the undertaking a success. We have in this county, talented mechanics of every description, excellent land, for the culture of all the products of the farm and garden, and last but not least, excellent and thrifty housewives, and there is no season why our Fairs should not excel in every department. The fact that these institutions appear to be growing more and more unpopular each year, is owing to the apparent negligence of the people of the county. The premium list for the year is more than usually liberal, and the management have done all in their power to make this the best Fair that has ever been held in the county. So be their yourselves, friends, we beseech you, that their most sanguine anticipations may be fully realized.

State Fair.—The exhibition of the Pennsylvania State Agricultural Society which occurs at Scranton on September 19th, 20th, 21st and 22d promises to be a display of unusual magnificence. A splendid collection of native and imported live stock will be on exhibition, including horned cattle, sheep, swine, &c.

One of the prominent features of the fair will be the grand trials of speed, which are to take place daily for the largest premiums ever offered by the society, and we are assured that in this, as in all the branches of home industry, competition will be remarkably brisk and active. Arrangements have been concluded for the finest and largest floral display ever shown at any exhibition of the society, which will include all the rarest and most beautiful varieties of native and exotic plants.

Liberal terms have been made with the different Railroad companies, by which excursion tickets good for the round trip will be issued at greatly reduced rates and all animals and articles that have been on exhibition and remain unsold will be returned free. The prospects of the society for a brilliant fair have never been more promising, and as this is the last exhibition that will occur in this section for a number of years we hope our citizens and people of the neighborhood will contribute liberally in the way of entries, attend in a body and make it both creditable and successful.

Among other incidents of excitement which occurred on Sunday last, was the capture of a genuine Sturgeon, in Brodhead's creek, near the iron bridge, at the lower end of town. This monster fish came near being captured some time since, by a party who were fishing with a net, but as those gentlemen failed to secure it, not much credence was placed in their story. On Sunday last, however, Mr. William Pugh, George Dreher and David Walker, were passing over the bridge, when they discovered his fish-ship lazily swimming about beneath them. They immediately secured a pole and a piece of telegraph wire, from which they formed a "snare" for the purpose, if possible, of capturing him. After getting the snare in proper position, and after considerable exertion, on the part of the gentlemen composing the party, they pulled him ashore. Then came a fearful struggle, in which Mr. Sturgeon proved himself the stronger of the party, for he reached the water, and bid adieu to his captors. A pair of "ice hooks" were then secured, and with the aid of the "hooks" and "snare", they again succeeded in getting the fish upon shore, and bore their prize triumphantly away. By exact measurement, this monster fish was found to be five feet nine inches in length, weighing seventy-five pounds. This, we think, cannot be beaten in any stream of its size in the State, and moreover, it corroborates the statement made by the young men who were fishing with the net, the truthfulness of which was doubted very much.

School Books.—The want has long been felt by parents of the adoption by the School Board, of a regular series of Text Books in our Borough Schools, that should not be changed every winter, with the change in Teachers, thus subjecting the parents to the continual cost of buying new books before the old ones were half worn out.

The present Board have taken the matter in hand, and have now adopted a series of Books, which the law prescribes shall not be changed within five years. They have also made arrangements with the Publishers, by which the present series can be obtained at less than half price by exchanging the old Books for the new ones.

The Directors feel satisfied that they have adopted the best series of Books now published and the arrangements they have made with the publishers are so favorable that the cost of making the change, will in no case exceed one dollar for all the Books a parent will have to purchase, and in most cases perhaps will not amount to that much, which taken in consideration with the fact that no change can hereafter be made for five years, seems to warrant the assertion that they have done the best thing, in permanently settling the vexing question of Text Books.

- The series adopted are, Brook's Normal series of Mathematics, including: Brook's Primary Arithmetic, " Mental " " Written " " Algebra " Geometry " Fewsmith's Elementary Grammar, " English " Pearson's Questions, with Mitchell's Atlas, in Geography, for the High School, Montei's No. 1 for Primary Department, " 2 " Secondary " " 3 " Intermediate " Quackenbos' History, Steele's National Philosophy, Warren's Physical Geography, Cutter's Physiology, Sander's series of Readers, Normal and Commercial System of writing, Sander's Spelling Books. Parents will do well before purchasing Books in all cases to consult the Teachers as to the grade of books required which will hereafter depend strictly upon the advancement of the pupil. In this way much inconvenience and cost to the parent may be saved, and a system of grading more nearly perfect be established in our Schools. BY ORDER OF THE BOARD.

OAKLAND, September 16, 1871. Noticing the subject of your Scranton Letter was about newspapers of that city, the thought occurred to me that I might write something this week that would be interesting to the ball playing readers of your paper, if not to all. In an out of the way and mountainous place like this, one would not suppose a base ball club could exist, but for the benefit of the aforesaid base ballists. I would say that we have in this place the material of which a crack nine can be made. Our Red Jacket boys' with practice cannot fail to become one of the first clubs of the county. They are all (with two exceptions) Farmers sons and strong active and gentlemanly fellows and considering the shortness of the time since they were organized play a splendid game, and I think they would give any club in the county a good rub to beat them now. It is their aim to become a working nine that can receive from and send a challenge anywhere in a reasonable distance, but not this season, but should they accept one I don't think they would waver, but receive if they were even certain of being beaten. The other club of Canadensis is not a regular nine, being composed of every one who wishes to play for amusement, but they have some good players but they don't pretend to make it a business of it. The following is the working nine of Oakland club. Capt. Joseph Murphy, Harvey Decker, Dominick Brown, Phillip Keohler, William Sargent, Rufus P. Northrop, Chas. P. Mick, Paul Price, James P. Zabrickie. The above are all young men muscular and very active, quick of perception, and most of the Ladies say a good looking line. I might add there is some talk of their coming to Stroudsburg to play at or about the time of the fair, but it may be only a rumor. If they do the boys will have to play sharp. More anon. ZEBRO.

MOUNTAIN HOME, Pa., Sept. 12, 1871. MR. EDITOR:—As you requested me some time ago to acquaint you with any little incidents occurring in this locality which would be of interest to your readers, I ask the privilege of occupying a short space in the columns of your paper, in order to inform your readers of a few incidents connected with a trip a party of us had a few days ago from Mountain Home to Stroudsburg.

On Saturday last, a party consisting of about fifty of the members of Mountain Home Lodge, No. 684, L. O. of O. F., went to Stroudsburg, for the purpose of visiting Fort Penn Lodge, No. 134. Upon arriving at that place, we were informed that arrangements had been made for our entertainment at the Stroudsburg House and at the Indian Queen Hotel, to which places we at once repaired, and after indulging a little at the bar supper was announced, and, such a supper; I have searched throughout the whole vocabulary for words adequate to express the delight and gratification of the party when they beheld the sumptuous repast that was spread out for them, and I think, if you had witnessed the manner in which some of them pitched into the good things provided for the occasion, you would undoubtedly have come to the conclusion that some of them at least had fasted for a whole week previous, for the sake of having satisfaction when they came to Stroudsburg, and I venture the assertion that I friend Shafer of the Indian Queen Hotel, made anything out of his share of that party, he did more than his friend Allender of the Stroudsburg House. And here, let me remark that if any of your readers have an idea that friend Allender does not know how to keep a hotel, let them stop there once, and they will very soon find out how easy it is to be deceived, and while we feel that we are but doing a simple act of justice to the gentlemanly proprietor of the Stroudsburg House, we would also take occasion to say that those of the party who stopped at the Indian Queen were unanimous in their expressions of satisfaction at the treatment they received from the proprietor. Well, after the party had satisfied themselves that the landlords would not say that they did not eat enough, they started out, some on business and some for pleasure, until the ringing of the bell summoned them to the Lodge room. Here we again met, and here we witnessed the solemn and impressive ceremony of initiating into the mysteries of Odd Fellowship, as conducted in Fort Penn Lodge. After the closing of the Lodge, we repaired to the depot, making calculations on the way, how many of us could get on one coal train, and how many in one caboose; but, imagine our delight when we arrived at the depot and found that arrangements had been made by Mr. I. T. Puterbaugh, Esq., the gentlemanly Superintendent, by which an elegant passenger car was held in readiness for us, and awaiting our coming, and in which we had a very pleasant ride back to our homes, and although some of our party made the remark that they never before had as long a ride in a railroad car for the same amount of money, yet the time passed away very pleasantly and agreeably to the whole party, for we had our mutual friend and brother, James Brewer, Esq., of Canadensis, who was the clown of the show, and in whose company time passes away very rapidly.

The thanks of the entire party are due, and are hereby tendered to the officers and members of Fort Penn Lodge, for the manner in which we were received and entertained during our sojourn among them, also to the proprietors of the hotels at which, we were entertained, and last, but not least, to Mr. Puterbaugh, for his kindness in providing for us a comfortable passage to our homes, and we trust that the time may not be far distant when we will have the privilege of returning, so far as is possible for us to do, the many acts of kindness which were shown us every hand. A novel wedding took place a few days ago in a shoe manufactory in Cleveland. Two of the employees were placed on an elevator, and were married by a well-known clergyman. This over, a spring was touched, and the couple ascended to the fourth story. Returning in a few moments, the person congratulated them on their happy bridal tour. Cako was then served on large sole leather plates.

A man in Albany had a sick wife and three little children. He kept drunk all the time, and left his wife alone in bed to help herself. Sunday the poor woman died unattended. The brute was hunted up and told his wife was dying. "Let her die!" was all he replied, and kept on with his drunk.

A confederate flag was sold at auction in Richmond, Va., a few days ago, for \$1.25, and the Stars and Stripes brought only 60 cents.

One fruit-packing establishment in Baltimore now employs 800 persons, and puts up 800 cases of canned peaches, and 200 cases of tomatoes daily. A freedman owns one of the dry goods stores in Richmond.

Cornelius Walsh has been nominated for Governor by the Republicans of New Jersey. M. Walsh, though one of the most distinguished citizens of his State, has never held a public office. He is exceedingly popular among all classes, and by his liberal and intelligent life has endeared himself to the people of the whole State. We regard his election in November next as a political certainty.

A year old child of Emanuel Conrell, of New Brunswick, N. J., was left in a cradle while its mother went into another room. Upon the return of the latter she found that the child had fallen from the cradle, and in doing so its bib caught on the post of the cradle, and the little one hung suspended by the neck. All efforts to resuscitate it proved fruitless.

IT HAS NO EQUAL. In all cases of Dyspepsia, Liver Complaint and Kidney diseases, Misher's Herb Bitters will be found a reliable remedy. It has been before the American people for over ten years, and is now recognized as a standard preparation. It is sold by Druggists everywhere, possesses the confidence of the people in a greater degree than any other patent medicine, and is endorsed and recommended by Physicians in every section of the country.

THE MESSENGER OF HEALTH. A large sized paper, descriptive of disease, its origin and cure, will be mailed free to any address, on application to Dr. S. B. Hartman & Co., Lancaster, Pa. [Sep. 7/71-1m.]

Caution!—Take Notice! The public are hereby cautioned against harboring or trusting any person, under any pretense whatever, from this date on my account, as I am determined to resist, to the full extent of the law, the payment of all debts contracted by any one in my name, without regard to person, except upon my written order. THEODORE SCHOCH. STROUBSBURG, Pa., June 7, 1871.
