Grimes' Golden Pippin.

James Crawford, Augusta, Carroll Co. O., has a bearing orchard of over five hundred trees, embracing about one hundred varieties, and he places Grimes Golden at the head of the list in point of hardiness, fairness of fruit, uniform bearing and superior quality, and adds that it has not failed to give him annually, for sixteen years, a crop of fair and good sized fruit.

Steam Food a Preventative of Hog Cholera.

An exchange says: "Several very ex tensive hog growers of Henry Co., Ill. say that feeding steamed feed is a perfect preventive of the hog cholera, and that no one there this season, who fed steamed feed, has lost a hog by the cholera." We seriously doubt if it is the food alone that prevents the hog cholera. Our obser vation is that with a wholesome diet there must be care, shelter, day pasturage and good, pure water.

Lice on Poultry.

Take out of the house every perch, nest, box, or movable thing; remove all battens, cleats, or any thing whereby a crevice is made, so that the inside is smooth. Then make a whitewash of fresh I me into which put one ounce of carbolic acid to a pailful. Wash the house thoroughly with this. Then wash the outside. Then smear the perches with a mixture of lard and kerosene oil, putting it on thick, so that when the fowls roost they will get some of it on their feathers Also, put some of it on each fowl, under the hens will clear themselves if no recruits are furnished from the house.

How to Get Work Done on a Farm,

Every farmer is at times oppressed with a sense of the overwhelming number of D S. WILLIAMS, things that requires to be done. We have seen a pervous man in such circumstances commence one job, and before he had got fairly started abandon it for something that seemed more pressing, merely to leave this in the same unfinished state; and when night came he had accomplish ed little or nothing, and passed hours tos sing about on a sleepless bed thinking what he should do on the morrow. A young farmer could not adopt a better Clocks, Watches, Jewelry, Jewelers No- Boots and Shoes, rule than to repeat himself every morn ing, "Whatsoever thy hand findeth to do, do it with thy might," and act upon it ever offered in this section of country. When a job is commenced, finish it before be ginning another; but at the same time attend to the little things. But if you happen to get behind, strike a lively guit, do one thing at a time, and when it is done, take a little rest by immediately ges extremely moderate. Calls from the commencing another, and in this way you public respectfully solicited. will pull through in good time.

Curiosities of Earth.

At the city of Medina, in Italy, and about four miles around it, wherever the earth is dug, when the workmen arrive at a distance of sixty-three feet they come to a bed of chalk, which they bore with an auger, five feet deep. Then they with draw from the pit, before the auger is re Stroudsburg, where will be kept constantly moved, and upon its extraction the water on hand the best assortment of bursts up through the aperture with great Harness, double and single, violence, and quickly fills the newly made well, which continues full, and its affect ed by neither rains nor drought. But what is the most remarkable in this opera tion is the layers of earth as we decend. At the depth of fourteen feet are found this line of husniess. Work made to order houses, floors, and different pieces of ma of son work. Under this is found a soft, Mountings and Saddlery Hardclayey earth, made up of vegetables, and at twenty six feet large trees entire, always on hand. Call and make your own such as walnut trees with the walnuts still stuck to the stem, and the leaves and branches in a perfect state of preservation. At twenty-eight feet deep a soft chalk is in shortest notice. Call and examine found, mixed with a vast quantity of shells, and the bed is eleven feet thick .-Under this vegetables are found again.

The Age of Fowls.

The following will give our readers who are interested an idea of the way to judge the age of fowls :-

If a hen's spur is hard, and the scales

on the legs rough, she is old, whether the you see her head or not, but her head will corroborate your observation. If the underbill is so stiff that you cannot bend it down, and the comb thick and rough, leave her, no matter how fat and plump. Bank." for some one less particular. A young The location of said Bank shall continue hen has only the rudiments of spurs ; the to be in the Borough of Stroudsburg, and scales on the legs are smooth glossy and county of Monroe. fresh colored, whatever the color may be ; The object of said association is, to conthe claws tender and short the nails sharp, tinue the existence of said corporate body, the underbill soft, and the comp thin and as a bank of issue, discount, and deposit,

An old hen turkey has rough scales on the legs, callosites on the soles of the feet. and long strong claws; a young one the Dollars (\$100,000) in shares of Twenty-five reverse of those marks. When the feath. Dollars (\$25) each. ers are on the old turkey cock has a long tuft or beard, a young one but a sprout. ing one; and when they are off, the smooth scales on the leg decide the point, besides the difference in size of the wat tles of the neck and in the clastic shoot upon the nose.

An old goose when alive is known by the rough legs, the strengh of the wings particularly at the pinions, the thickness and strength of the bill, and the fineness of the feathers ; and when plucked, by Dress Making, the legs, the tenderness of the skin under the wings, by the pinions and the bill and the courseness of the skin.

Ducks are distinguished by the same means, but there is this difference-that Corsets and Hoisery, a duckling's bill is much longer in proportion to the breadth of its head than

the old ducks. A young pigeon is discovered by its pale color, smooth scales, tender, collapsed feet, and the yellow, long down in terspersed among its feathers. A pigeon and small profits will be the motto at this

"I sin't going to live long, mother," said a wochegone looking youngster, one April 20, 1871.-tf. day, to his maternal parent. "Why not pray?" "Because my pantaloons is all tored out behind," was the reply.
