four candidates for Governor in the field. the election was very quiet, and there was no excitement whatever. A very light vote was polled. The majority for Washburn, the Republican candidate, is from 15,000 to 20,000, about twice that of Gov Claffin last the rounds of our borough for several days year. The Labor Reform and Prohibition vote was much less than at the last election. The Republicans have the usual overwhelm ing majority in the Legislature.

In Maryland the Republicans gained nearly everywhere, and the Democratic majority in the State was cut down to 12,000. This is a gain of about 8,000 over the last Congressional election, and nearly 19,000 gain over the election of 1869. The Republicans have elected one Senator and 14 members of the House of Delegates.

In Illinois Gen. Beveridge, the Republican candidate for Representative at large, in place of Gen. Logan, is elected by at least 25,000. Henry Snapp, Republican, was elected to fill a vacancy in the 6th District.

Returns from Wisconsin indicate a Republican majority of 10,000 for Washburn as Governor; and a Republican majority is secured in both branches of the Legislature. The contest was an exciting one, and the State was thoroughly canvassed.

In Minnesota, Governor Austin, the Republican cadidate, is elected by about 8,000 majority, with a Legislature of corresponding character.

the House the majority is larger.
