EVENING SERMON: Sinless perfection by the Rev. J. R. Focht. G. W. MARRIOTT, D. D., Pastor.

THE Philadelphia Age has declared the 23d day of November shall be Thanksgiving Day. The ridiculous Age never did like the 30th because President Grant ap pointed it.

OUR Democratic cotemporaries are laying great stress on the declaration that they are defeated but not dismayed. De feated but not dismayed! That's brave.-But as events occur in the promised influence of truth, we expect to hear the Democracy about this time in 1872, declare they are defeated, dismayed, but not exactly chawed to pieces. We like cool-headed men, and surely the Democracy are to be commended for followed by judicious action. not being dismayed in their present sur roundings of fearful disaster.

THE Momons place great confidence in their ability to upset the decision in the poly gamy cases in the United States District Court for Utah. One of the test cases, which they have carried up to the Supreme Court of the United States, has just reached that tribunal, and will be made to prove the validity of the ruling of the Utah Court which tries offenses by a jury made up by the United States Marshal instead of the Utah Sheriff. On this point Brigham Young objected when he called the anti-polgamy panel "a packed jury." The aptice of polygamy, so we shall have the con- do so by calling at troverted point settled on purely constitutional grounds.

Let us all hope for this result.

American newspaper that here, in America, where all religions are free, and the preaching of all creeds possible, that the police are compelled to stand guard about a building in which the Bible is read. Yet the story is quite true. In New York the Roman Catholies threaten to destroy a public school building because the Bible is read in it, and the police surround it to save it from destruction. There is an easier and better way than this to solve the difficulty. If the Roman Catholies fear that the truths of the Bible are likely to uncatholicize their children, they have only to keep them out of the schools. Educaple a deep-seated conviction that the Bible is a good book, and a fit one to make their children acquainted with. Christianity everywhere accepts it, and if the Roman Chathothe public schools they had best keep hands kind and quality of his goods before the pub-
