

A maiden lady, alluding to her youth full accomplishments, said that at six months of age she went alone. A malicious individual present remarked: "Yes; you have been going alone ever since."

A Philadelphia poet was leaning pensively on his umbrella, the other day, when a friend asked him if he remembered Bryant's beautiful lines on Autumn. "Yes," he remarked, "they go thusly: The melancholy days have come; the saddest of the year, when it's too warm for whiskey punch, and too cool for lager beer."

Commissioner Baker of the Pension Office, has been indefatigable since he was appointed, in having the names of undeserving pensioners stricken from the rolls, and in punishing frauds. During the past year three hundred and one names which had been improperly placed on the pension rolls were dropped, and nine attorneys have been convicted of fraud, while others are awaiting trial. He thinks that an annual publication of the roll of pensioners, in their various localities, would expose many imposters.

A correspondent of the Country Gentleman says it copers and salt water are used around pear trees, the tree show the effects in a large yield of fruit. He tried this on a Barlett pear tree that had yielded no fruit for two years previous; that very year it yielded 155 large, fine pears, and the following year 250 large, fine ones, and it is still doing finely. If pear trees want iron which most soils are deficient sulphate of iron, or copers is a good way to supply it.

Some not uninteresting statistics in regard to the members of the United States Senate are found in the columns of an exchange. From these it appears that Senator Cameron is the oldest Senator, and Senator Spencer the youngest. Eleven senators have been governors of States; nine were born in New York, fifty two in New England, seven came from the British Isles and one apiece from Canada and Prussia. Of the professions represented, the editorial has eleven members. There are eight manufacturers, three doctors, two clergymen, one teacher and one "general business."

A Bad Habit.

Two young ladies, sisters, were at school in London, where they had been sent from Jamaica, their native place. After every one but themselves was asleep they used to get up quietly, slip down in the kitchen, and there catch and eat the cockroaches. The extraordinary habit was not detected for some time, but at last the mistress found it out and remonstrated with them. They, however, defended themselves by saying that they had seen her eat shrimps, which fed up on all manner of carrion, whereas the cock roaches were clean feeders, living on the crumbs which had been suffered to lie about in the kitchen. Even after the discovery, it was almost impossible to keep them from the kitchen at night so strong was their love of the cockroach.

Around the World.

Through tickets around the world are now issued, the price being \$1,145 in gold, and the running time eighty-one days. The line of route, going westward, is from New York to San Francisco say 3,000 miles; San Francisco to Yokohama, 4,700 miles; Hong Kong, 1,600 miles, thence to Calcutta, 3,500 miles; thence to Bombay, 1,400 miles, Bombay to Suez, 3,000 miles, from Suez by the way of Alexandria and Brindisi, to London, say 2,300 miles, and from London to New York, 3,200 miles. When the projected improvements of the Indian route are carried into effect across Europe, and a great continental railroad is established with proper branches and connections through Asia, the trip around the world will be shorter in duration and space, and at the same time much more interesting.

There is a great deal more small pox prevalent than there should be, but after all the mortality from that disease does not seem to be very great. The truth is that a few cases make a deal of noise and naturally excite considerable public apprehension. In Boston the number of deaths annually by the disease is given as follows: In 1862, 13; in 1863, 11; in 1864, 113; in 1865, 115; in 1866, 51; in 1867, 144; in 1868, 8; in 1869, 6; in 1870, 22; in 1871, 22. These returns, we think, show persistent and thorough vaccination may be relied upon to keep the disease well under. Great pains are taken in Boston to secure general vaccination; the children in the public schools must submit to the process; and the city physicians vaccinate all applicants gratuitously. Much care is also taken to procure fresh and pure virus, and one doctor in Roxbury it appears has shaved the abdomen of a calf and keeps the unhappy creature in a state of unceasing varioloid.

The Mormons tell one good story of Brigham Young. Among the applicants for the special privilege of taking a second wife, there came, one day, a brother of unusually doubtful character, when something like the following dialogue ensued:

"So you want to take another wife, do you?"
"Yes, if you please, Brother Brigham."
"Well, the short of the matter is, that you can't have one."
"Why can't I have one, as well as the other saints?"
"So you want to know the whole story, do you?"
"Yes; I should like to know why I can't have more than one wife, as well as the rest of em."
"Well, you shall know, then in short order: I want your race to die out!"
When a young ladie receive presents from gentlemen they inform "mammy," if she inquires, that it was a "philopon present."

Ayer's Sarsaparilla

Is widely known as one of the most
effective remedies
ever discovered for
cleansing the sys-
tem and purifying
the blood. It has
stood the test of
years, with a con-
stantly growing rep-
utation, based on its
intrinsic virtues, and sustained by its re-
markable cures. So mild as to be safe and
beneficial to children, and yet so searching
as to effectually purge out the great cor-
ruptions of the blood, such as the scrofulous
and syphilitic contamination. Impurities,
or diseases that have lurked in the system
for years, soon yield to this powerful anti-
dote, and disappear. Hence its wonderful
cures, many of which are publicly known,
of Scrofula, and all scrofulous diseases,
Ulcers, Eruptions, and eruptive dis-
orders of the skin, Tumors, Blisters,
Boils, Pimples, Pustules, Sores, St.
Anthony's Fire, Rose or Erysipe-
las, Tetter, Salt Rheum, Scald
Head, Ringworm, and internal Ul-
cerations of the Uterus, Stomach,
and Liver. It also cures other com-
plaints, to which it would not seem espe-
cially adapted, such as Dropsy, Dyspep-
sia, Fits, Neuralgia, Heart Disease,
Female Weakness, Debility, and
Leucorrhoea, when they are manifesta-
tions of the scrofulous poisons.
It is an excellent restorer of health and
strength in the Spring. By renewing the
appetite and vigor of the digestive organs,
it dissipates the depression and listless lan-
guor of the season. Even where no disorder
appears, people feel better, and live longer,
for cleansing the blood. The system moves
on with renewed vigor and a new lease of
life.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

Every year increases the popularity
of this valuable Hair Preparation;
which is due to merit alone. We can
assure our old patrons that it is kept
fully up to its high standard; and it
is the only reliable and perfected prepa-
ration for restoring GRAY or FADED
HAIR to its youthful color, making it
soft, lustrous, and silken. The scalp,
by its use, becomes white and clean.
It removes all eruptions and dandruff,
and, by its tonic properties, prevents
the hair from falling out, as it stimu-
lates and nourishes the hair-glands.
By its use, the hair grows thicker and
stronger. In baldness, it restores the
capillary glands to their normal vigor,
and will create a new growth, except
in extreme old age. It is the most
economical HAIR DRESSING ever used,
as it requires fewer applications, and
gives the hair a splendid, glossy ap-
pearance. A. A. Hayes, M.D., State
Assayer of Massachusetts, says, "The
constituents are pure, and carefully
selected for excellent quality; and I
consider it the BEST PREPARATION
for its intended purposes."
Sold by all Druggists, and Dealers in Medicines.
Price One Dollar.

As our Renewer in many cases re-
quires too long a time, and too much

effectually accomplish this result. It
is easily applied, and produces a color
which will neither rub nor wash off.
