Mysteries and Miseries of a Mad House—Sane Persons Imured in Bloomingdale Insane Asylum.

A once prominent banker of this city yesterday made his reappearance after sixteen months' absence, during which he has been confined in the Bloomingdale Insane Asylum, though to all appearances, and according to the admission of the keepers, he is unquestionably sane. He was arrested last year while sitting at his breakfast table, and was taken, with out a word of explanation, to the asylum. Although subjected to no special indignity, he says that the treatment of the insane by the keepers is simply revolting. He kept a minute diary of all that occurred during his incarceration, and has given it to his lawyer, John D. Townsend, who will make it the basis of an affidavit in which to begin proceedings in behalf of the gentleman named and three ladies, who will be brought before the court on a writ of habeas corpus next week. The affidavits of all these persons, and of a former keeper at the asylum, will also be presented to the grand jury for the purpose of securing an investigation into the management of the institution. Mr. Townsend, in conversation yesterday with a reporter, stated that the gentleman just released had not been discharged on habeas, for as soon as it became known at the asylum that proceedings were to be taken in court, word was sent that the prisoner was sufficiently recovered and had been released.

Mr. Townsend said he had instructed his client not to accept of voluntary release, for the reason that to avoid inquiry the superintendent of the asylum discharges those for whom habeas are issued in order to make return of "not in custody" to the writ. In three instances, he said, in which he had sued out writs, premature dismissals by the superintendent had prevented publicity being given to revolting cases of the incarceration of sane persons without even the form of law. He mentioned the cases of an elderly lady from New Jersey, committed by her son, who made no opposition to her release; and another of a merchant, who, after many months' confinement, was dismissed before the habeas could be served, and who is now doing business in the city, and as sane as any other merchant in it. The gentleman who was dismissed yesterday was never treated medically during his entire imprisonment, and his manner and general intelligence prohibit the belief that he is of unsound mind. He does not yet know by whom he was incarcerated or on whose medical certificate, but his lawyer visited the asylum at a late hour yesterday to examine the papers in his case, and those of the three ladies alluded to, in whom the gentleman released takes sympathetic interest, and who are declared by him to be sane.

Persons who burn coal—and almost everybody does it, either individually or vicariously—occasionally extracts some comfort from the reports of the monthly sales of the fuel in large quantities at New York. Scranton does not wait for the market. Scranton makes the market, and by putting up large quantities of black diamonds at forced sales, may possibly sell at cheaper rates than might be obtained if she would wait. But Scranton understands the value of the old adage which teaches that the nimble sledge has an advantage over the slow shilling. She loses as little interest as possible upon her investments; she prefers money in hand, or payable on short credit, to waiting for the price of coal to go up, and she disposes of what she has so that she may prosecute her industry, and in another month have on hand another large lot of coal ready to be disposed of. The Delaware and Lackawanna Railroad Company, which represents Scranton in this business, takes the chances, and she furnishes the thermometer by which the consumers of coal endeavor to judge whether the prices which they are to pay will be high or low. Looking at this test of value and contrasting the sales at the end of July with those at the end of June we find that the difference is so little that consumers need not hope that the middlemen will make any allowances for them. An average decline on the different qualities of from 24 to 28 cents per ton gives no promise of benefit to those who use the article. We may consider it settled that coal will not be any cheaper during the month of August than it has heretofore been, and those persons who have been waiting to reach the cheapest point in order to lay in their winter supply will probably find that the best economy which they can practice is to submit to no further delay and to obtain their stock as soon as possible.

In last week's Journal we mentioned the fact that a small steamer had arrived at the Delaware Water Gap, from some point up the river, to us, at that time unknown. We have since learned that the little steamer hailed from Brachville, Sussex Co., and sold by its owners, A. & J. S. Hough, to parties at the Gap. It was launched into the Delaware at Dingham's Ferry, from whence it steamed to the Gap—its destination. Crowds of people gathered on the banks to witness the novel sight of a steamer on the Delaware River, at that place. The steamer arrived in port with flags flying and whistle blowing. It carried a full cargo of passengers, the proprietors giving a free ride down stream, with the privilege of returning on foot. It is capable of carrying about 50 persons, and is called the "Mountain Belle." It will be used at the Delaware Water Gap for the pleasure of city boarders.—Warren Journal.

VINEGAR BITTERS. PURELY VEGETABLE. FREE FROM ALCOHOL. A TONIC FOR THE SYSTEM.

Vinegar Bitters are not a vile Fancy Drink, made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors, deodorized, and sweetened to please the taste, called "Tonic," "Appetizer," "Restorer," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, and all Alcoholic Stimulants.

Dispepsia or Indigestion. Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Diarrhoea, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, great and lingering spinal symptoms, are the offspring of Dispepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merit than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the fall of life, these Bitters are so decided an influence that a marked improvement is soon perceptible.

For Inflammatory and Chronic Rheumatism and Gout, Dispepsia or Indigestion, Biliousness, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Itch, Scalds, Boils, Carbuncles, Ringworms, Ring-head, Sore Eyes, Erysipelas, Itch, Scuffs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find it impure, the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is the cause of Fever, and when it taints the blood, and the health of the system will follow.

Grateful thousands proclaim VINEGAR BITTERS the most wonderful invigorant that ever sustained the sinking system.

Pin, Tape, and other Worms, lurking in the system, are effectively destroyed and removed. Says a distinguished physiologist: There is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits which collect in the bowels, and in the urinary system. No system of Medicine, no verminicides, no anthelmintics, will free the system from worms like these Bitters.

Mechanical Diseases. Persons engaged in Painting and Minerals, such as Plumbers, Type-setters, Gold-beaters, Miners, etc., they are liable to life, will be subject to paralysis of the Bowels. To guard against this take a dose of WALKER'S VINEGAR BITTERS once or twice a week, as a Preventive.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, which visit our shores, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and drouth, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. There are always more or less obstruction, flatulency, and irritability of the bowels, and great torpor of the bowels, being clogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they gently and gradually restore the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Serofina, or King's Evil, White Scallag, Ulcers, Erysipelas, Swelled Neck, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by restoring away the effects of the inflammation (the tubercular deposit) the affected parts receive health, and a permanent cure is effected.

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic and Carminative, Nutritious, Laxative, Diuretic, Solvent, Counter-irritant, and Anti-Bilious.

The Aperient and mild Laxative properties of Dr. WALKER'S VINEGAR BITTERS are the best safeguard in all cases of eruptions and malignant fevers, their balsamic, healing, and soothing properties protect the humors of the fauces. Their Solvent properties clear away the morbid matter, and their Diuretic properties act on the kidneys, correcting and regulating the flow of urine. Their Anti-Bilious properties stimulate the liver, in the secretion of bile, and its discharges through the biliary ducts, and are superior to all remedial agents, for the cure of Bilious Fever, Fever and Ague, etc.

Partly the best remedy against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fortified. The liver, the stomach, the bowels, the kidneys, and the nerves are rendered disease-proof by this great invigorant.

Directions.—Take of the Bitters on going to bed at night from a half to one and one-half wine-glassful. Eat good nourishing food, such as beef steak, mutton chop, venison, roast beef, and vegetables, and take outdoor exercise. They are composed of purely vegetable ingredients, and contain no spirit.
