Go to Simon Fried's for neck ties and collars.

The Palmer Bros. have opened a new Meat Market, on Main street, in Walton's building, 2d door below Ruster's Clothing Store. Their shambles are always loaded with the best to be had. Purchasers should make a note of this fact.

We are requested to say that all Express freight from Philadelphia for points on the Delaware, Lackawanna & Western R. R. should be ordered through the Philadelphia & Reading R. R. Express, office 624 Chestnut street, Philadelphia.

There is no charge for showing goods at Fried's, neither are there cross looks if you do not buy.

Quite a number of our citizens enjoyed "a trip of the light fantastic toe," at William's Hall, on Tuesday evening last. The company was very select, and all hands agree that a very pleasurable time was had. The dance kept up until the "wee sma' hours."

A man was killed on the Railroad near Bell's Bridge, on Wednesday of last week. He was walking on the track, and was considerably under the influence of liquor, and when the train came along, either did not or could get out of the way, and was run over. He was an Irishman by birth; but we did learn his name.

In these times of "Sour Kraut" famine it may not be a miss to know that the failure of the Cabbage crop was not total. Friend Foulke of Highland Dell, on Monday last cut and sold from his patch some 2,300 heads of as fine cabbage as we ever saw. He has several thousand good heads yet in field.

The Horse disease, now so prevalent in so many places as to seriously interfere with business transportation, has visited this neighborhood. Aaron E. Crook, lost a horse last week, having every symptom of the disease. Our farmers and others possessing them should give their horses extra care just now.

Paper Thieves.—We have received numerous complaints of late from subscribers, to the effect, that their paper after having been delivered at the front door, disappears mysteriously. This mean practice of stealing newspapers, we trust will be discontinued, as the parties, if detected will be dealt with to the full extent of the law.

The Stroudsburg Preachers Meeting met in the M. E. Church, Monday afternoon, October 29th, 1872. Rev. J. Pastorfield in the Chair. Religious services were conducted by Rev. D. Young. A number of interesting reports of the state of the work in their charges were then given by the pastors. The order of the day was then taken up.—An Essay on "The absurdities of Spiritualism" by the Secretary. The following Ministers were appointed a Committee on nominations for office, to report next meeting, viz: D. Young and R. C. Wood. The standing committee reported that an Essay will be delivered next Monday by Rev. J. Pastorfield. On motion adjourned. The Doxology was sung and the Benediction pronounced by Rev. R. C. Wood.

GEO. W. F. GRAFF, Sec'y.

Republicans should be careful when they vote next Tuesday to obtain the proper electoral ticket. That which represents the Republican nominations of Grant and Wilson is headed by "Adolph E. Borie."

Several monitors are being fitted out at our navy yard and shipyards for service on the West India station.

The Premium, the first premium, and the only premium given to sewing machines at the Monroe County Fair, last week, notwithstanding the fact that the Domestic, the A. B. Howe and the Grover and Baker cornsheller, with operators and got up work imported for the occasion were in competition, was awarded to the Wheeler and Wilson machine. The committee, composed of practical mechanics and experts, after giving each machine a thorough examination, were constrained to say, that for excellence of workmanship, and durability the Wheeler and Wilson, was by far the best. It was evident to all that some of the agents had mistaken their proper location. The things they exhibited there would have had a better place, decidedly, among the agricultural implements.

Reformed Congregation at Brodheads-ville.

RELIGIOUS NOTICES.

Sermon on the Women of the Bible.—Rev. D. E. Schoedler, Pastor of the Reformed congregation at Brodheads-ville, is preaching a series of interesting and instructive sermons on the women of the Bible. The sermons are historical and practical, and are well received by the community. Last Sunday he preached his first sermon on Sarah the Wife of Abraham. He will preach his second sermon on this subject, on Sunday, December 8th, at 10 o'clock in the forenoon. These sermons are preached in the English language.

Sermon on Ecclesiophobia, (in German Kirchenscheu).—God willing, Rev. D. E. Schoedler will preach a sermon on Ecclesiophobia, in the Church at Brodheads-ville, on Sunday, November 10th, at 10 o'clock in the forenoon, in the German language. In this sermon Rev. Schoedler will consider and answer the chief objections which many people have to going regularly to church. The public are cordially invited to attend.

Celebration of the Communion of the Lord's Supper.—Deo volente, the Reformed congregation at Brodheads-ville, will celebrate the Fall Communion of 1872, on Sunday November 24th, the services to commence at 10 o'clock in the forenoon, and to be held partly in the German and partly in the English language. An organ and an organist will be procured for the occasion. All are welcome.

A CARD.

533, OXFORD STREET, W. C., LONDON, Oct. 12th, 1872.

DEAR SIR, I beg respectfully to annex copy of a circular as sent to the Medicine Vendors and others in the States and elsewhere by two or three individuals (of little or no means), under the style of "The New York Chemical Company," which company had no existence until October, 1871, and with which I have no connection.

The more effectually to deceive, they caution the Public as follows:—"The immense demand for HOLLOWAY'S PILLS AND OINTMENT has tempted unprincipled parties to counterfeit these valuable Medicines."

"In order to protect the Public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian Circle of a serpent with the letter H in the centre. Every box of genuine "HOLLOWAY'S PILLS AND OINTMENT" will have this trade mark on it. None are genuine without it.

"To DEALERS AND JOBBERS IN DRUGS AND MEDICINES.

"We call your particular attention to the new style of "HOLLOWAY'S PILLS AND OINTMENT"—none of the old style are manufactured for us now, nor have they been for months. We therefore caution all purchasers against receiving from any Jobbers or Dealers the old style of goods.

"Information concerning any such goods being offered will be received with thanks.

"We ask the favor of all the information you can give in regard to those counterfeiters."

Now, this Honorable Company, aware that your laws do not permit them to copy the precise getting up of my Medicines, put their counterfeiters into another of a serpent with the letter H in the centre. Every box of genuine "HOLLOWAY'S PILLS AND OINTMENT" will have this trade mark on it. None are genuine without it.

The object of these people in referring to the immense demand for these Medicines is, that it may be believed that I am connected with them.

In the interest of the public, I therefore respectfully invite you to be pleased to give an insertion to this letter in your paper, that your readers may not be deceived by this "New York Chemical Company's" spurious Medicines.

Each Pot and Box of my Genuine Medicines bear the British Government Stamp, with the words "Holloway's Pills and Ointment, London," but they are not sold in the United States.

A fearful balloon accident happened at De Kalb, Ill. Friday. An aeronaut had a balloon ready to ascend, when, before he had entered the car, it broke loose and flew upward. A hanging robe caught around the leg of a man named McMan and carried him up to the height of about a hundred feet, when he managed to climb into the basket. When the balloon had reached a distance of 400 feet from the earth McMan deliberately jumped out and was picked up dead.

The first Constitutional Convention convened at Harrisburg on Monday 2, 1837, and remained in session until the 14th of July, when it adjourned until Tuesday, the 17th of October, 1838. On the 23rd of November, pursuant to resolution, the convention assembled at Musical Fund Hall, Philadelphia, where it remained in session until the 22d of February, 1838, when it adjourned sine die. The amendments to the constitution framed by this convention were submitted to the people on the second Tuesday of October, 1838, and were adopted by a majority of 1,212, the vote being, for amendments 113,971, against amendments, 112,759.

Perpetual motion has been discovered again—this time in Petaluma, Cal. The discoverer is a gentleman of that town, who has shown the local editor, not, it would appear, a working model, but "drawings," which have convinced the said editor that "the great problem has at last been solved." The cost of driving railway trains and steamers will be reduced to nulls where it is now thousands of dollars.—"The ignorant may scoff, and the unthoughtful deride," but the Petaluma man has "fetched it" at last. The inventor values his discovery at \$20,000,000. N. Y. Tribune.

EX-GOVERNOR JOHNSTON.

Hon. William F. Johnston, ex Governor of Pennsylvania, died in Pittsburgh on Friday afternoon. Mr. Johnston was elected Governor of the Commonwealth in 1848 to fill the vacancy caused by the death of Governor Shunk. The contest was a memorable one in the political annals of the State, being marked by the exceeding closeness of the vote. He gained his election over Longstreth, the Democratic candidate, by a majority of three hundred and two votes in a total vote of over three hundred thousand. At the expiration of his term of office as Governor in the year 1851, he was again the candidate of the Whig party, but was unsuccessful, William Bigler being elected by a majority of 4165. Governor Johnston was early identified with the Republican party, but withdrew from it as the time of the impeachment trial of Andrew Johnson, of whom he was an adherent. He attended the celebrated Wigwam Convention of 1866, as a Delegate at Large from Pennsylvania. He was appointed by President Johnson collector of customs of the port of Philadelphia, in 1866, after which he took no prominent part in public affairs until the recent election, when he was an Opposition candidate for Congress in the Twenty-third Congressional District of this State.

THE HORSE DISEASE.

The horse disease which is raging in New York and Canada is assuming alarming proportions, and our farmers and other owners of horses should take every precaution to prevent its introduction here. It is spreading terribly, and such a fatality among horses was never known before. The N. Y. Herald states that in and about that city 15,000 of them are suffering with it—half the stock belonging to street railroad, stage, express, manufacturing and other companies, livery stables, &c., is under treatment. Veterinarians are at their wits' end, but can not stop the malady. It is evidently contagious. Therefore, horses should be kept at home, and separated as much as possible.

CAMDEN, N. J., Oct. 23.—Ten new cases of horse epidemic were reported to day at one stable, and seven at another. A number of milkmen are obliged to carry milk to their customers. Other cases are reported, and it is certain that the disease is spreading.

PHILADELPHIA, Oct. 23.—The horse disease broke out here to day. Twenty cases are reported at Prens's stable, in Cherry st., below Fifth-ave.; 11 cases in the adjoining stable, and five horses belonging to Francis D. Kramer & Co. are affected. Simple remedies are being applied. All the horses have heavy coughs, swollen and bloodshot eyes, accompanied by swelling in the throat. Four cases are reported in one of the railway stables.

Big beats are common now a days, and there seems to be no limit to their big ness. The Morning Republican speaks of one, raised at Hyde Park by Mr. J. J. Shopland, which weighed thirteen and a half pounds.

Horses.

A correspondent makes the sensible remark that winter or summer, excepting stormy times, there is no place so comfortable for colts or tired work horses as a good pasture lot. To tie up a horse at night in a narrow cell, with a floor to stand on, is a species of cruelty that civilization ought to be ashamed of. If the animal must be confined like a victim in a dungeon for pity's sake let him have his head, and give him at least twelve feet square, with a soft dry floor to stand or lie on.

THE CONSTITUTIONAL CONVENTION.

The Convention will consist of one hundred and thirty three members. Ninety-nine delegates were elected in the several Senatorial districts of the State, the apportionment being three for each Senator, each voter voting for two. Twenty eight were elected at large in the State, each ballot containing the names of fourteen delegates, and the twenty eight highest in vote declared elected. Six delegates were elected at large in the city of Philadelphia, each voter voting for three, the six receiving the highest number of votes being declared elected. This is the first instance that has arisen in the Union where the principle of minority representation has been so fully applied.

The Convention will meet at the State Capitol on the second Tuesday of November—one week after the Presidential election—when it "shall be the duty of the Secretary of the Commonwealth to call the Convention to order and to submit all the returns of election in his possession and to read the aforesaid proclamation of the Governor, and thereupon said Convention shall proceed to organize by electing one of their number President and, after the members are sworn in, such other officers as may be needed in the transaction of business. "The Convention will then be ready for work. It will have power, under the law convening it, to submit a new Constitution, one amended, or merely specific amendments, as deemed proper. One third of the members elected have a right to require a separate and distinct vote on any amendment submitted. The power to change the declaration of rights is withheld from the Convention as well as the right to create and submit any proposition establishing a court of exclusive equity jurisdiction.

The Convention is to fix the time and manner of submitting the new Constitution or the amendments to the people, subject, however, to the limitation above noted in regard to separate submission, and a majority vote adopts. The election is to be conducted under the general election laws of the Commonwealth. The compensation of the members is fixed at one thousand dollars, with the usual mileage. Vacancies in the membership of the Convention are to be filled, when the vacancy is a delegate at large, by those members at large who were elected by the political party which chose the member whose place is to be filled; if a city or district delegate, by those members at large "who shall have been voted for by the same or by a majority of the same voters who shall have voted for such district or city member."

A Remedy Suggested.

The following communication from General Roberts, United States Army, whose experience as a cavalry commander renders his opinion in regard to horses entitled to respect, suggests a simple and easily applied remedy for the disease:

SPRINGFIELD, Mass., Oct. 23, 1872.—Mr. Bonner—Dear Sir:—In the spring of 1868 a disease broke out among my cavalry horses at Fort Sumner, New Mexico, that appears to me identical with that now raging among horses in our cities, and in a very few days became an epidemic.

At first it defied all treatment, and the great majority of the horses attacked by it died. On examining the throats of the dead horses, I found the lining membrane of the larynx highly inflamed and thickened, and a thick mucus pus filling it, causing suffocation. I ordered all horses, on the first appearance of the disease, to be thoroughly rubbed between the lower jaws and along the larynx down the neck with spirits of turpentine, causing a very severe external irritation and blister.

I saved every horse thus treated, and in a very few days entirely broke the distemper and checked the epidemic.

I do not doubt that thousands of horses, where this epidemic prevails, can be saved by adopting this treatment. It acts more quickly as a counterirritant than any other remedy I know, and relieves the fever of the membrane of the larynx in a very few hours. Besides, spirits of turpentine is always at hand, and can be more readily applied than any other counter-irritant. It should be thoroughly rubbed in through the hair to the skin, for a distance of some twelve or fifteen inches, under the jaws and down the neck of the horse, immediately over the larynx.

The remedy is severe, and makes the skin sore for several weeks, and for an hour causes great suffering to the horse. But it acts promptly and effectively, and in my judgment it will be found the best, and, perhaps, the only cure for this fatal malady, causing such suffering and loss among horses throughout the country. My love of horses induces me to address you, and to ask you to give to this communication such place in your paper as to reach the public in the most prompt and general way, and stay one of the greatest misfortunes, now threatening all communities, and destroying by thousands the noblest animal, created for the service of man. Very truly yours,

B. S. ROBERTS, Brevet Brigadier General United States Army.

OUR TRIUMPH COMPLETE.

The Harrisburg Telegraph of Saturday evening gives the complete official vote of Pennsylvania for State officers and the Constitutional Convention. The aggregate results are as follows:

For Governor.—John F. Hartranft, Republican, 353,387; Charles R. Bucklew, Democrat, 317,760; S. B. Chase, Temperance, 1,259. Hartranft over Bucklew, 35,627; over both, 34,368.

For Auditor General.—Harrison Allen, Republican, 352,568; William Hartley, Democrat, 315,788; Barr Spangler, Temperance, 1,260. Gen. Allen over Hartley, 36,780.

For Supreme Judge.—Ulysses Mercur, Republican, 354,319; Jas. Thompson, Democrat, 313,876; Joseph Henderson, Temperance, 977. Mercur over Thompson, 49,443.

For Congressmen at Large.—Lemuel Todd, Republican, 357,743; Charles Albright, Republican, 360,546; Glenni W. Scofield, Republican, 358,013; Richard Vanx, Democrat, 311,036; James H. Hoxkins, Democrat, 313,534; Hendrick B. Wright, Democrat, 314,014. Todd's majority, 46,707; Albright's majority, 47,012; Scofield's majority, 43,999.

For Republican delegates to the Constitutional Convention, 355,715; for Democratic delegates, 308,127. Republican majority, 47,588.

October Crop Report.

A synopsis of the October crop report of J. R. Dodge, statistician of the Department of Agriculture, indicates the comparative production of wheat, and the condition of the crop on October 1.

The record of the yield of wheat is quite as variable as was that of its condition during the summer. Some States have made superior crops; others almost the poorest ever grown. The New England States have nearly sustained their usual average. The Middle States and Maryland together reduced their last year's aggregate from thirty seven million bushels to twenty four million, or thirty-five per cent. The Southern States from Virginia to Tennessee, which were known to have increased largely their wheat area appear to have enlarged their production fifty per cent, or from 18,000,000 bushels to 27,000,000.

California has increased her produce at least seventy five per cent. Minnesota and Iowa have made a merital increase, while Missouri and Kansas, the former growing winter wheat mainly, the latter both winter and spring, have had a comparative failure in both varieties. Virginia and Kentucky have had good crops, while Maryland and Ohio return diminished yields, as does the entire district between the Ohio and the lakes, the Miami and the Hudson. Returns have been received from counties representing a large proportion of the wheat crop of each State which indicates an increase of about five per cent. over the product of last year, which was estimated at 230,000,000 bushels. It is probable that the contemplated estimate will not fall short of 240,000,000 bushels upon an area a little less than 20,000,000 acres. This will make the yield between twelve and thirteen bushels per acre, which may be considered an average for the United States.

The increase in States west of the Mississippi appears to be about 15,000,000 bushels in comparison with last year's product, or 85,000,000 bushels instead of 70,000,000. The central line at wheat production, running north and south, is this year further west than ever before, and is nearly identical with the ninetieth meridian, which divides centrally the States of Wisconsin and Illinois. Nearly all the wheat produced between this line and the Mississippi river is grown in the western half of those two States. The quality of wheat is in most of the States better than last year.

The percentage of product in comparison with last year in each of the States is as follows:—Maine, 109; New Hampshire, 98; Vermont, 95; Massachusetts, 90; Connecticut, 86; New York, 70; New Jersey, 80; Pennsylvania, 69; Delaware, 75; Maryland, 66; Virginia, 101; North Carolina, 136; South Carolina, 113; Georgia, 180; Alabama, 133; Mississippi, 101; Texas, 320; Arkansas 102; Tennessee, 200; West Virginia, 104; Kentucky, 175; Ohio, 85; Michigan 88. Indiana, 101; Illinois, 98; Wisconsin, 121; Minnesota, 130; Iowa, 112; Missouri, 60; Kansas, 80; Nebraska, 140; California, 175; Oregon, 108. In States where the crops were short last year, as Kentucky and Texas, the percentage of increase is heavy; in California it is mainly due to increase of area and a superior rate of yield.
