DELIRIUM TREMENS.

Individuals.

Delirium tremens and .mania a portu are synonomous terms, and Webster defines them "madness or a violent delirium induced by the excess and prolonged use of intoxicating liquors." Whoever has seen a case of delirium tremens, has no idia of the intense suffering, and fearful reality which crowds itself upon the hallucinated intellect of the sufferer .-Strange as it may seem, the person so afflicted is deeply impressed with the idea that be is perfectly rational, and that all which appears to his diseased mind is true and real; but to the same mind it is the work of a disordered imagination. His misery no pen can paint in words-It is horrific The senses are terribly alive-the brain, the ear, and the eye-in rapid succession conjure up some new and varied hallucination, creating a wheel upon which the ed nature kept continually on the rack. Sleep he cannot, eat and drink he will this department is known as Insurance not. If he would recover, sleep must en Commissioner, and the position has been sue, and consequently nourishment, to filled by the appointment of Mr. Montstimulate exhausted nature, which has gomery Foster, of Harrisburg, who will been destroyed by the power of strong enter upon the duties of the office on the drink. fell, and in a few weeks was seized with the "jim-jams," and in less than ten hours What it is, and How it affects different after being confined in the hospital, was

We cite these cases to show how ludi crous as well as serious, are the vagaries under which persons labor when suffering from this malady. The delusions with which they are affected are as di versified as nature itself; and if a sane mind can form some idea of the scope of the imagination in health, then what must it be when all the senses-the eye, the car, the brain-are rendered a thousand times more acute and intensified by the malady which racks the whole man? It is simply horrible-a state which no man neep envy who does not want to be tor mented before his time.

INSURANCE DEPARTMENT.

One of the most important acts of the late Legislature of Pennsylvania was the passage of a law department in our State physical system is broken, and exhaust Government, to be known as the Insur ance Department. The chief officer of

> > In short, the act gives the Commissioner the most extended authority in all things pertaining to the business of the insurance companies of the State and that of the agents in the State of foreign companies. He has full access to their books, papers, &c., either in person, or others has power to institute prosecutions against companies either through the Attorneypensated not to exceed three cents for paid by the company for which the valua tion is made; and there shall be paid by every company to which this act applies,

This law is designed purely for the proexercises full the powers vested in him, it will not be easy for a company to exist in Pennsylvania unless its affairs are in a

The Destroyed City.

THE TERRIBLE CALAMITY THAT BEFEL SAN SALVADOR - DEATH STARING THE POOR

of the earthquake at San Salvador state that, fortunately, owing to the first shocks having frightened the people from living within houses, the loss of life has not been so great as it would otherwise have been. Out of a population of 40,000 which the city of San Salvador was said to contain, the number reported killed and wounded varies from 50 to 500 In the midst of the dust and consternation a fire broke out in a drug store, but it was soon got under.

The government functionaries stood to their posts and did their duties in a highly creditable manner. The President sent his family to Santa Tecla and estab lished himself in the principal square of the capital in a tent, repressed all at tempts at disorder and robbery, and rendered assistance wherever it was most needed. Any one found carrying away property was shot. The authorities still persist in rebuilding the city on the same site, although this is the eighth time within 150 years that the city has been des troyed. Most of the people have nevertheless removed to Santa Tecla.

The only buildings that stood the shocks were of timber. The impulse at present is to import timber from California. or the construction of earthquake proof houses. Aid and money have been tendered and sent from all parts of the Republic. Everything has risen to an exorbitant price. The prisoners in jail were removed to other places, and the Sisters of Charity have been assiduous in attending the sick and wounded. Captain Kennedy, search of treasure supposed to be conof the British man-of-war Reindeer, gave all the assistance he could, and offered his ship for the use of Mr. Biddle, United States minister. The latter, as well as the government, sent letters of thanks to Captain Kenndy.

Among the heavy foreign sufferers doing business in San Salvador are reported to be Moses Levy & Co. of London, Kattengall & Campbell of Manchester, G. B. Keford & Co of Liverpool, and

among the resident merchants are Herford & Keogh, Carazzo & Duke, Dorankes & Ojerda, Blanco & Figueras, J. M. Peratte. Demetrius Ruana, and Jose Rossales. though every one, of course, suffered

Great fears are entertained that the

stoppage of the sewers and the exposure of dead bodies unrecovered from beneath the ruins, and other morbific conditions, may bring on an epidemic. The fine bridge lately built across the river on the road to Sayapango was thrown down, and

were placed in the cemetery. evidently a mere shell.

the capital of Salvador and the ruin of a lish. first really violent shock occurred on the Lehigh, in 1874, are one in each of kind-hearted, and liberal to the poor.

radius of twenty miles. amounted to five hundred.

It is n't often that anything sentimental occurs at a Sheriff's sale. The Sheriff of Tioga County (N. Y.) was recently called satisfy judgments. After he had performed his duty, he said to the spectators that he proposed to contribute the amount of his fees to the unfortunate woman .-The good example proved contagious; in ; the purchasers returned the articles which they had bought; the nonpurchasers gave cash and provisions; so that the widow was soon better off than ever.

the carrying of concealed weapons.

A Dead Body Preserved Over Fifteen Hundred Years.

The tomb of Edward I, who died in 1307, was opened January 2, 1770, after 463 years had elapsed. His body was almost perfect. Canute, (the Dane), who PANAMA, April 10 .- Further reportes crossed over to England in 1017, was found in 1776 by the workmen who re paired Winchester cathedral, where his body had reposed nearly 750 years, perfeetly fresh. In 1569, three Roman soldiers, fully equipped with warlike implements, were dug out of a bed of peat in Ireland, where they had lain probably 1,-500 years. Their bodies were perfectly fresh and plump.

In the reign of James II. of England. after the fall of the church at Astley, in Warwickshire, there was taken up the corpse of Thomas Gray, Marquis of Dorset, who was buried there the 10th of October, 1530, in the twenty second year of Henry VIII.; and although it had lain There seventy eight years, the eyes, hair, flesh, nails and joints remained as though it had been but newly buried.

Robert Braybrook, who was consecrated bishop of London in 1381, and who died in 1404, and was buried in St. Paul's. was taken out of his tomb, after the great fire in 1666, during the repairs of the cathedral, and, although he had lain there no less than 262 years, his body was found firm as to skin, hair, joints and and is no granny with spectacles.

Petro Rodriguez, a Portuguese jeweler while pursuing his occupation in the city of Mexico, was, in 1595, accused before the tribunal of the inquisition, and after a variety of tortures, was condemned to de St. Domingo in that city. He was then thirty two years old. The Convent de St. Domingo was lately demolished in cealed there, and the body of Rodriguez taken out of the vault exactly as when ter, two and a half years of age, was lying under her father's feet, and as perfectly position in any part.

For Fish and Fishermen.

The new law which has been signed by other roads were rendered impassable by the Governor, is intended to be of great immense blocks of stone thrown down benefit to the people of all parts of the from the heights, some one hundred tons | State, by its various provisions for the in weight. What I Have Noticed.

I have noticed that all men speak well of all men's virtues when they are dead, and that tombstones are marked with the epitaphs of the good and virtuous. Is there any particular cemetery where the bad men are buried?

I have noticed that the prayers of every selfish man is "Forgive us our debts," while he makes everybody that owes him pay the utmost farthing.

I have noticed that he who thinks every man a rogue, is very certain to see one when he shaves himself, and he ought in mercy to his neighbor surrender the rascal to justice.

wisdom, the knave's reputation, the rich man's trouble, the man's ambition, the idel of all. I have noticed that whatever is, is right,

I have noticed that money is the fool's

with few exceptions-the left eye, the left leg, the left side of a plum pudding. I have noticed that merit is always

measured in the world by success. I have noticed that in order to be a reasonable creature it is necessary at times to be downright mad.

I have noticed that we are always wishing instead of working for fortunes : we are disappointed and call dame fortune blind; but it is the best evidence that the old lady has the most capital eyesight,

I have noticed that the purses will hold

pennies as well as pounds. I have noticed that some men are so honest that necessity compels them to be dishonest in the end.

I have noticed that silks, broacloths be buried alive in a vault in the Convent and jewels are often bought with other people's money.

I have noticed that all men are honest when well watched. I have noticed that in nearly all things

money is the main object in view.

It didn't galture, without the least trace of decom lap out, we don't mean, but out-came out to look at the scenery, and see if it was going to rain. Its mouth was wide open, and the feathers on the top of its head stood straight up. Then it commenced to go around the yard like a circus horse. Once in a while it would stop and push out one leg in a tone of astonishment, and then holler "fire," and start on again. The other hens came out to look on. Soon the hens from the neighbors came over the fence, and took up a position of observation. It was quite evident the performance was something entirely new and unique to them. There is a good deal of human nature in hens. When they saw this hen dance around and have all the fun to itself, and heard it shout "fire," and could't see the conflagration themselves, they filled up with wrath, and of one accord sprang upon it, and before the Danbury man could interfere, the brindle hen with the long legs was among the things that were. He says the recipe is effectual .- Danburg
