

The Jeffersonian. THURSDAY, MAY 14, 1874.

Normal School Again.

We are in receipt of a communication from the Hon. William Kistler, to the effect that Professor Wickersham will deliver an address in the Court House at this place, on the evening of the 18th of this month, on the Normal School question. This is an enterprise of vast importance to this County at large. All petty, selfish questions of locality ought to be done away with, and the place peculiarly suited to it, be by common consent fixed upon. Our county ought to have the Normal School of this District, and and it can easily be secured if a generous liberal spirit can be made to prevail among our citizens. Let all come out and hear the Professor on the subject, and then let us all go to work with a firm resolve of pushing the enterprise to a successful conclusion, withsettling the question?

Lieutenant Governor.

We are gratified to learn from various sources that the Hon. Jacob M. Campbell. ex-Auditor General, is prominently spoken of for the nomination of Lieutenant Governor at the approaching State Republican Convention. We doubt not that he would honor the office.

in our cemetery.

LECTURE.—Last Friday evening, Rev. T. B. Neely of Philadelphia, delivered a very interesting lecture on Temperance, to a large and appreciative audience, in the M. E. Church of this place. The Reverend lecturer is an eloquent and pleasing speaker, and his argument in defence of the temperance cause was reasonable and comprehensive. He held the attention of the audience throughout the entire discourse and should he again visit this place, which we hope he will, a crowded house will welcome him.
