A Normal School.

The Lecture by Prof. Wickersham, on the subject of a Normal School in this locality, of which we made extended mention last week is not, we hope destined to pass without producby the Professor all have their foundation in started on his own responsibility, and we feel might fill our columns with jenkinsisms more successful project was never conjured up forte nor desire. in the brain of man, whether as a promoter of education or as a financial speculation in connection. So too, of the similar institution at beginning our school here, and like ours it the Court House, in this place. A. O. found its enthusiastic adherents and its croak- Greenwald, editor of the "Monroe Demotheir shoulders valiantly to the wheel and now Kutztown, like Millersville, boasts of a School filled with students, from the expenses of whose education and support thousands of dollars flow monthly into the pockets of the inhabitants, besides affording them the best possible educational facilities for their children. Other institutions, similar in character, but started more recently, are rapidly following the lead of these, and are with wonderful strides marching up to the line of success for their in- meet a similar number of Conferees from terests and for the pecuniary and intellectual each of the other counties of this Congresprofit of their projectors.

county hesitate in making a move in the same conference is to be held in Stroudsburg. direction. All experience goes to show that Normal Schools have ceased to be an experi- sentative Delegare to the State Convention. ment, and become an assured success. And if this is so, as it is beyond a peradventure, in ial Delegate. other places, what is there to hinder its becoming doubly a success here. There is not a Normal School in the State that has one tenth part of the natural advantages in point of locality that Strondsburg and vicinity possesses. Millerstown was a mere hamlet and unknow outside of Lancaster county, until Secretary Wickersham stamped the impress of his energy | the swinging pleasant. upon it in the establishment within its bounds of one of the best educational institutions in the country. Now its reputation is world wide. Kutztown was known only for its battallions and frolics, and its reputation was anything ed here yet. Hurry up girls. but enviable until its Normal School was founded. A very few years have intervened since then, and yet now in seputation Kutztown abouts has been overdone with the heat this in the Eastern Penitentiary, and to pay a away with two. He must have had a sheet ber who from a condition of comfort have were thirteen who had reached far bestands beside Millersville as an educational season.

But what of Stroudsburg and vicinity? In answer need we do more than simply refer to the thousands who visit us each season in quest | poor sukey. of health and recreation, and then fall in love with our delightful scenery, our pure bracing do it often if you want things about the house mountain air, our excellent, invigorating water, to look well. and go home rebuilt both in mind and body resolved to make preparation to come again Leaving out Prof. Wickersham's source from name for croquet, and the Knight and here, may not much be calculated on safely manipulating the favorites. from this source also? Where the parents find health, would doubtless prove the spot to rates were to be had. This is certainly devoid not be put to a better use. of all speculative ifs and buts.

All the facts considered we conceive that, the only question incident to the matter is the question of desire. Do we want a Normal School in this vicinity? Do we desire to profit by its great profits and its still greater educational advantages? If yea, (and who can doubt it?) we have but to put our shoulders to the wheel to make the desire a certain, positive of Scranton, suspended work on Saturday profession. The labors of three months ago night, at all their puddling furnaces, rolling clearly demonstrate that this is not an unac- mills and mines, thereby throwing about complishable task by any means—that the diffi- 1,800 men out of work. The cause is the culties are not insurmountable. But \$60,000 are required to be raised here. Seventy odd thousand were subscribed in Strondsburg, East Stroudsburg and Water Gap three months ago in a very few days, and the county not pretended to be canvassed. What was secured then can readily be secured again, especially as the money is not to be sent away to be expended in a doubtful project, but to be expended right here at home, in securing, besides the \$35,000 donated by the State, a certain, regular source of income to our farmers, mechanics and trades was going on, Wild Bill and his confreres tional advantages to the youth and young folks away, and the men of law made a waterof both sexes of our own and the neighboring haul.

Are not these considerations sufficient to induce us to go to work with a determination to conquer success. Let it not be said of us that the plain path of duty so brilliantly set before us by Prof. Wickersham has been allowed to rankle with weeds because of our neglect to
