The present time weighs about ten tons, its maximum load is generally about eleven tons, while its average load is about eight tons, the paying weight being from forty four to fifty two per cent, of that the weight of a car constructed to run upon a smooth even track, without fall, should be so disproportioned to the load carried. There is here a chance for inventors to devise a light form of freight ear, strong enough to carry eleven tons.— Scientific American. A boy baby, born in Bedford a few days ago, weighed nineteen pounds. It is usual to call upon envious neighbors to "beat" such phenomena ; but it would be cruel in this case. One hundred and ten years ago there was not a single white man in what is new Kentucky. Ohio Indiana and Illinois; and that country was almost as little known as the heart of Africe.
