

## The Jeffersonian.

#### THURSDAY, APRIL 1, 1975.

We succeeded to admiration, last wit when occasion or necessity drove him to lion. the task. We knew all along that he had it in him, and have said so on more than one ocwonderful tickle.

together in the same boat-we helping him in the position he now fills so honorably and supervision. all, nearly all the times and only succeeding so well, and all want him to remain just in keeping him clear of snaggs, but never where he is -an object of pride for us all over Give him a call. making headway progressively-and always the possession in him of a model judge, a remaining in one spot-rowing round and rare good citizen, and, in every sense of the round and never getting ahead. We will word a perfect christian gentleman. Such a say nothing about the Chief Burgess-ship, man we want here, just where the suffrages which has always been a success, and has of the people placed him. But why talk about caused us on more than one occasion to regret it-such a man the Democracy do not want that with him at the forward oar all should for Governor and will not nominate him. be condemned to failure. Nor will we say anything about the time when, solitary and alone, without essaying to consult us, he attempted to push up stream as a herdsmanthat was his work-rough work it was too, as it laid him flat on his back, a food for laughter to the many who looked on and ennohes and mourned over it as in duty bound. But there was his effort to row up stream, as a legislator and then we helped him-helped him with all our might, -but the returning tide of public opinion was too many for our united efforts-even the street commissioner could not help him-the Bartonsville tanner being altogether too many for the Banjo snapper of Democracy, and Amandus and the Jeff, were both left on their backs, we got up, however, in time to show him while he yet lay upon his back-that with the rowers reversed it was just as easy to get up stream as it was to remain down, if only one rowed aright, for we had not the least trouble, with his powerful aid of course to step into the Chief Burgess-ship. And there was that other time, when his eyes sparkled over the prospect of a congressional career. We again jumped in the boat with him and attempted to stem the tide, but it was no use. J. B. put his nose in our way, and though we rowed, and pulled, and tugged and sputtered-he with us and we with him-all our efforts ended in a most magnificent swamp. Again, as there was nothing in hand for him we paddled to shore, and, with his assistance of course stepped into the honorable position of Chief Burgess, and, we have no doubt, that but for the fact there, was an inkling that he was by and had a hand in our efforts, 1 oth the commissioner and the water would have run, the other day, precisely as we wanted it to run. We have a new idea now in reference to our distinguished neighborlooking to his advancement both in dignity honor and stamps, and we mean to join him heart and hand in the gratification of a desire that lies very near his heart, and this time we mean to make a successful effort to making him our new Associate Judge. We feel that he would adorn the bench and that the bench would adorn and pay him, and hence we give notice, that from henceforth, until the day of election, our efforts are pledged for the advancement of the future Judge-Amandus Orevus Greenwald. We do this no stream a pull.

certainly was not much of a bite, and the fact in by our townsman Mr. Frank Hess. that we did not bid for it is certainly proof that we had no particular hankering after

god of Democracy Andrew Johnson hoisted share in serving the adjoining buildings.grain of truth necessary to give it point. We been the consequences of that fire. have thrice had the position offered us by a mower potent in the land, but bave always published from conviction of their justice, is valued at \$19.075,856.

Mr. Albright and Simon Cameron are both readers of the Jeff, and their names have Monday, resulted generally in favor of the never been omitted in the making up of our Republicans. mails. We were just in commendation of the good deeds of the powers that be, and we believe we were altogether as just in our condemnation of their bad deeds. The Jeff. is not the Democrat, that it must swallow every act of party, and either praise or sing township, this County, killed over 200 skunks dumb when every sense of right dictates during the past winter. He certainly has that it should condemn.

Our distinguished neighbors application of Æsop, in another article, is not by any week, in rousing our slumbering, timid, dis- means as appropriate or felicitious as it might tinguished neighbor from his lethergy, and to be, but for him it is good and we leave it as draw from his usually sluggish brain a very a sweet morsel to roll under his torque, respectable modicum of evidence of his abil- satisfied that his protruding ears will forever ity to square himself on paper and invent prevent him from being mistaken for the

Our neighbor, across the way, last casion-and that it needed only proper prod- week, presented the claims of Judge Dreher He has them marked way down to bottom sling to arouse the Lion in his lair, and to the consideration of the Democracy for to cause his thundering tones to reverberate Governor. That party has not a man in its through the air. Our receipe is most effect ranks, better qualified nor more deserving of tual indeed-we need but to take a pencil the position than is the Honorable Samuel and give him a punch beneath the ribs, and S. Dreher, but the fact is that he is too good such music as we bring from his Democratic a man for the party. They do not want den across the way is enough to make the such a man for the position-for honest, fearvery sirens weep with envy. And then, too, less, and true he would stand as an invulnerthe song as he sings about running up stream able bulwark against the inroads of the lead--just the very song among others to suit his ers on the Treasury. Nor is the Democrat, melifluous voice, and to tickle with a most serious in its advocacy of Mr. Dreher for the position. We have seen that kind of move And then too our distinguished neighbor before, and understand what it means as perknows all about rowing up stream-its trials feetly as does the party who dietated it. The and difficulties, and he knows that we know fact is no body here wants Judge Dreher to

HAVING occasion to visit up town, a few days since, we took a look around generally and, among other places, dropped in to see friend Kautz. As usual we found Valentine up to the very top of his head in businessfirst here, then there and then somewhere joyed the fun. We put on sack cloth and else-but all the time having a keen eye to everything that was going on-and making particular note that every man, in every particular branch of business, was going on preelsely as it ought to-each one selecting the best material and fashioning it in the best shape to meet the purpose for which it was intended. Watching our opportunity we finally succeeded in fastening on to Valentine, and then we took a look around to see what was to be seen. The visit was pleasant, and the view was most gratifying, as setting forth before us the fact that Monroe county folks have no heed to go abroad for anything, from a plain rivet to a horse well shed—from a wheel-barrow to the most stylish carriage that rolls over the road-and there were wagons for heavy work and wagons for light workand buggies for the wedding trip and buggies for pleasure-and carriages for the few and carryalls for the many, and lumber in abundance, of the best material and in the best condition of seasoning to make anything that may be called for-from a velocipede to a palace car-from a hand cart to a wagon that will carry a mountain load. And in all its departments the establishment is complete-having blacksmith shop, wheelwright shop, paint shop and trimming shop all under one roof, and each department complete in its appointments and filled with the best workmen to be procured. These facts, taken in connection with that other fact that Valentine keeps an unflinching watch over the whole should, we think, be sufficient to induce all to feel and to know that in his establishment we have just the place to go to, to make certain of getting just what we want in shape of an outfit, and the full work in that for which we pay our money. Reader drop in and see for yourself. Friend Kantz charges nothing for showing what is to be seen, even though in the same time, how many bushels can your curiosity includes Italian Bees and the he dig and pick up in a day? best hive extant; for he finds time, in connection with his extensive business for a pleasurable attention to these too.

for several days, last week, had a large force draw 2548 pounds. How many pounds can in view of the fact that Congressional honors of hands employed atting a channel through each horse draw, and how many pounds can have recognized woman's rights by emare so far in the future for Monroe county, the ice in the Water Gap. This we presume they all three draw? that both our distinguished neighbor and was to ease the way for the large gorge of ourself would tire ourselves to death ere we ice, nearly twenty miles in length-or from could accomplish half the distance of so long near Shawnee beyond Dingman's Ferry. This gorge has been a grand affair, and has in Massachusetts. Next our neighbor refers, in a witty strain been visited by thousands from many miles to his effort in securing the post office print away, but its grandeur was more than coming. We regret sincerely that he touched pensated by the great fear of consequences this point in the way he did. It was not at sure to flow from its sudden detachment from all necessary that he should thus publish to its confined position. The railroad comthe world the low price at which he held his pany's idea of the danger to everything in services in support of the incumbent, and its path was clearly set forth by the offer his silence in reference to the administration. made to the Portland bridge company, of Three dollars and fifty cents paid in full for \$10,000, if they would take their bridge out Loth-and yet we do not know that the pur- of the way before the ice started. Indeed chaser had much of a bargain after all .- everybody, all along the river has been living His silence, it is true, was secured; but then in trepidation for a month past over the poshis pen amounted to nothing dangerous, for sible direful consequences of a sudden break the time has not yet come in which he dared to up, and not without reason. One of the use it either for manly condemnation or open incidents attendant upon the visits to the unequivocal support of anything. The price gorge was an everwhelming sousing indulged
