The Next President-Gov. Hartranft

The politicians of both parties are looking around for a suitable candidate for the Presidency. This is right, and it is to be hoped that the conventions to meet this summer will strive to find the best man of each party for the suffrages of the people. On the Republican side that need not prove a labor of much magnitude, for among the many gentlemen named for the candidature we do not recall the name of a single one who would not fill the office with honor to himself. honor to the party, and advantage to the best interests of the country. But everybody alternate. does not, probably, think with us in this respect, and after all it may be necessary for the delegates at Cincinnati to look before jumping at conclusions, and pay some regard to availability as well as to capacity and integrity. A man may be ever so honest and proaching National Republican Convention, capable, and his principles may be ever so much in accord with the popular ideas as to the necessities of the times, but unless he Hartranft for the Presidency. personally fills the eye of the masses his nomination will avail only to render more cer- appoint a new county standing committee of tain and overwhelming our defeat. We are now, as we have always been, a firm believer in the doctrine that while every member of the par ty owes everything to principle, principle owes nothing to party members, and hence our Mortons, and Bristows, and Blaines, and the rest are worthy of no consideration, save as they may be made available to secure success at the polls, and certainly as to the applica tion of Republican principles in the administration of the Government. For ourself we have no doubt as to the availability of either of the gentlemen named, but it must be admitted that all do not share our confidence in this respect, and hence the necessity of canvassing still further.

But says one, if such men do not come up By order of the Committee, to the mark, where shall we look for a man who will. We answer right here in Pennsyl- A. And this second campaign of Governor HARTRANFT for the Gubernatoral chair; viewed in its every aspect, was it not the most remarkable contest ever witnessed? During its continuance hardly a breath was hurled against the Governor either personally or in his official capacity. His invaluable services, his square official conduct, his bowing neither to caste nor class were too patent to be overlooked, and the result was an attempt to defeat him, not on his own demerits nor on his own acts, but on the acts and demerits of others exhibited in matters over Stroudsburg died suddenly on Thursday which he had not a particle of control.
