

## The Jeffersonian.

THURSDAY, NOVEMBER 9, 1876.

AND who will get the post office now?  
Oh! Jerusalem?

The Portland Enterprise, a newsy and spicy weekly, T. J. Meads, editor, came out last week, in a new dress, which very much improves the paper.

"How do you like this for a rebel yell," exclaimed AMANDUS OREBUS yesterday morning. We like it first rate AMANDUS OREBUS, you know very well where the first rebel yell will find you, in Switzerland.

James B. Roney, Esq., of Philadelphia, delivered the concluding address on the Republican side of the Presidential question, last Friday evening, to one of the largest and most appreciative audiences that has been assembled in the Court House this year. Mr. Roney is one of the most interesting, eloquent, as well as dignified and high toned speakers it has been our privilege to listen to for a long time. He held the audience chain bound for near two hours and a half, and many expressed a desire to stay until midnight or even morning.

The ex-Honorable James M. Scovel, a consummate political bummer of Camden, N. J., wound up the political campaign in this county last Monday evening in the Court House, in one of the most unsober, undignified and untruthful, as well as the roughest, profane and obscene speeches we ever listened to from any man making any pretensions to respectability, but notwithstanding this the speech was ably seconded by ex-Honorable J. B. Storm, winked at by D. S. Lee, and delicately garnished over by Hon. Charlton Burnett. But such seems to be the character of Democracy this year.

**TERRIBLE ACCIDENTS.**—These we do not wish to read about, but everybody wants to read how to get a valuable present. It may be got for a club of three or even two subscribers to the *American Stock Journal*, which is perhaps, the cheapest farm periodical published. It is a thirty-two page monthly, devoted to stock and poultry breeding, dairying, wool growing, bee keeping and farming. A veterinary department treats diseases of stock free. In fact it contains a mine of valuable information, that the farmer and his family cannot afford to be without. All who subscribe now get the three last numbers of 1876 as a gift. Subscription only one dollar a year. Sample copy, premium list, and show bill free on application. Address Potts Brothers, Parkersburg, Chester county, Pa. We will send the *American Stock Journal* and the *JEFFERSONIAN* together one year for \$2.60.

While walking up town the other evening our attention was arrested by two persons standing and gazing into a window at eight beautiful young ladies singing and dancing. Our devil thought it would be much better for them to wait until this evening and attend the Beethoven Band's Sociables where they will have a good opportunity to trip the light fantastic toe to advantage.

A TEAM of horses belonging to Mr. David Nye, of Shawnee, this county, left standing in front of D. R. Brown's jewelry store, on Saturday last, became restless and made an effort to get loose and in the struggle broke the pole and a whistle-tree. A crowd standing on the pavement near by, rushed to the rescue and quieted the horses and prevented further damage.

**LEHIGH SUMMIT ACCIDENT.**—All the sufferers of the Lehigh Summit have recovered so as to be able to be removed to their homes except seven who are still at the Simons' House, Sand Cut. They are, Mrs. Brown, Mr. and Mrs. Duffy, Mrs. Abbot, Mr. Seymour, and Mr. and Mrs. Arnor.

**JOHN DONAHUE,** a "Molly Maguire," has been convicted at Mauch Chunk of a murder committed in 1871. He is the tenth member of the "Ancient Order of Hibernians" who has been convicted of murder in the first degree.

**MR. HENRY RANSBERRY,** of Stroud township, this county, slaughtered on Monday last, two March pigs, the weight of which is as follows: 260 and 230 pounds.

### Personal.

Mr. Mort Smith, of Washington, N. J., was here on Wednesday, visiting his brother James Smith. On Wednesday he played with the Beethoven Band when they were out serenading. Mort is leader of the Washington Band.

Mr. Wm. M. Rees, son of Esqr. Rees, of this place is spending a few days here among his many friends.

Mr. Chester Fulmer, son of Henry Fulmer, of Easton, is spending his leisure hours here among his many friends.

Milton Andre, son of Charles Andre, of this place, is here from Philadelphia on a short vacation.

Mr. Milton Beeber, Fort Wayne, Indiana, is here visiting his brother-in-law, A. O. Greenwald, and speaks very highly of Stroudsburg.

Miss Bella Plum, of Hawley, Pa., is visiting her many friends in this place.

Mr. Thomas C. Walton, returned home from Philadelphia on Saturday afternoon. Tom is attending a course of lectures at the University Medical College, at Philadelphia.

Mrs. M. E. Shay, left town on Monday, for Philadelphia, to view the Centennial.

Mrs. Greenwald, who fell down stairs and sprained her ankle some time ago, is improving as rapidly as possible.

More comforts—on the bed.

The markets are filled with game.

AND now the pop-corn appeareth.

WHAT's life to a young woman without Cardinal red ribbon.

A new chime of bells, costing \$3,500 has been placed in St. Mark's Church, Mauch Chunk.

CABBAGE was offered on the streets at Mauch Chunk, last week at \$5.50 per one hundred heads.

THE Governor has issued a proclamation appointing the 30th of November as a day of thanksgiving.

THE *Seranton Republican* says: A little son of Henry Gangewer at the Delaware Water Gap, had a foot cut off by a coal train on Monday last.

JAMES T. CARMER has removed his meat market from Fable's building to Hollinshead's building, adjoining Hess Bro's tobacco store, on Main street.

**SUDDEN DEATH.**—Samuel Pypher of Middle Smithfield, this county, suddenly fell dead from his chair last Sunday evening. We learn he had been very well to all appearance up to the moment of his death.

A few days ago our town and county were billed by parties from Bath, Northampton county, Pa., for a two days horse race or fair as it was politely called to come off on the Fair Grounds, and by last Wednesday, horses, black-legs of a variety of grades, and rogues of the meanest character were on hand to play their respective parts. The racing was rather better than anything we have had on the course. The time made was 2.32.

The following is the entries:

|                                  |         |
|----------------------------------|---------|
| Trotting—1st Day, 2:45 Class.    |         |

Even the priests in Sicily carry concealed weapons.

The farms of Berks county are running full of turkeys.

White fish from Lake Erie are next to shad in quality.

Lancaster county farms bring from \$130 to \$250 per acre.

The petroleum business was developed seventeen years ago.

Texas sheep men are now clipping the second crop of wool.

There are about 2,000 men out of employment in Harrisburg.

Tioga county has a lady County Superintendent of common schools.

Lebanon is sending tramps and vagrants to jail for thirty and sixty days.

There is an old man in North Carolina who plows with his wife for a horse.

The yield of corn in Georgia is 34 per cent. more than was made last year.

The Pottstown Iron Company have forty-four nail machines now in operation.

Germany will order 90,000 American revolvers for its cavalry and artillery.

Thomas Cook, of Chambersburg, recently slaughtered a Centennial steer weighing 3,000 pounds.

There is a heavily increased demand for American leather for shipment to England and the Continent.

A farmer in Calloun county, Iowa, has this year raised and marketed over \$10,000 worth of grapes.

The sum of \$830,000 in specie has been withdrawn from the Bank of England for shipment to New York.

A Pennsylvania woman says she can walk twenty miles a day in men's clothes and only twelve in female apparel.

Mrs. Partington wishes to appeal to all churches to establish a fund for superannuated and indigent clergymen.

Baltimore, with a population of 300,000, has 2,000 drinking saloons, or a drinking place for every 150 of its inhabitants.

A dividend of fifteen per cent. has been declared by the receiver of the defunct Vango National Bank, Franklin county.

A large New England establishment has just received a contract for the manufacture of 600,000 shoes for the Russian army.

It is said that there are 50,000 Hebrews in New York, and that of the number one hundred have estates valued at \$1,000,000 or upward.

A California horseman recently accomplished the feat, at Los Angeles, of riding one hundred miles in four hours and forty-five minutes.

A new bank has been started at Clarion, called the "Clarion County Bank," of which Hon. J. M. Dickey is President. The capital is \$100,000.

John A. Lohr, of York county, raised a pumpkin this week which pulled down the beam at seventy-six pounds. This was a centennial pumpkin.

The grain imports into Great Britain for the year ending August 31, 1876, were 118,704,118 cwt, an increase of nearly 23,000,000 cwt. over the preceding year.

"Did she not return your love?" inquired a sympathizing friend of a young man who intimated that he had some difficulty with his sweetheart. "Yes," she returned it, and that is just what the trouble is. She said she didn't want it."

## Presidential Election.

### Results Still Uncertain.

At the hour of going to press yesterday, the result of the Presidential election, held on Tuesday, is still in doubt. Conceding to the Democrats: New-York, New-Jersey, Connecticut, Indiana, Florida, and all the Southern States except Louisiana and South Carolina, Tilden will have 184 electoral votes. Necessary to elect, 185.

The Republicans have carried the following States: Colorado, Maine, Massachusetts, Michigan, Minnesota, Nevada, Nebraska, New-Hampshire, Oregon, Ohio, Pennsylvania, Rhode Island, Vermont, Wisconsin, Louisiana, South Carolina, California, Illinois, Iowa and Kansas.

These States will give Hayes 181 electoral votes.

### MONROE COUNTY.

Tilden's majority, in this county, is estimated at 2,500.

A. J. Shoemaker, independent candidate for Representative elected by a small majority.

The Tanite Co., of Stroudsburg, Pa., to whose efforts the rapid adoption of Solid Emery Wheels, all over the world, is mainly due, are just opening a direct branch of their establishment in Europe. Their sole European Offices and Warehouses will be at No. 42, "The Temple," Liverpool. The specialty they represent is even yet in its infancy with us, but it has made great progress in the last few years. The Tanite Co., were the first to introduce goods of this class in the Navy, Ordnance and Treasury Departments of our Government, and in several of the Mints and Arsenals. In Europe most of the Government works have introduced Tanite goods.

Mr. Parei, the President of the Company, is now in Europe for a prolonged sojourn, and we have no doubt that under his management this branch of American Labor-Saving Machinery will have as great a success as has been accorded to American Sewing, Mowing and other Machines. From a selfish point of view we ought not to wish this success. We are now boasting that American products of many kinds are better and cheaper than foreign ones of the same class. We naturally want to keep the lead we have got, and don't want the foreigners to catch up to us. Let us remember, then, that both the cheapness and perfection of American Stoves, Plows, Locks, Cutlery, Hardware, Agricultural Implements, Saws, Sewing Machines, &c., &c., is largely due to the increased use of Tanite Emery Wheels. However, all labor-saving inventions tend to the universal good, and we trust the Europeans will appreciate this, as they have other American inventions.

It is something interesting and profitable to notice the statistics of the Bank of England. At the recent semi-annual meeting of the corporation, it was stated that the net profits of the bank during the last half year had been, in round numbers, three and a quarter millions of dollars, or at the rate of six and one-half millions a year. After declaring a dividend at the rate of nine per cent. per annum, the amount remaining in hand to go on with was upwards of fifteen millions of dollars.

A dotting mother of a waggish boy having bottled a lot of nice preserves labeled them, "Put up by Mrs. Doe." Johnny having discovered the goods, soon ate the contents of one bottle, and wrote on the bottom of the label, "Put down by Johnny Doe."

Dr. Janseen, a European scientist, is devising an automatic photographic revolver which will take a photograph every hour from sunrise to sunset all the year round. It is to be used for taking sun-spots in clear weather and for meteorological purposes at other times.

The following is the coinage executed by the United States during the month of October, 1876; Double eagles, \$4,271,760; trade dollars, \$465,000; half dollars, \$1,040,000; quarter dollars, \$765,000; dimes, \$279,000; one cent bronze, \$4,440. Total coinage, \$6,825,200.

The official Republican majority on State Senators in Colorado is 1833, and on members of the House 2204. Every Republican candidate for State offices is elected, and the Legislature is Republican by more than two to one. And yet the Democrats are still claiming a victory!

There was not a honey bee in California previous to the discovery of the gold mines, and now there is not a locality suitable to the industry where it is not to some extent prosecuted. Two hundred thousand pounds of honey were shipped from that State to New York in one consignment, recently.

This reports of the receiver of the Erie railway for the month of August, filed Saturday, shows the receipts to have been \$2,199,615 94; disbursements, \$1,636,472.22; balance at end of month, \$563,143.22; certificates of indebtedness issued, \$3,441,509.40; paid \$2,261,539.40; outstanding, \$1,180,000.

An old farmer says of his boys: "From sixteen to twenty they knew more than I did; at twenty-five they knew as much; at thirty they were willing to hear what I had to say; at thirty-five they asked my advice, and I think when they get to be forty they will acknowledge that the old man does know something."

A canary belonging to a New York gentleman died recently at the ripe old age of twenty-four years and nine months. There is no record of any canary attaining this remarkable age before.

The tonnage of all the railroads in the United States the past year was 200,000,000 tons, having increased forty fold in the past twenty-five years. At \$50 per ton the value would be \$10,000,000,000. The canals of the country transported not less than 10,000,000 tons, worth \$500,000,000, of which the Erie took one-half. The tonnage of vessels employed in the domestic trade of the United States is 4,000,000 tons. Estimating four voyages a year and allowing for light freights, the tonnage moved in this way may be placed at 15,000,000 tons per annum, worth \$750,000,000. This gives a grand total of \$11,250,000,000 per annum as the volume of the internal commerce of the United States. This is ten times as great as our imports and exports combined.

### Watches Taxable After All.

Attorney General Lear denies that he decided that watches are wearing apparel and that the question ever came before him for adjudication. How the report originated has not been discovered. In answer to a letter on the subject from the Lancaster county commissioners the Attorney General says: If they (the watches) are wearing apparel it does not follow that they are not taxable. Whatever the Constitution does not forbid, the Legislature may do, and a man's clothes may be taxed as well as his horse, his carriage, or his cow. That his watch is a proper subject of taxation I have no doubt. I have never heard it questioned, and have never given an opinion on the subject. I have heard of such an opinion in the newspapers, but have not seen anything of the kind, and so far as I have anything to do with it, there is not the slightest foundation. It is the result of some one's imagination. No such question has been asked, and if it had, no such answer would have been given.

### Surrender of Indians.

ST. PAUL, Nov. 4.—The *Pioneer Express* special, dated Camp-in-the-Field, on Yellowstone, Oct. 27, via Bismark, D. T., Nov. 4, says: "General Miles, commanding the troops on the Yellowstone, after defeating and pursuing Sitting Bull and the confederated tribes under him, to day accepted the surrender of four hundred lodges of Indians belonging to Cheyenne agency, three tribes surrendering five of their principle chiefs as hostages as a guarantee of their faithful compliance with the terms of the surrender. These bands are to go at once to the agency, where, upon their arrival, they will submit to the requirements of the government. The Indians held as hostages left this evening for St. Paul, under charge of strong guards."

### THE FRUITS OF THE EARTH.

#### A Review of this Year's Crop.

WASHINGTON, Nov. 3.—The digest of crop returns for October, as prepared at the Department of Agriculture, indicates a reduction in the yield of the wheat crop of nearly one-sixth, while the quality is somewhat superior. Every section of the Union indicates a reduced product except the Middle States, which increased about two per cent. The total yield is estimated at about 245,000,000 bushels.

The rye crop of 1866 is reported four per cent. less than that of 1875, but in quality it averages somewhat above its predecessor. The barley crop of the country yields about six per cent. less than last year. A great falling off is reported in the Middle States, in the States north of the Ohio river, in the States between the Mississippi and Missouri rivers, and in Oregon, but Kansas, Nebraska, and especially California, the largest barley raising States in the Union, have realized a large increase of yield.

The buckwheat crop is reported as full average or above in Rhode Island, Virginia, Arkansas, Kentucky, Ohio, Wisconsin and California; in the other States it is below the average; minimum, 50, being in Delaware. The oat crop of 1876 shows a falling off of 23 per cent. Every section of the Union is deficient. The States reporting a yield equal to that of last year—Pennsylvania, 102; Delaware, 109; South Carolina, 126; Georgia, 115; Florida, 107; Alabama, 100; Louisiana, 104; West Virginia, 113; Kentucky, 103; Ohio, 102; California, 100.

The condition of the corn in the New England States is a little above the average. The Middle States, except Delaware, report a depressed condition from drought in the growing season and from heavy rains in the harvest. When the crop was not well ripened in New Jersey and Eastern Pennsylvania heavy storms prevailing about the middle of September prostrated many fields.

Maryland and South Carolina are full average and Georgia largely above, but the deficiencies of Virginia and North Carolina cut down the general condition of this section to two per cent. below average. The crop in the Gulf States, on the whole, is about average, Texas reporting an especially fine condition.

The published report is summing up the data upon cotton says that the general harvest is more advanced than usual. The season is generally favorable for picking; the later picking will be comparatively light.

The future of the present season cannot make the crop a deficient one, but will determine how near to the large one of 1875 the result shall come. Sweet potato returns give promise of a full average crop of good quality. Nearly all the States which grow sorghum to any considerable extent report a condition average above 100. All the principal tobacco counties return each condition of 100.

In Pennsylvania, Lancaster reports that a larger crop than ever before has all been housed in good condition.

The only States in which the condition of the bean crop does not fall below 100, are New Jersey, Delaware and Oregon, 100; California, 103; Vermont, 104, and South Carolina, 107. The numbers of fattening cattle are apparently somewhat less than last year, though the difference is small.
