PRESIDENTIAL.

the colored voters were terrorized from voting. ordered the canvassing State Board to count from the character of the Legislature. all the votes cast whether they were legal or not. But when the count was completed sent the Board to jail. The federal Court Presidential electors when interfered with by pected. the State Court.

The State Canvassing Board of Florida has at last got to work. It commenced last Tuesday morning at 10 o'clock. The work will now be pushed on rapidly so as to have the work completed in time for the electors to vote at the required time for President, which will be the first Wednesday in December, which will be next Wednesday.

In Louisana the State Canvassing Board is progressing in its work as fast as possible under the complicated circumstances surrounding it. The Board has already counted nearly all the parishes or counties in which the election is admitted to have been conducted fairly and legally. They will next take up the counties in which frauds and outlandish terrorism were resorted to to nullify the colored vote or prevent the colored men from voting at all.

Terrorism was the principal source of power relied upon by the Southern reform Democracy to carry the three Southern Republican States-South Carolina, Florida, and Louisiana. But we trust that they will find they have overdone the matter. The terrorism made use of has been of the foulest character, ranging all the way from a threat to discharge from work, to the worst of murders. Thus they in many districts and counties have almost entirely prevented the negro from voting or compelled him to vote for the democratic ticket. In any district or county in which this terrorism can be proved to have been practiced, the vote of the same will be pullified.

We hope to be able to announce in our next issue as to whether Hayes or Tilden has received the majority of the electoral votes. In mean time we feel morally sure that Gov. Hayes will be the luckey man.

Minority Presidents.

We have heard a great deal about minority presidents of late from the reform Demo cracy. They have blatantly declared that Tilden ought to be president because he re ceived more votes than Hayes. But what are the facts with regard to previous presidential elections?

In 1824 John Q. Adams was elected with a popular majority against him of 141,430. In 1844 James K. Polk was elected with popular majority against him of 24,119. In 1848 Zackary Taylor was elected with a popular majority against him of 151,708 In 1856 James Buchanan was elected with popular majority against him of 377,629. In 1860 Abraham Lincoln was elected with poupular majority against him of 944,149. And now in 1876. Rutherford B. Hayes is elected with a popular majority against him of about 57,000. In the loyal states which assist the South.

Besides this, in the North all persons with out fear or favor voted as they wished, while at the South probably over 250,000 Republican voters were by the basest intimidation or Supreme Court to-day. In the case of the fear prevented from voting for Haves.
