

**A Warrior Squelched.**

A Tilden man on a street corner down town, yesterday afternoon, was excitedly explaining to a crowd of his own political faith how there would be rivers of blood spilled if Tilden was not next President. "Let the dare-devils beware!" he said. "The most dangerous uncaged lion that any man or set of men can meet anywhere on God's footstool is an outraged thoroughly-indignant and madly-uprisen people, and I, for one, am ready to wade in blood to obtain our rights and rescue—"

His sanguinary remarks were here interrupted by the sudden appearance of a red-headed, madly-uprisen female, with anger in her eye and a stove-plate lifter in her hand, who, pushing into the crowd, shook the weapon in the speaker's face, and exclaimed in two-line pica-caps: "See here, John Ferguson! I sent you down to the grocery for a mackerel nearly an hour ago, and if you don't have that fish home in five minutes you'll get more than you know what to do with afore you're a day older!"

The statistics of 1876 of the Methodist Episcopal Church have been published. From these it appears that the number of itinerant preachers is 11,361, an increase of 438 as compared with the previous year. The number of members is 16,613,550, an increase of 33,001. There has been a decrease of 2037 in the number of children baptized, and an increase of 12,414 in the number of adults. There has been an increase of but one in the number of church edifices, and a decrease of \$2,447,847 in the value of churches. The most unexpected decrease is in the Sabbath school work, where there is reported to be a falling off of 12,123 teachers and 91,816 pupils.

The three Younger brothers, indicted for the Northfield Bank robbery and murder, were brought before the District Court at Fairbault, Mo., at 10 o'clock on the morning of the 20th ult., and all plead guilty to the indictment for murder in the first degree. The other indictments, for obvious reasons, were not pressed. Immediately after the plea of guilty the State's attorney moved to impel a jury to determine whether the punishment should be death or imprisonment for life. The motion was denied, and in the afternoon the prisoners were sentenced to imprisonment in the State prison, at hard labor, for the remainder of their natural lives. The prisoners listened to their terrible fate with stolid indifference.

In a thriving town of Michigan, a year or two ago, when the country was full of agents, and almost everybody was agent for something or other, a certain infant of that town, being blessed by the advent of a baby brother, was very inquisitive as to where the little stranger came from. Being informed that Dr. S— had brought it, he stood in a brown study for a moment, when, with the intelligent look of one who has solved a difficult matter, he asked: "Say, pa, is he the agent for them?"

Owing to the continued hard times the building associations of Phoenixville find it necessary to seek relief in some way for their members. All of them have been casting about for the remedy. The Phoenix has hit upon a plan that is thought, and, no doubt, will solve this knotty question. The directors have prepared a paper which if signed by every member, the Phoenix will cease to exist as a working organization.

Many little school-boys use their mouths for pen-wipers. A little boy in France did it and he nearly died because there was salts of copper in the ink, which poisoned him. Indeed his life was only saved by the speedy appearance of the doctor, who suspected what was wrong and applied the antidote. Little boys should take warning from this, and use their coat sleeves or coat tails, when their coats have tails, to wipe their pens.

A FEW days since a young man was run over by a freight train near Carroll, Iowa, and one leg was severed. He was not seen by any of the train men. He rolled himself to a stump, where he tore up his vest and bandaged his leg so as to stop the flow of blood, and hobbled back to the track, where, with the severed part of the leg he flagged and stopped a passenger train, on which he was taken where he could get surgical aid.

In Southern Utah, from a silver mine of considerable depth, petrified wood is taken, in which there is chloride of silver worth nearly \$1,000 a ton. The formation is sandstone, out of which horn-silver is taken. This shows that the deposit of silver was made subsequent to the surrounding of the wood by the sand that afterwards became the sandstone.

A COLORED child was recently born in Bayside, Talbot county, Md., of the tiniest proportions ever known. At birth it was about 12 inches long and weighed one pound. The only imperfection about it is a total absence of thumbs, not having even a place where thumbs ought to be. It has long hair, coming down over the shoulders. It is a female child.

PETROLEUM has been discovered in the neighborhood of Paramid Lake, in Nevada. Two springs are said to have been found from which flow about eighty or ninety gallons of crude petroleum a day. The oil is almost colorless, while the petroleum of Pennsylvania is very dark.

It costs the taxpayers of Mifflin county \$106 to pay a physician's bill of \$17.25. He attended a pauper and the county resisted payment because he was not the official dispenser of senna. Hence, law—fees—big bill.

The slate quarrying business continues brisk in the vicinity of Steinsville, on the Berke and Lehigh railroad.

**Progress of Odd Fellowship.**

The semi-annual session of the Grand Lodge of the Independent Order of Odd Fellows of Pennsylvania was commenced the 28th ult. in Philadelphia. Grand Master, George F. Borie, presided, with the remaining officers in their several respective positions. The reports of the grand officers were read showing that the work done by the order in the United States, from 1830 to December 31, 1875, was as follows: Initiations, 980,780; members relieved, 729,189; widowed families relieved, 97,077; members deceased, 65,481; total relief, \$22,273,386.63; total receipts, \$60,085,926.52; present membership, 460,414. Complete returns are not to be had, and the above amounts are smaller than they should be. The reports were referred to a committee.

The nominations for officers to be elected in the Spring of next year were made as follows: For the position of Grand Master, S. B. Boyer, of Sunbury; Deputy Grand Master, Samuel Haworth, of Philadelphia; Grand Warden, John A. Myler, of Allegheny; Theodore Cornman, of Carlisle; A. R. Potter, of Philadelphia; R. E. Wright, of Allentown; J. P. S. Gobin, of Lebanon; John H. Uhl, of Somerset; Charles N. Hickok, of Bedford; Charles Rube, of Pittsburg; Samuel Greenwood, of Coatesville; J. J. Clyde, of Harrisburg; Henry Maclay, of Uniontown; Charles L. Eberle, of Germantown; Grand Secretary, James B. Nicholson, of Philadelphia; Grand Treasurer, M. Richards Muckle, of Philadelphia; Grand Representative to the G. L. of U. S., Isaac A. Sheppard, William Stedman and J. B. Springer.

**Wedding Anniversaries.** Fashion has established the custom, of late years, of celebrating certain anniversaries of the marriages, these being named as follows: The celebration at the expiration of the first year is called the cotton wedding; at two years comes the paper; at three, the leather; at the close of five years comes the wooden; at the seventh anniversary the friends assemble at the woolen, and at ten comes the tin. At twelve years the silk and fine linen; at fifteen the crystal wedding. At twenty, the friends gather with their china, and at twenty-five the married couple that have been true to their vows for a quarter of a century are rewarded with silver gifts. From this time forward the tokens of esteem become rapidly more valuable. When the thirtieth anniversary is reached they are presented with pearls; at the fortieth, comes the rubies; and at the fiftieth occurs the glorious golden wedding. Beyond that time the aged couple are allowed to enjoy their many gifts in peace. If, however, by any possibility they reach the seventy-fifth anniversary, they are presented with the rarest gifts to be obtained, at the celebration of their diamond wedding.

In issuing the invitations for celebrating these anniversaries, it is customary to print them on a material emblematic of the occasion. Thus, thin wood, leather, cloth, tin, silk, and gold paper, and other materials are brought into use. Of course, those who accept such invitations, and partake of the hospitality of the host and hostess, are expected to contribute to the collection of gifts that will grace the occasion.—Hill's Manual.

**The Hunter's Paradise.** From the Harrisburg Patriot. A former Dauphin county writing from Stockton, Muskatine county, Iowa, under date of Nov. 10, to a sportsman in this city, says: You can shoot half a dozen or from ten to twelve mallards any evening just before sundown in as many minutes. The finest varieties of ducks are sold in the Davenport markets at two dollars per dozen. I killed fifteen prairie hens one afternoon, and finished my afternoon's work on the river, at sundown, by bagging eighteen wild ducks. Any practical sportsman can kill as many as he needs during the sporting season in the spring and fall months, and nobody cares to destroy what he can not use.

Right here at Stockton (Fulton Station, the second station from Davenport on the Chicago, Rock Island and Pacific Railroad) you can shoot all the prairie chickens, ducks, brant, wild geese, snipe, rabbits, and smaller game you need any day during the shooting season. As for fish, why, sir, you can buy the best varieties at five cents per pound, or catch them by the barrow load with hook and line, &c. We have sturgeon, buffalo, pickerel, salmon, cat and other fish, some species weighing from five to fifty pounds each. This is no exaggeration. Refer to any responsible party in Davenport, Muscatine, or elsewhere in the State for the truthfulness of my assertion. This is, truly, the hunter's paradise.

**WHAT IS A CAR LOAD?** Nominally a car load is twenty thousand pounds. It is also seventy barrels of salt, seventy of lime, ninety of flour, sixty of whiskey, two hundred sacks of flour, six cords of soft wood, eighteen or twenty head of cattle, fifty or sixty head of hogs, eighty to one hundred head of sheep nine thousand feet of solid boards, seventeen thousand feet of siding, thirteen, thousand feet of flooring, forty thousand shingles, one-half less hard lumber, one fourth less of green lumber, one-tenth of joists, scantling and other large timbers, three hundred and forty bushels of wheat, four hundred of corn, six hundred and eighty of oats, three hundred and sixty of apples and four hundred and thirty of Irish potatoes, three hundred and sixty of sweet potatoes, one thousand bushels of bran.

Elk is the leather county of the State. Three of its extensive tanneries consume in the aggregate 40,000 cords of bark per annum and turn out 360,000 sides of sole leather. The tannery of Messrs. Schultz & Wilcox, one of the largest in the United States gives employment to 200 men. They have 595 double tan vats, 6 bark mills, 70 dwelling houses for their employees. The tannery itself cost \$2,000,000 and the buildings cost twenty acres of ground.

RED is fashionable this winter. Red-headed girls, now's your chance.

**NORTHERN PACIFIC RAILROAD.**

As there is considerable stock of the Northern Pacific Railroad held in this county, the following in relation to the prospects of the road will be of interest. The Railroad has now built 555 miles of the proposed 2000 miles. Under the Government grant the period for completing the road expires in about two years, but an effort is to be made at the approaching session of Congress to have the time extended eight years. The Vice President of the company, who has just returned from an extended visit to the region traversed by the road, says while the Minnesota Division, 250 miles, from Duluth to Fargo, has been operated both winter and summer, the Dakota Division, 200 miles from Fargo, on the Red River, to Bismarck, on the Missouri, has never been operated in the winter. The traffic did not justify it, and the snow was a serious obstacle to overcome. During the past summer the revenue from the Dakota division of the road has been an average of about \$12,000 per month. The increased business and the desire of the War Department that the road be kept open have led the company to build between forty and fifty miles of snow fence in Dakota, and to arrange a winter time table between Fargo and Bismarck which will give tri-weekly trips, a train going one way each week day. The principal points west of Fargo are Mapleton and Casselton, the center of extensive Dakota farming operations, and Jamestown, a government post, half way to Bismarck. There are four other points which have been named and ten sidings which are not at present the sites of human habitations. The Pacific sections, already completed from Tacoma, on Puget's Sound, is being extended thirty miles to establish a stage line and teams to run between Bismarck and Deadwood City, in the Black Hills. The road may yet have a future.

**MARRIED.**

In St. John's Lutheran Church, Stroudsburg, November 30, 1876, by Rev. J. Kohler, Mr. Samuel F. Carter, of Moorstown, N. J., to Miss Helen E. Herzog, of East Stroudsburg, Pa. November 28, 1876, by Jacob Learn, Esq., Mr. Lawrence Muffley, of Jackson, to Miss Mary Jane Hoffman, of Tannersville.

**Special Notice.**

WANAMAKER & BROWN, of Philadelphia, may well challenge all comers upon, at least, two points on which they congratulate themselves—namely, the excellence of quality of the material, and splendid serviceableness of the manufacture in all their garments. An artist on canvas can scarcely put the touches of his brush with more delicate and discriminating care upon a pet picture than the makers of Oak Hall clothing bestow upon every part and department of their work. Such scrupulous care is bound to tell. The public will certainly find it out more and more.

**NOTICE.**

The annual election of Directors for the Monroe County Co-operative Life Insurance Company, will take place at the Commissioner's Office, in Stroudsburg, on Monday, January 1, 1877, at 2 o'clock P. M. M. A. DE L. VAN HORN, Sec'y.

**STROUDSBURG WATER COMPANY. TARIFF OF RATES.**

Payable Quarterly in Advance. At a meeting of the Board of Directors, the following rates were adopted: For one Hydrant in house or yard, \$2.00; For each additional Cock, 2.00; For one Bath Tub for hot and cold water, 3.00; For each additional Bath Tub, 2.00; For one Water Closet with pan lever attachment, 3.00; For each additional Water Closet with pan lever attachment, 2.00; (All other Water Closet Attachments subject to special rates.) For each Stationary Basin, 2.50; For one Wash Pave (if on corner \$2 additional), 4.00; For each Stationary Wash Tub, 2.00; For Restaurants, exclusive of dwellings, \$8 to \$15; For every Stable per stall, 2.00; For Bakeries and Confectioneries, 8.00; For Building purposes, one draw, five cents per 1000 Brick and sets, per perch of stone. Special arrangements for Stores, Offices, Shops, Hotels, Boarding Houses, Street Sprinklers, Fountains, Garden Hydrants and all uses not already specified. The Company urges upon the community the economy and desirability of using the extra heavy pipe through their houses. The pressure during a fire will probably be so great as to strain severely all pipes below the highest standard and in the hot water service the failure will be proved in a short time. By order of the Board of Directors, FUEL FABLE, Superintendent. Stroudsburg, Pa., December 7, 1876.

**Sheriff's Sale.**

By virtue of a writ of ven. ex. de terris to me directed, issued out of the Court of Common Pleas of Monroe County, I will expose to sale at Public Vendue, on
