FOR THE AMERICAN PAMILY TIES .- EDUCATION. -"But oh if those who cluster round The altar and the hearth. Have gentle words and loving smiles,

beautiful is earth: A few evenings ago we called at the resi-dence of a friend who has for some years been enjoying the pleasures of married life. He and the partner of his joys and sorrows, were sitting beneath the trees that shade his dwelling, surrounded by their little troupe of children. The setting sun casting his fading rays upon the group, brightened up. The happiest picture it has ever been our fortune to look upon. Two little boys were rolling over and over in one an others arms, tearing up the grass and crushing the violets in their course. A brother and sister somewhat older, leaned on each others shoulders trying to count the tiny waves that danced in the departing light. The father bent over the mother's shoulder, caressing an infant that sat, laughing and er, caressing an infant that sat, laughing and clapping its little hands, in her lap, and ever and of the Spine, there is no medicine now known and anon gazing on the other children with fond delight. They all seemed the very incarnation of happiness. In a short time the sun set, the damp chill air of evening shed its dews on the grass, the bright eyes of the little babe were closed in sleep, and noisy children and happy parents left the open air for the parlor. The picture vanished from the eye but its impress was still vivid on our heart. But the brightest sunshine casts the deepest shadow. And though THE FACE, are cured by this Ointment with like awhile the recollection of the happy family filled the bosom with joy, it lapsed into gloom where we thought that in a few years, one after another, its members would depart from the paternal roof, and contact with the rough world would weaken and wear away the golden chains of affection that now so closely bound them. For this is too much the way of the world. How often are family ties broken and the members once linked in the bonds of love scattered abroad on the earth, the one scarce knowing the residence of the other! perhaps not aware of his existence. Other associations are formed, new friendships spring up, and other objects of love present themselves. Selfishness, that bane of society, and its parent ambition create and perpetually widen the breach between brothers. Envy too, soon follows in their train and unnatural hatred seperates those whom natural affection should bind together. Look out upon the world and observe how many fathers and sons are at enmity; how many sons, and daughters too, permit their aged parents whose fostering care watched over parents whose fostering care watched over sipelas in my face which became very painful, and their helpless infancy, to drag out their executed into one of my eyes, being attended with York Bank\* istence in want and wretchedness, while a comfortable roof shelter them and plenty sits smiling on their hearthstone. How many brothers live in secret strife or open war. Would you know the cause of such estrangement? It is the fault of education. The culture of the heart has been neglected. The generous affections, so natural in the human bosom, have not been fostered I have used it, I have found a decided benefit. and cherished. The germs of good in the At one time, on going to had at night, my threat heart, which by proper nurture would have was so sore that I swallowed with difficulty, but Alleghany Bank of Pa. borne good fruit, have been suffered to decay and perish. Perhaps that mutual trust and confidence between parent and child, and firsh cuts, all with the happiest effects, and so necessary to the proper education of one case of poisoning by a wild vine in the woods, children, has been absent. In most cases his been dried up and cured by a few applications. the characters of children are round.

I have become so partial to it, that I expect to it me family. the characters of children are formed at ple of love and kindness is not before them, they can not be expected to exhibit those traits when they grow older. The charity traits when they grow older. The charity of the world is very small. Too much is society wrapped up in selfishment. If a person goes forth from the paternal roof, without the proper cultivation of the heart, he can never improve by contact with the world. Home is the only school of the affections. Point to a man eminent for virtue and piety and you may with confidence say he has had a pious mother. The state of society depends on the strength of social ties. Kindness sympathy, charity and benevolence, are habits, cultivated and cherished in childhood, and when deeply rooted by early education are carried with the happy possessor through life, shedding their light and joy on the world. Sadly is society deficient in these virtues. The charity of thought which attributes to every action the best motives, and charity in word that speaks no evil, are wofully wanting. Calumny and detraction are ever ripe among its incumbers. And it is not surprising that this is the case when so many fam- ing o ilies discuss a dish of slander with their tea, and children imbibe scandal almost with their mother's milk. When the early improvement of the heart is neglected, parents can not expect children to be affectionate to them or kind to each other. And when years have gone by they will see the fruits of neglect—the rupture of those ties has used the above medicine in his practice for 8 which should have bound them in love .- years with the most attenishing effect, having tes-The half of the evil in the world results ted its qualities in above

SIX YEARS AGO

THE children began to cry for Sherman's La-I zenges. The noise was not no loud at that e, but it has kept increasing ever slace, and now has become so great that the mouths of the little mes can scorce be stopped. Dr. Sherman sympathises with the little suff-rers, and very much re-eres that any of them should be disappointed. Knowing the vast benefit which has been conferred upon the community by the introduction of his infallible WORM LOZENGES,

he has entered into arrangements for enlarging his Manufactory, by means of which he thinks he will be able to supply the demand. And the same pains the proprietor hinds himself to return the money the able to supply the demand. And the same pains the proprietor binds himself to return the money and care will be taken, that these probabilities poid for them in all cases where they do not give and care will be taken, that these presented hos-zenges be made as they have always been, in or-der that those who depend upon them, may not be disappointed in their topes. He knew when he commenced the manufacture of the Worm Lozen-ges, that they would supersede the use of every ther vermifuge, as the Lozenge is very pleasant o the taste, speedy in its effects, as well as certain, and the quantity required to effect a perfect cure, is very small. These properties in connexion with the f ct that they are sold for 25 cents per box, thus placing them in the reach of the poorest man in the land, has not only caused them to take the place of every other vermifuge ever offered, but at a fraud. Sept. 18th, 1847.—1v cow remered them popular to the community.

COUGH LOZENGES continue to cure Coughs, G.Als, Gonsumption, Asthma, shortness and difficulty of Breathing, and other discuses of the Lungs, with the same facility they did on their first introduction, and the propi-have now become persuaded by actual experience, that on the accession of a light cold, they have only to step to either the Dr's, office, or one of the Agents, and obtain a box of his Cough L zenges. which are very convenient to carry in the pocket and to take a few through the day. By pursuing this course a cure is often effected in 24 hours, and he patient about his busin ss. So great is the celebrity of the Lozenges, that thousands of persons

who have used them, and become acquainted with their effects, will never be without them.

PUMPS! PUMPS!! Improved Hydraulic Pumps, For Wells, Rolling Mills, Furnaces, or other

Purposes.

THE subscriber respectfully announces to the public that he is now prepared to supply orders to any extent for his Patent Double action Suction and Force Pumps, These pumps are made of ca-t iron, and the water is sucked or for-ced through lead pipe. For simplicity of construction and durability of action, they are varily supe-rior to any now in use. They have many advan-tages over the common pump, among which are the following:

They are as constructed that mischievous persons cannot spoil their action by introducing nails or spikes or any other substances among the valves. as is often done with other pumps, thereby render-ing them uscless till overhauled. They see warcanted to be perfectly secure from frost. They are so arranged as to afford ample protection against Fire about the premises on which they are erected, by simply attaching a piece of hose, thro' which they will force water to any part of, or over, a three story house. They are particularly adapted for very deep wells, as the leverage can be so regulated that a child of six years old cun with the greatest case draw water with them from the deepest wells. The objection so justly urged by many, that water is spoiled by standing in pump logs, is entirely obviated in this pump, and fresh water can always be as surely obtained as when drawn with a bucket. In situations where it is necessar ry to raise or force large quantities of water to great di-tances for supplying boilers in mills, furnaces. &c. these pumps are invaluable, as they can be made of any size, and capable of throwing from

15 to 1000 gallons per minute.

And to crown all, they can be sold as cheap as the cheapest.

The subscriber has spent the last year in experimenting upon and perfecting his pumps, and now trings them before the public with the fullest confidence that they will be found to answer his decription. DR. LE ROYS Vegetable Universal Pills, The only known Medicine that at the same tim purges purifies and strengthens the system.

September 11th, 1847 .- 1y

DR LE ROY'S Pills are a new medicine which has just appeared, and is fost taking the places of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarsaparills and Wild Cherry, so united that they act together; the one brough its admixture with other sub-tacces, pu rifying and purging, while the other is strengthen-ing the system. Thus those pills are at the sam-time tonic and opening; a desideratum long and eagerly sought for by medical men, but never be-fore discovered. In other words they do the work of two medicines, and do it much better than any two we know of; for they remove nothing from the system but the impurities; so that while they purge they strengthen; and hence they cause no debilitation, and are followed by no re-action. Dr. e Roy's pills have a wonderful influence on the blood; they not only purify without weakening it but they remove all to xious particles from the chyle before it is converted into fluid, and thus make impure blood an utter impos-ibility. As there is no ebilitation, so there is no nauses or sickness attending the operations of this most excellent of me-dicines, which never strains or tortures the digesdicines, which never strains or tortures the diges-tive functions, but causes them to work in a per-fectly natural manner; and hence persons taking them do not become pale and emaciated, but the contrary; for while it is the property of the Saras-pardla, united as it is with other ingredients, to remove all that is foreign and impure, it is equally the property of the With Cherry to retain all that is natural and sound; and hence a robust state of health is the certain result of their united opera-

THIS Medicine is warranted, on oath, not to contain a particle of Calemel, Corrosive Rub-limate, Arsenic, Chloride of Gald, or any delete-

rous minerals.

The principle upon which this Medicine acts, is by assisting and harmonising with nature; is drives out all foul scrimonious humors from the blood and body, and by assimilating with and blood and body, and by assistant strengthening the gestric juice of the stomach, it assists digestion; in short there is not a vein artery, muscle or nerve in the human body, that is not strengthened by the PANACEA, and it also possesses the remarkable property of removing mercury from the Lopes and joints.

FOR ERUPTIONS OF THE SKIN. Scurvy, Scorbuic Affections, Tumors, Scrotule or Kings' Evi, White Swellings, Erysipelas, Ulcers, Cancers, Running Sores, Scabs and Biles, time and a determined perseverance in D. SWEET SER'S PANACEA, will effect a cure.

FOR INDIGESTION. Rejection of food, Nauses, Vemitings, Nervous a tections, Billious complaints, Head actie, Paten se, or Female Irregularities, Dr. SWEETSER'S PA-NACEA will soon effect a cure; but if obsticate or attended with griping, flying pains, the dose should be increased, and the cure will soon be ef fected. Let not the patients frighten themselves with the idea that they are too week to take much medicine; but bear in mind that this mildly operating med cine put not weakness into the frame, bu mest certainly draws weakn s- out, leaves strength in its place, and by giving composed steep at night and an appetite to relish any fined, re-animates th whole frame with vigorous action, clearing the mind and improving the sight.

SCROFULA AND GLANDULAR AFFEC TIONS.

Scrofuls is said to be heriditary, the infant re ceiving from its parents the seeds of this disease, which increases with its years, if neglected and not submitted to frequent purification with Dr. SWEETSER'S PANACEA. The glands are pla-The entire truth of the above can be ascertained by the trial of a single box; and their virtues are so positive and certain in restoring Health, that they are capalde of being purified and cleansed by a long course of Dr. SWEETSER'S PANA-CEA, which restores them to sound and proper action. Scroful-us persons can never pay too much attention to their blood, its purification should be their first thought, for after a long course of perseverance, they will ever cure hereditary disease.

> In cases of JAUNDICE ASTHMA, LIVER COMPLAINTS, 71C DOLOREUX RHEU MATISM OR RHEUMATIC GOUT, Dr. SWEETSER'S PANACEA cannot be too high ly extelled; it rearches out the very root of the lisease, and by a moving it from the Blood makes

a cure certain and permanent.
For discases of the Bladder and Kidneys, Strice tures. Gravel. Stone. Piles. Fishula. Urinary Ob-structions and Extreme Costiveness. Dr. SWEET. SER'S PANCEA is the best remedy ever trel; it removes all those acrimorious humo's from the Blood which give rise to the above diseases, and by keeping the blood in a pure condition, insures

For DROPSY, FALLING OF THE BOWELS. Impurities of the Blood, Mercurial Taint. Weak ness of the Spine Flow of Blood to the Head Gid duess, Singing and Buzzing Noise in the Head and Ears, Dr. SWEETSER'S PANACEA will give certain relief; in all severe and chronic cases, the patients cannot be too often reminded that larger doses and perseverance will effect a cure.

In Chills and Fevers. Bilious Fevers, Affect of the Eyes and Ears. Spongy and Bleeding Gums Bronchi's and recent Coughs and Colds, Dr. SWEETSER'S PANAUEA will be found

perfectly sure and certain in its effects. GRAVEL AND URINARY COMPLAINTS Those compinints are generally attended with the most fatal consequences, and are seldom or no ver cured by the present mode of treatment; they usually accompany the patient to the grave, after suffering the most excruciating pain and tortore. The cause of these complaints are the same as all others, the dross of the blood becomes encrusted of the finest narrow passages, whence are morbul secretions and stoppages of urine. You will find the most powerful duretics of no use, as they only increase the quantity of urine and do not on if nd strengthen the parts. By purifying the blood with Dr. SWEETSER'S PANACEA, you re move the cause of the disease, consequently it can not exist any longer, after sufficient perseverance in its use has deprived the blood and body of all

scrimonious humors and incrustation. DISEASES OF THE LUNGS-CONSUMPTION. This is a very prevalent and fatal disease; it re sults mostly from neglected coughs, colds and bronchitis, also from improper treatment in many of er cases, such as measles, fevers, inflammations and small pox, and a host of other badly treated diseases where the cause, instead of having been thoroughly removed from the blood and body, have only been palliated or removed from one part to break out in another. By divesting your bodies of all foul humore, through the medium of Dr. SWEETSER'S PANACEA, the cure is at once rendered certain and permanent. Recoilect, while there is acrimo nious humors firsting in the circu'ation, it is as ap to settle on the lungs as any other part of the body this is the reason that consumption is so prevalen ;

BILES, SORES AND ULCERS, Which you see on the exertor, come from and have their source in, the interior, and might just as well have settled on your lungs, liver, or any other part; which we know they frequently do, and produce most violent inflammatory disorders. The humer which occasions these sores is of a highly acrimonions burning nature. We know it from the pain it gives in forming, and afterwards its rapidly orcerating and corriding the flesh and ski of the part where it breaks out. This shows th necessity of frequently purifying the blood with Dr. SWEETSER'S PANACEA, and keeping such malignant humers in surjection. Should you have a bile or ulcer, be thankful that name has taken trouble to warn you of the danger your life and be dy is in, for it is a warning that the blood is foul Had this same acrimony selected the lungs in-tead of the surface of your body for its seat, consumption of the lungs would have been the consequence D. lay not then, to purify and cleanse with Dr Sweetser's Panacea

SPINE DISEASE

Spinal affections, margement of the bones and joints, white swellings, hip joint complaint, ruptures, falling of the bowels and wome disease, will find a speedy oure in Dr. SWEETNER'S PA-NACEA. Where the disease has been of long tanding, the time required to make a cure will be longer; but the patient may rest assured that determined perseverance will effect it.

BRONCHITIS, ASTHMA AND DISEASE OF

THE WINDPIPE. These disease proceed from the seriosity of the throat and lungs, and stopped them up, so that they cannot draw sufficient air in for respiration diste relief, and to make the cure perfect and cer-tain, it should be continued some time after, to

RHEUMATISM, RHEUMATIC GOUT AND

MERCURIAL DISEASES Find a safe and speedy cure in Dr. SWEET: SER'S PANACEA. It cures by searching every blood ves el and attery, and driving out all impu-rities and foul humors accumulated therein, which is the cause of th umatism, gour and swellings of the joints. The deleterous effects of calomel and the joints. The deleterous effects of calomel and other mineral poisons, readily yield to its sovereign influence; indeed, when its valuable properties be come fully known, the use of all mineral poison will be consigned to 'the tomb of all the Capaleta,' and only be thought of as a by-gone custom of the darker ages. Dr. Sweetser's Panacea is also a surecure for dyspepais, piles, contiveness, vertigo, headache, pain in the breast and liver complaint.

FEVER AND AGUE. Pever is always caused by a disorderly move-ment of the blood, struggling to free itself of some-thing that cucumbers it; in fact, every kind of fe-ver is pothing more than a struggle between the blood and corrupt humore, and as soon as the cor-

rupt humors are expelled, you have no more fever, When a patient with fever submits to be bled, or have his blood poisoned with mercury, it weskens his frame to such a degree that if he survives the process, it always leaves him subject to distressing chills, when 9 times out of 10 he resorts to ague pills, powders, or tonic mixtures; this is going from bad to worse, as these vegetable pills, powders, &c. are nothing but mercury and quinine in disgular, which may for a time drive the disease so far into which may for a time drive the disease so far into the body as not to be perceptible, but very soon it will break out sgain with fearful violence. To cure ague and fever, the cause of the disease must be removed out of the blood and body, which can be effectually done by using Dr. SWEETSER'S PANACEA, which purifies, cleanses and strengthens. It contains nothing that can possibly injure, and its use is always a safeguard against chills and favers.

PILES. In ALL CARRS OF PILES, Dr. SWEETSER'S PANACEA will effect a very speedy cure. It removes from the blood, stomach and bowels, all those foul scrid borning humors, which are the cause of Piles and Costivenes, and by strengthening the digestive organs, improves every part of the only a hole.

FLATULENCY AND WIND.

These diseases are caused by the stomach and howels being choked up with viscid slimy matter, he air which enters them cannot e-cape until forced by some contraction of the womach to expel it; herce the cause of pain. A few doses of Dr. SWEETSER'S PANACEA will convince the sufferer that relief is attained

GREAT MEDICINE FOR CHILDREN. Parents will find the PANACEA's valuable a healthy condition, thereby assisting their growth; children or grown persons, after taking it, are not liable to be attacked with an epidemic as before, as it always leaves the blood in a pure condition, and the ontire system in a strengthened state; it drives out all kinds of weakness from the body and leaves

all heal by within. MARRIED LADIES Will find Dr. SWE ISER'S PANACEA a medi-Will find Dr. SWE I'SER'S PANACEA a medi-cine purely adopted to their use. Most ladies du-ring the period of pregnancy are afflicted with piles. Dr. Sweetser's Panacea, by regulating the bowels, will entirely obviate this, and its purifying proper-ties on the blood and fluids, insures to them heal-thy off-pring. No one who is a mother should be without it, and those who are nursing, will find it of great benefit to the health of their infants.

For barrenness and all diseases of the womb, it is without a rival in the entire history and catalogue of medicines; by its extraordinary strengthening power, it stimulates and strengthens the womb, weakness of which is the cause of failure to have offspring.

NERVOUS DISEASES. Under this head may be classed Palpitation of the Heart, Tec Doloresux or Paceache, Neuralgia, Indepention, Toothache, Melancholy, Hysteries, and in fact, every disease caused by the sharp, biting. acrimonious humors irritating the nerves; the nerves receive the morbid impression from the sto-mach, or rather from the blood through the agency of the stomach and dige tive organs, and although other parts of the body are apparently the seat of the discose, still it is caused by the morbid impres-sion conveyed from the blood by the nerves, to that part. A few doses of Dr. SWEETSER'S PA-NACEA will soon assure the patient that he has the cure in his possession.

ERYSIPELAS, on ST. ANTHONY'S PIRE This is an inflammatory disorder, alw vestiend ed with more or less pain. It proceeds from the foul, acrimenious humors lodged in the blood and fluids, settling on the limbs and face, causing extreme pain and fevers; all applications on the surfare are worse than useless, is they only tend to throw the disease in some other part, and perhaps cause death. Blooding is likewise improper. To cure the di-ease you must get rid of the cause; only manage to get the foul humors out of your blood, and you will be well in a day. Dr. SWEET-SEES PANACEA, a thorough purifier of the blood, will search out every impurity in the more remote ports of the body and expel it through the medium of the boxels. There is not a vein, artery, muscle or organ of the entire framework of man, that Dr. Sweetser's Panacea does not improve. To take it when you are well is to keep well; and when sick to become well.

DR. SWEETSER'S PANACEA, beingcomposed only of a veg-table matter, or medical nerbe, and warranted, on outh, as containing not one ticls of mercurial, mineral, or chimical substances, s found to be perfectly harmiess to the most tender age, or the weakest frame, under any stees of human suffering; the most pleasant and benign in its of eration that was ever off red to the world; and it the same time the most certain in searching out he root of any complaint, however deep, and of
