NOW I LAY ME DOWN TO SLEEP. There are probably no four lines in the English language that are repeated so many times daily as the following:

"Now I lay me down to sleep, I pray the Lord my soul to keep;

"Now I lay me down to sleep,
I pray the Lord my soul to keep;
If I should die before I wake,
I pray the Lord my soul to take."

And it is not only children and youth that repeat them. Many whose heads are "silvered over with age," have been accustomed to repeat them as their last prayer before closing their eyes in sleep, every night since they were taught them in infancy. The late ex-President of the United States, John Quincy Adams, was among that number. A Bishop of the Methodist church, in addressing a Sabbath School, told the children that he had been accustomed to say that little prayer every night since his mother taught it to him when he was a little boy.

In conversing recently with a ship master, over seventy years of age, and who has been for many years a deacon in the Church, he said that when he followed the scas, and even before he indulged a hope that he was a Christian he never leafer the results of the projector, they have proved a result in the most clistant parts of the said that when he followed the scas, and even the first of the projector, they have proved a result in the most clistant parts of the said that when he followed the scas, and even the first part of the projector, they have proved a result in the most clistant parts of the said that when he followed the scas, and even the first part of the projector, they have proved a result made knewn to the projector, they have proved a result made knewn to the projector, they have proved a result made knewn to the projector, they have proved a result made knewn to the projector, they have proved a result made knewn to the projector, they have proved a result made knewn to the projector, they have proved a result made knewn to the projector, they have proved a result made knewn to the projector, they have proved a result made knewn to the projector, they have proved a result made knewn to the projector, they have proved a result made knewn to the projector, they have proved a result made knewn to the projector and the projector and the proje

before he indulged a hope that he was a Christian, he never lay down in his berth at night without saving with great seriousness and he thought sincerely,

"Now I lay me down to sleep." He felt so strongly his need of religion, and his danger without it, that he used always to read his Bible, and place that precious book under his pillow at night, and often to kiss the sacred volume, trusting, no doubt, in this reverence for the word of God, instead of trusting alone in the Saviour.

Let every reader learn, and every night repeat that little prayer :--"Now I lay me down to sleep." &c.

Destruction of Human Life in the Mines Potost.

The mines of Potosi were accidentally discovered by Diego Hualca, an Indian peasant, when pursuing wild goats. Arriving at a steep place, he laid hold of a small shrub to to prevent himself from falling, but the shrub being unable to support his weight, was torn up by the roots, and disclosed to the astonishhunter a rich mass of silver, lumps of which adhered to the earth and came away with the plants. Not long afterwards the discovery was made known, and the mine was opened in 1645.

From the first discovery of these mines to the year 1803, the quantity obtained from Butter Knives. &c., and without making any dis them amounted to the enormous sum of one play of prices in the public prints, they are prethousand and fifty millions of dollars. The annual quantity thirty years since was about five million dollars. Although their produce is reduced to obout one-quarter of what it once was yet they are still the most productive mines in South America.

These mines have caused the destruction of thousands of human beings in the latter end of the 16th century. Sixteen thousand Indians were constantly compelled by the subscription of the meta to work in them. At present there are only about two thousand miners employed, who are well paid, and work from choice.

"Why," said the old gentleman, as h loooked complacently on a pair of finely roasted chickens, that were smoking on the dinner table, "why, my son, there are two." "Two!" replied the smartness, "there are

"Yes, that's certain," said his dad. "And ain't that two ?" pointing to the second, and don't one and two make three ?"

"Really!" said the father, turning to the old lady, who was in amazement at the immense learning of her son, "really, wife, this boy is a genius, and deserves to be encouraged for it. Here, old lady, do you take one fowl, and I'll take the second, and John may have the third for his learning."

"FINDING THE BETTER WAY."-We notice in as exchange the marriage of Mr. WRIGHT to Miss BETTERWAY. Mr. Wright had no doubt read Pope's Universal Prayer, particularly the following verse of it:

"If I am BIGHT, thy grace impart, Still in the right to stay; If I am wrong, O teach my heart To find the SETTER WAT."

"Did your fall hurt you ?" said one Patlander to another, who had fallen from the top of a two story house. "Not in the laste, honey, 'twas stoppin' so quick that hurt me."

Dear Sir.—I have been a dyspectic sufferer for about ten years, and have resorted to various medicines for relief without success, until I made use of your "Oxygenated Bitters." I have used about two bottles, and find myself restored to perfect health. The forms in which the discose showed itself, in my case, were, great acidity of the stomach, loss of appetite, extreme fistulence, severe constipation of the bawels, and violent heasthene. Feeling destrons that a knowledge of your valuable remedy may reach others similarly afflicted. I take greet pleasure in recording my testimony to its curative power; and would also remark, that while on a visit at home a short time since. I administered a part of a bottle to a number of my afflicted friends, with great success. They are desirous that you should establish on agency at Phistoure, or inform them where the medicine can be obtained. With an estimest desire for your prospectity and happiness, I subscribe myself, truly your friend.

Dear Sir.—I have read with much interest, your little TRARATISE upon the "causes, treatment and care" of the febrile discones which have so extensively provided in our country during the last few months—an interest increased as doubt, by the fact that I have individually enfered so much from them. Though I feel myself very inc unpetent to judge safely upon a subject so entirely professional, yet your theory seems to me well reasoned, and your conclusions just, and I think withal, that your pamphlet is calculated to produce much practical good.

Speaking of the medicine be says:—It fully justified your fintering expectations, and as since, convenient, and popular remedy, my own experience, so far, induces me to believe that it will prove a great public benefit. I am pleased to learn that you have recently established several agencies for its disposition—though I regret that, with a view to a more general dissemination of it, you should have found it necessary to remove from your present residence among us.

With much respect I have the honor to be, sir,

Your obliged servant. From Hon. Stephen V. R. Trowneringe, of Michigan State Senate, to the Agent at Detroit.

TESTIMONY.

Prillar, Dec. 14th, 1847.

Duan Sin :—In reply to your question respecting the use of Dr. Drake's Panneen, I will say, that although a perfect diabeties, however valuable it may be in certain conditions of the system, still I have believed that a cure for Consumption would be discovered some or other, and curtosity led me to try your medicine in two very inveterate cases. They were pranounced by the attending physicians to be performanced by the article of the persons had been under the treatment of several every able practitioners for a number of years, and they said she had "old inshroned Consumption combine with Scrottha," and that she might langer for some time but could not be permanently relieved. In hoth cases the effect of the Panneea has been most grafifying. Only four or five bottles were used by one of the persons before she began to improve rapidly. The other took about ten. I will only add that familiar as I am with consumption by inheritance and by extensive observation as a study, and knowing also the inquirous effects in nine cases out of ten of tar, bousset, and other vegetable tonics, as well as of many of the expectorants and selectives, I sh uild never have recommended the one of Drake's Panneea if I had not been acquainted with the ingredients. Suffice it to say that lease are recommended by our ment popular and scientific physicians, and in their present combined state, form probably the local unlearlive that has ever been made. The cure is in necordance with a theory of Consumption by the mine twither and mine of the dispute.

L. C. GUNN.

wiit of no dispute.

Very Respectfully Yours, L. C. GUNN. To use the language of another, "Dr. Drake's Papacea in always salutary in its effects—never injurious. It is not as Opiate—it is not and Expectorant. It is not intended to full the invalid into a fatal security. It is a great remedy—a grand healing and curative compound, the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquered malady. And no person afflicted with this dread diffense, will be just to himself and his friends, if he go down to the grave without testing its virtues. A single bottle, in most cases, will produce a favorable change in the condition of any patient, however low."

Ladies of pale complexion and communitive habits, and such as are debiliated by those obstructions which females are liable to, are restored by the use of a bottle or two, to bloom vigor. It is by far the best remedy ever discovered for weakly children, and such as have bad bumors; being pleasant, they take it. It immediately restores the appetite, strength and color.

Nothing can be more surprising than its invigorating effects on the human frame. Persons, all weakness and lassitude before taking it, at once become robust and full of energy under its influence. It immediate counteracts the nervelessness of the female frame.

CAUTION.—Be careful and see that you get the genuine Dr. Drake's Panacea.—it has the signature of Gro. P. Storms on the wrapper—and also the name "Dn. Drake's Panacea. Patta..." thown in the glass.

Philadelphia, 10 mo., 13th, 1846. To T. B. Peterson,—Having been requested to give my opinion on the merits of M'ALLIS TER'S SALVE, I am willing to enumerate some

f the benefits which I have experienced in the use In the spring of 1845, I had an attack of Eryin the spring of 1640, the spring of 1640, and sipelas in my face which became very painful, and extended into one of my eyes, being attended with fever, my distress was great and I began to be fear-

ful of losing my eye.

Although not much of a believer in what is commonly called quack medicines, I purchased a box and made an application to my face. To my surprise the pain soon ab-ted, and in a week's time it was entirely cured, and I firmly believe that it it was entirely cured, and I firmly believe that it was the salse, under Providence that cured me.
From that time to the present. I have used the article as occasion required, and is every case where I have used it. I have found a decided benefit.

At one time, on going to had at night, my threat was so sere that I swallowed with difficulty, but by an application of the salve I was relieved before intuing.

I have used it in case of burns, bruises, sprainand flesh cuts, all with the happiret effects, and one case of poisoning by a wild sine in the woods, has been dried up and cured by a few applications.

From my own experience, I would strongly recommend it to all, as a cheap, convenient, family continue.

I have become so partial to it, that I expect to keep it con-tantly in my famile.
Though not ambittons to appear in print, yet cannot refuse to have this communication made Respectfully thine, WM. ADAMS.

DR. SWEETSER'S AEDE AEGAG THIS Medicine is warranted, on oath, not to contain a particle of Calemet, Corresive Sub-imate, Arsenic, Chloride of Gold, or any delete-

The principle upon which this Medicine acts, iby assisting and barmonising with nature; it drives out all foul acrimonious humors from the blood and body, and by assimilating with and strengthening the gastric juice of the stomach, it assists diges ion; in short there is not a vein artery, muscle or nerve in the human body, that is not strengthened by the PANACEA, and it also possesses the remarkable property of removing mercury from the hones and joints.

FOR ERUPTIONS OF THE SKIN, Scurve, Scorbovic Affections, Tumors, Scrafula or Kings' Evi , White Swellings, Erysipelas, Ulcers, Cancers, Running Sores, Scabs and Biles, time and a determined perseverance in D. SWEET-

FOR INDIGESTION. Rejection of food, Nausea, Vemilings, Nervous at tections, Billious complaints, Head ache, Pateness or Female Irregularities, Dr. SWEETSER'S PA. NACEA will soon effect a cure ; but if obstinate, or attended with griping, flying pains, the dose should be increased, and the cure will soon be ef fected. Let not the patients frighten themselves with the idea that they are too week to take much medicine; but hear in mind that this mildly operating med cine put not weakness into the frame, but most certainly draws weakn so out, leaves strongth in its place, and by giving composed sleep at night, and an appetite to relish any find, re-animates the whole frame with vigorous action, clearing the mind and improving the sight.

SCROFULA AND GLANDULAR AFFEC-Scrofula is said to be heriditary, the infant re-ceiving from its parents the seeds of this disease, which increases with its years, if neglected and not submitted to frequent purification with Dr. SWEETSER'S PANACEA. The glands are placell in the corners of the body, and out of the way of direct communication; their real use is a subject on which much difference of opinion prevails; it suffices us to know that when in a diseased state. they are capable of being purified and cleansed by a long course of Dr. SWEETSER'S PANA-CEA, which restores them to sound and proper action. Scroful us persons can never pay too much attention to their blood, its purification should be their first thought, for after a long course of perse-

GRAVEL AND URINARY COMPLAINTS There complaints are generally strended with the most fatal consequences, and are seldem or ne. was cured by the present mode of treatment; they usually accompany the patient to the grave, after suffering the most exeruciating pain and torture. The cause of these complaints are the same as all others, the dross of the blood becomes encrusted on the finest narrow passages, whence arms n percesse the quantity of urine and do not purify and strengthen the parts. By purifying the blood with Dr. SWEETSER'S PANACEA, you re more the cause of the disease, consequently it can-not exist any longer, after sufficient perseverance in its use has deprived the blood and body of all actimonious humors and incrustation.

OREASES OF THE LUNGS-CONSUMPTION. This is a very prevalent and fatal disease; it replie mostly from neglected coughs, colds and broucalitis, also from improper treatment in many other
cases, such as measles, fevers, inflammations and

BILES, SORES AND ULCERS,
Which you see on the azierior, come from and have their source in, the interior, and might just as well have retired on your lungs, liver, or any other part; which we know they frequently do, and produce most violent inflammatory disorders. The humor which occasions these sores in of a highly acrimonions burning nature. We know it from the pain it gives in forming, and afterwards its rapidly ulcerating and corriding the fiesh and skin of the part where it breaks out. This shows the necessity of frequently purifying the blood with Dr. SWEETSER'S PANACEA, and keeping such maligoant humors in subjection. Should you have a bite or ulcer, be thankful that rature has taken trouble to warn you of the danger your life and boa ble or sicer, be thankful that rature has taken trouble to warn you of the danger your life and hody is in, for it is a warning that the blood is foul. Had this same actiniony a level the lungs instead of the surface of your body for its seat, consumption of the lungs would have been the consequence. SPINE DISEASE.

Spinal affections, enlargement of the hones and joints, white swellings, hip joint complaint, ruptures, failing of the howels and wom: disease, will find a spredy oure in Dr. SWEETSER'S PANACEA. Where the disease has been of long-tanding, the time required to make a cure will be longer; but the parient may rest assured that a determined perseverance will effect it.

BRONCHITIS, ASTUMA AND DISEASE OF
THE WINDPIPE.
These diseases proceed from the seriesity or
corrupt humors of the blood, having settled itself on
the threat and lungs, and stopped them up, so that they cannot draw sufficient air in for respiration.

Dr. SWEETSER'S PANACEA will give immediate relief, and to make the cure perfect and certain, it should be continued some time after, to free the system of all bud humors.

RHEUMATISM, RHEUMATIC GOUT AND MERCURIAL DISEASES
Find a safe and speedy cure in Dr. SWEET-SER'S PANACEA. It cures by searching every blood vessel and artery, and driving out all impurative and foul humors accumulated therein, which is the cause of th unatism, gout and swellings of the latter. The declarate affects of calendary other unineral poisons, readily yield to its sovereign influence; indeed, when its valuable properties become fully known, the use of all miner I poison will be consigned to the tomb of all the Capalets,' and only be thought of as a by-gone custom of the dar-ker ages. Dr. Sweet-er's Panacea is also a sure cure for dyspensia, piles, costiveness, vertigo, head-sche, pain in the breast and liver complaint.

FEVER AND AGUE.

Fever is always caused by a disorderly movement of the blood, struggling to fee itself of somever is nothing more than a struggle between the blood and corrupt humors, and as soon as the corrupt humors are expelled, you have no more fever.
When a patient with fever submits to be bled, or have his blood poisoned with mercury, it weakens his frame to such a degree that if he survives the process, it also ays leaves him subject to distressing chills, when 9 times out of 10 he resorts to sque pills powders, or tonic mixtures; this is going from ted to worse, as these vegetable pills powders; &c.2 are n thing but mercury end quenine in disgular, which may for a time drive the disease so far into which may for a time drive the disease so far into the body as not to be perceptible, but very soon is will break out again with fearful violence. To cure as no and lever, the cause of the disease must be removed out of the blood and body, which can be effectually done by using Dr. SWEETSER'S PANACEA, which purifies, cleanses and strong here. It contains nothing that can possible interesting. It contains nothing that can possibly injure, and it a

PILES. In ALL CASES OF PILES, Dr. SWEETSER'S PANACEA will effect a very speedy cure. It re-moves from the blood, stomach and bowels, all those foul acrid burning humors, which are the cause of Piles and Costiveness, and by strengthen ing the digestive organs, improves every part of the

FLATULENCY AND WIND These diseases are caused by the stomach and cowels being choked up with viscid slimy matter. he air which enters them cannot e-cope until forced by some contraction of the stomach to expel it; hence the cause of pain. A few doses of Dr. SWEETSER'S PANACEA will convince the sufferer that relief is attained.

GREAT MEDICINE FOR CHILDREN. GREAT MEDICINE FOR CHILDREN.

Parents will find the PANACEA at valuable medicine for their children, keeping their bodies in a healthy condition, thereby assisting their g owth; children or grown persons, after taking it, are not liable to be attacked with an epidemic as before, as it always leaves the blood in a pure condition, and the thire system in a strengthened state; it drives out all kinds of weakness from the body and leaves all heal by within.

MARRIED LADIES

Will find Dr. SWE PSER'S PANACEA a medical purely adapted to their use. Most ladies du-

one purely adopted to their use. Most ladies during the period of pregnancy are afflicted with piles. Dr. Sweetser's Panacoa, by regulating the howels, will entirely obviate this, and its purifying properties on the blood and fluids, insures to them healthy off-pring. No one who is a mother should be without it and these subjects. without it, and those who are nursing will find it of great benefit to the health of their infants. For barrenness and all diseases of the womb, ir is without a rival in the enire history and catalogue

of medicines; by its extraordinary strengther power, it stimulates and strengthens the womb, weakness of which is the cause of failure to have offspring. NERVOUS DISEASES. NERVOUS DISEASES.

Under this head may be classed Palpitation of the Heart, Tic Doloreaux or Facuache, Neuralgia, Indigestion, Toothache, Melancholy, Hysterica, and in fact, every disease caused by the sharp, hiting, aerimonious humors irritating the nerves; the nerves receive the morbid impression from the stomach, or rather from the blood through the agency

ERYSIP LAS, on ST. ANTRONY'S FIRE.

This is an inflammatory disorder, always attended with more or less pain. It proceeds from the foul, acrimonious humors lodged in the blood and fluids, settling on the limbs and face, causing extreme pain and fevers; all applications on the surface are worse than useless, as they only lend to throw the disease in some other part, and perhaps cause death. Bleeding is likewas impropel. To cute the disease you must get rid of the cause; only manage to get the foul humors out of your blood, and you will be well in a day. Dr. aWEET-SER'S PANACEA, a though purifier of the blood, will acarch out every impurity in the more remote ports of the body and expel it through the medium of the bowels. There is not a vein artery, muscle or organ of the entire framework of man, that Dr. Sweetser's Panacea does not improve. To take it when you are well is to keep well; and when sick to become well.
