Female Complaints, AND A VARIETY OF OTHER DISEASES ARISING FROM IMPURITIES OF THE BLOOD, AND OBSTRUCTIONS IN THE ORGANS OF DIGESTION.

DIGESTION.

Experience has proved that nearly every Disease originates from Impurities of the Blood or derangements of the Digestives Organs; and to secure Health, we must remove those obstructions or restore the Blood to its natural state.

The averagen to taking medicine is most effectually removed by Clickness's Vegetable Plus, being completely enveloped with a coating of pure white Buggar, (which is as distinct from the internal ingredients is a nut shell from the kernel) and have no instee of medicine.

But are as easily swallowed as bits of candy. Moreover they neither anneatic or gripe in the slightest degree, but operate equally on all the discused parts of the system, instead of continuing themselves to, and racking any particular region. Thus, if the Liver be affected one ingredient will operate on that particular organ, and, by cleansing it of an Excess of Bile restore it to its natured state. Another will operate on the Board and remove all impurities in its circulation; while a third will effectually expet whatever impurities may have been discharged into the stomach, and hence they strike at the root or disease remove all impure Humors from the body, open the pores externally and internally; separate all foreign and obnexious particles from the chyle, so that the blood may be thoroughly pure—thus securing a tree and healthy action to the Heart, Langsand Liver and thereby they restore health even when all other means have failed.

The entire truth of the above can be ascertained by the trial of a single box; and their virtues are so p sitive and certain in restoring Health, that the proprietor binds himself to return the money paid for them in all cases where they do not give universal satisfaction.

IMPORTANT TO THE PUBLIC. HORSE AND CATTLE

MEDICINES.

Don't permit your Horses or cattle to die, when the means of cure are within the reach of all! The undersigned has spent several years in the

study of Veterinary practice in "London and Edinboro"," he has also availed himself of the researches of Leibig, and other celebrated men, who have contributed so much towards a judicious treatment of animals; the principles of our practice consist in the rejection of general bleeding and the total rejection of all medicines that experience has shown to be of a dangerous tendancy. These remedies act in harmony with the vital principle, and when given according to the directions which accompany each article they are capable of exciting and increasing the natural functions, without diminishing or destroying their power, hence are safein the hands of every one.

#### EXONERATIONS.

This is to certify that in auditing the public accounts of Northumberland county, we find exonerations and allowances made by the Commissioners of said county, to different Collectors &c. Amounting on County tax, to the sum of seventy-four dollars and forty-three cents. Also, percentage to Collectors two hundred and seventy dollars and forty-seven cents, on State tax exonerations to the sum of forty-six dollars and four and a fourth cents, and a percentage to Collectors of five hundred and sixty-one dollars and thirty-nine cents, and on Militia fines, exonerations and Commissions to Collectors, to the sum of two hundred and eleven dollars and seventy cents. These exonerations and allowances will be a net loss on the amount due the County and State, at the settlement of 1848.

We the undersigned Auditors of Northumberland county, elected and sworn according to law to settle and adjust the public accounts of the county, do certify that we have examined vouchers, &c., and

settle and adjust the public accounts of the county, do certify that we have examined vouchers, &c., and find a balance due the county in the hands of the said Treasurer, of six hundred and twenty-seven dollars and twelve and a half cents; due from the several Collectors, the sum of five thousand one hundred and seventy-eight dollars and sixty-two cents as county tax; also due from the several Collectors the sum of four thousand eight hundred and fifty-eight dollars and sixty-eight cents, as State tax, of which there is due the County two thousand seven hundred and six dollars and seventy-seven cents; also forty dollars as court fines; also one hundred and twenty-eight dollars as jury funds, also a note due from William Gulick, late Treasurer of one hundred dollars; also from James Strickland a judgment on Esquire Weiser's docket of twenty-three dollars and sixty-six cents; also, a note due from Joseph Hougendobeler, seventeen dollars and sixteen and a half cents; also due from Homas Allen, a note of thirty-seven dollars; also due the Treasury from James Buoy, five dollars. And after deducting three hundred and four dollars and sixty and three-fourth cents for Commissioner's orders yet in circulation, there remains due the county the net sum of eight thousand five hundred and sixty-one dollars and seven-teen and three-fourth cents.

Vitness our hands, this 5th day of January, A. D. 1849.

The Pupil's friend and Teacher's comfort. THE COLUMBIAN CALCULATOR.—This I work is already introduced into some of the best Acadamies and a large number of Schools, where its use has given decided and universal suwhere its use has given decided and universal satisfaction, both to teacher and pupil. It is purely American in its character, based upon our own beautiful decimal system of currency. It contains more, the arrangements are better, and it is the easiest and cheapest work of the kind now in use; and it is so considered by hundreds of the most competent teachers and men of science in the Union, who have recommended it, It is the book, particularly and expressly prepared for our American Scholars: By Almon Ticknor.

The Youth's Columbian Calculation.—This yolume contains 91 pages, with about 900 exam-

These much extra matter for the black board. These keys are the most complete works of the kind ever published, and contain, in addition, about two hundred examples in Mensuration, &c., for the use of the Teacher. All that is wanted is to have the above books examined, and no teacher who is the above books examined, and no teacher who is acquainted with the science of Arithmetic, will hesitate to pronounce them the best works that have ever been published in this or any other

Although issued but a few months, they have already been introduced into the Night Public Schools of New York City—in all the Schools public and private, except two, in the City of Reading. Also, in about twenty Acadamies in the State of Pennsylvania—in a large portion of the Schools in the City of Wilmington, in the City of Lancaster, and in the Boroughs of Harrisburg.
