# SUNBURY AMERICAN AND SHAMOKIN JOURNAL.

## Postage Reform.

The Hon. HORACE GREELT, who represent Ed one of the Congressional Districts of the bity of New York in the late Congress, has bublished an address to his constituents. On the subject of postage reform he says-

The failure to effect any revision of our present Postage charges is one of the great wrongs of the Session. The iniquity of charging one man forty cents per ounce, or 86 40 per pound for carrying mailed matter on an unbroken line of roalroad and steamboat communication from Portland, Me., or Charleston, S. C. to Washington, while anothperil. Jurors are requested to be punctual in their attendance, at the time appointed agreeable to er receives an unlimited number of pounds by the same mail on which nothing is charged, is one of the most glaring of any still subsisting under our republican rule. What I contend for

is notstrictly cheep Postage any more than dear Postage-it is simply just Postage. Make everything which passes through the Mails ay its just proportion of the total expense of

Mail service, and charge the lowest rates TYPRY MAN HIS OWN PATENT which will supply the aggregate required, and we shall have the best possible Mail systen. To talk of reducing Postage without abolishing the Franking Privilege, is like proposing to double Expenditures yet dimi-hish Taxation. That Franking Privilege is an aristocratic and blighting monopoly, which has fer many years subjected those who pay their own postage to unjust and heavy burdens. Many a mercantile monse in this effy has already been taxed thousands of dollars to uphold this oppressive monopoly, and is still paying hundreds yearly. But for this, who could have imagined such an exorbitant charge as forty cents per quarter-ounce letter or at the rate of \$26 50 per lb, for conveying letters by sea from this port to San Francisco? And this is only one of its oppressions. The Franking Privilege ought to be indicted and punished for obstructing the transportation of the Mails-a flagrant offence under our laws On or before the 1st of of December the Members of Congress gather at Washington, finding often a large quantity of documents printed, enveloped and duly apportioned to each, and these they immediately commence franking home to their constituents, in packages often weighing two and even three pounds. These get started in the Mails just as the Rivers are freezing up, and when the roads throughout the greater part of the Union are almost impassable.

The consequence is that at the termination of Railroad conveyance in almost every direction from Washington, the overload mailbags are in good part thrown aside, from absolute inability on the part of the singe-coaches thence employed to Carry them forward to their destination. Thus twenty-one hundred pounds lay for some time last Winter at the temporary terminus of the Michigan Railroad at Niles ; while additional mail-bags, which had been started from Niles but brought to a halt in one or another of the fathomless sloughs of Indiana, Illinois and Wisconsin, encumbered the wayside bar-rooms. The letters and newspapers which paid postage and which were anxiously awaited by those entitled to receive them, were kept back ; publishers,

PORK. debtors and correspondents were execrated HAMS AND SIDES.

PROCLAMATION. N OTICE is hereby given that the several courts of Common Pleas, General Quarter Sessions of the peace, and Orphans' Court, Court of Oyer and Terminer and General Jall Delivery, in and for the courty of Northumberland, to etemmence at the Court House, in the borough of Sunbury, at 10 g'clock, A: M. en Monday the 2d of April next, will continue TWO WEEKS. The coroner, Justices of the Peace and consta-bles in and for the county of Northumberland, are requested to be then and there in their proper per-

# CALIFORNIA GOLD! DISCOVERED BY SIGNOR D'ALVEAR'S GOLDMETER! **GOLD SEEKER'S GUIDE!**

Secret Art of finding Mines of Gold, Silver, Iron, Lead, Copper, Cool, and other Mine-ral Riches. THE first discovery of Gola in Culifornia was

made by DON JOSE D'ALVEAR, an emi-

nent Spanish Geologist, Chemist and Natural Philosopher, by means of a newly invented Magnetic instroment, called THE GOLDOMETER OR GOLD SEEKER'S

GUIDE ! GUIDE ! Signor D'Alvear has just arrived at New York, from the Gold regions of California, by way of Panama, Chagres, and New Orleans, bringing with him a very large quantity of Gold ore, valued at nearly one million of Dollars, which he collected there, long before the existence of the Gold mines became known to the residents of California

BERTORY OF THE DISCOVERY! Signor D'Alvear went out to California nearly signor D'Alvear went out to California nearly two years ago, in consequence of certain informa-tion which he had received of the geological char-acter of that country, with the firm belief that vast mines of precious metal would be revealed there upon careful investigation. He was encouraged to this enterprise, also by his confidence in the powers of a certain Magnetic instrument which he had invented, called "Goldometer," by whose aid he expected to be directed at once to the "Gold Placers," if any such existed. Nor were his ex-Placers," if any such existed. Nor were his ex-pectations disappointed. His scientific calculations proved to be found in truth and profound wisdom, and his new instrument, the "Goldometer," fulfil-led his highest hopes. In less than two months after reaching California, he struck upon one of the richest gold mines in that country, upon an obscure branch of the Sacrato river, in a gorge of hills extremely rockey and difficult of access, and seldom visited by the native Californians. Disguising his object under the pretence of purely scientific research, he obtained the aid of some fif-

teen or twenty simple and faithful Indians, and steadily pursued his task, collecting often more than \$2,000 worth of gold in a single day, which he concealed in a deep ravine, without exciting any suspicion whatever, until after the discovery of gold at Captain Sutter's Mill, when the mountain were ransacked by gold seekers, and Signor D'Al-year's "gold placer," the richest in all California,

was beset with greedy adventurers. It is now found that the real mines or sources of the gold, lie in the gorges of the mountains, and not in th beds or sands of the rivers. Previous to leaving California, Signor D'Alvear sold his instrument,

the Goldometer, a very imperfect one, for \$3,000. The person who purchased it confidently expected to make a handsome fortune, by simply finding "gold placers" and selling out the right of digging to the gold workers, MANUFACTURE OF THE GOLDOMETER

PUBLICATION OF THE GUIDE.

Signor D'Alvear, in compliance with the request of numerous scientific gentlemen, has commenced the manufacture of his new Magnetic Instrument, the Goldometer, which he now offers for sale, in the United States, at the remarkably low prine of \$3 each, accompanied by full instructions for use, and a variety of Philosophical hints drawn from

the ancient and modern science, or the ART OF FINDING MINES OF GOLD ! Silver, Platinum, Quicksilver, Coal, Iron, Cop-per, Lend, and other Mineral Riches, the whole being given in a publication called the GOLD SEEKER'S GUIDE!

This new work, and the Goldometer, are now ready tor sale.

The Goldon, eter is so simple an instrument. that a child may 'earn to operate with it in five minutes. It is not affected by climate, moisture, or any other known cause, (except the natural magnet.) and will retain its power of pointing out mineral riches in the earth for any number of years. By the aid of the Guide any person may

use the instrument at ance with perfect success, FARMERS AND LAND OWNERS. Farmers and Land Owners throughout the Uni ted States, who have reason to suspect the existence of any kind of Mineral riches upon their unequivocal manner, that there is nothing can be found that will produce the same effect in my opin-In uds, should avail themselves of this opportunity to jest that fact, by the surest of all known tests,

COLUMBIAN SERIES OF Arithmetics. The Pupil's friend and Teacher's comfort. THE COLUMBIAN CALCULATOR.—This work is already introduced into some of the best Acadamies and a large number of Schools, where its use has given decided and universal sa-tisfaction, both to teacher and pupil. It is purely American in its character, based apon our own beautiful decimal system of currency. It contains more, the arrangements are better, and it is the easiest and cheapest work of the kind now in use; and it is so considered by hundreds of the most competent teachers and men of science in the Uni-on, who have recommended it. It is the book, particularly and expressly prepared for our Ame-rican Scholars : By Almon Ticknor. Tax Yourn's COLUMBIAN CALCULATOR.—This volume contains 91 pages, with about 900 exam-

INDIAN

Mr. A. Durinam-Dear Sir ; In teply to your note of yeserday, I would state, that I have occasionally found it con-veniet to use the various "Patent Pills" vended in the shops ; and while I am unwilling to say anything to depreciate th

Indian Vegetable Pills superior to all others with which I

for neglect and bad faith, while Members SHOULDERS LARD & CHEESE, the Indiana, Illinois and Wisconsin Legisla-

ture (each having a U.S. Senator to elect) were amply plied with public documentsone of them receiving twenty-five pounds of

them by a single Mail, on which he paid nothing, though if you had sent the same amount of mailed matter, the charge thereon would have been \$160,-He probably never read ten pages of them-they were not sent to be read but to gratify his vanity and secure his vote for Senator. If those who pay for carrying the Mails are satisfied to let this

go on and grow worse from year to year -as all abuses naturally tend to-their taste must be peculiar indeed. If it were only to se-

cure regularity in the transmission and punctuality in the reception of the Mails, I would strenuously insist on the abolition of the Franking Privilege. But when I see that its existence also upholds and renders necessary Rates of Postage twice as high as they otherwise need be, (for the aggregate weight of franked documents and letters must be fully equal to that letter-mails on which postage is paid, while the average distance over

which they are conveyed must be greater)and while I see that at least One Hundred Thousand Dollars are annually paid from the Treasury for printing and enveloping extra copies of documents which would never be ordered if those who received them were coveren forths most disagreenble complaint, ' versal Ointment is the most complete. It neve subjected to Postage-1 am puzzled to account for the election and re-election to Congress of men who uphold the Franking Privilege.

THE ALBANY KNICKERBOCKER says that in one of their cheap boarding houses, the following regulations are pasted up in the hall:

"Boarders are requested when they retire late to take off their boots before getting into AGENTS bed.

"Making faces at the landlady not permit ted.

"When a gentleman has eaten sufficiently he should leave the table without gluttonin until he is obliged to unbutton his vest.

Whittling in the parlor prohibited when h ties are present. "Any infraction of the above rules will

lead to the suspension of the infractor's coffee at breakTast on the following morning."

### CABINET. WARE ROOMS.

THE subscriber respectfully informs the public, that he continues the manufacture of CABI-NET WARE, in all its branches, at his stand in Market street in Sunbury, and that he has now on hand a handsomo assortment of well made and fashionable furniture. He also carries on, at his old establishment, in Fawn street the

Fawn street, the CHAIR MAKING BUSINESS,

in all its branches, and keeps constantly on hand, an associment of well made and fachionable CHAIRS, plain and ornamental. All of which he will dispose of at prices as low as at any esta-blishment in the county. His long experience in the business, justifies him in the belief that he will be able to give gen-eral satisfaction, and therefore solicits from his customers a continuative of their patronage. IP All kinds of produce taken in exchange.
