Late from Col. Fremont-Safe Arrival at Santa 'Fe-Loss of Eleven Men.

Sr. Louis, March 30. We have received news from Santa Fe to the 25th of February. Col. Fremont had arrived there on his was to California, taking Cook's route. He lost eleven men on the mountain, from the severity of the weather. We have only three of the names-Wise, of St. Louis, and King and Prenss, of Washington. The name of the latter will be recollected as having been frequently mentioned by Col. Frement in the narrative of his first ex-

Col. Fremont did not reach the top of the mountains from the vicinity of which the last accounts received by Col. Benton left him. He was compelled to retire to the valley, where the snow fell to the depth of thirty or forty feet, covering up all his outfit and killing his mules. He then left the valley, and made his way through the hills, from whence he sent out a party to obtain relief and return within a stated period. Not doing so, Col. Fremont started after, and overtook them in six days. He finally reached Taos, and the survivors of party, being assisted by a party sent to their assistance, also arrived at that point. After they had sufficiently recovered from the fatigues they had undergone, Col. Fremont was supplied with another outfit by the Quartermester and Commissary, and he resumed his route to California.

probably be in California within thirty days.

Col. Webb's California Expedition Broken Up-Eight Deaths by tholera among the Party-Cholern at New Orleans

NEW ORLEANS, March 30. The steamer Globe, arrived here from HAMS AND SIDES, PHILADELPHIA. Brazos St. Jago, brings later dates from that SHOULDERS, section of country.

Col. Webb's California expedition has been broken up, partly on account of the ravages Burns, Scalds, and all kinds of inflamed Sores of cholera among them. Eight of the members died of the cholera on the Rio Grande including four New Yorkers. The Globe brought eighteen of the company on their re-

turn home. Mr. Audubon had been robbed of \$12,000 m gold, but succeeded in recovering \$4000. Col. Webb remained behind with Mr. Auduon, and the two were endeavoring to recover

nore of the plunder. There was much sickness on the Brazos. The Cholera is increasing in the city. The Canada's advices have caused a de-

line of 1 in the price of Cotton. The sales o-day amount to 8000 bales. Business is enerally brisk. The flood in the river is ubsiding.

> The Railroad. CINCINNATTI, March 30.

The election held by our citizens to-day, decide whether the city shall subscribe e million of dollars to the railroad from incinnatti to St. Louis, resulted in the trimph of the friends of the measure by a rge majority. This sum will be expended building the road from Cincinnatti as far the amount will allow, reserving a balance r the purchase of cars and locomotives, so to put this portion of the road into use as pidly as completed.

At a large meeting of the citizens of St mis, held last evening, a resolution to subribe for half a million for the same object, as passed unanimously.

WAGGERY .- Somebody expresses the hope at debtors who have absconded to Califora, will appropriate a portion of their "dust" paying their old debts! The idea is wory of nobody.

THE GRAND PURGATIVE

FOR THE CURE OF Hendache, Giddiners, Rheumatism, Piles, Dyspensia, Scurvey, Small Pox, Jaundice Small Pox, Januaries, Pains in the Back, Inward Weakness, Palpitnion of the Heart, Rising in the Throat, Dropsy, Asthma, Dropsy, Asthma, Fevers of all kinds, Female Complaints,

Chaira Mortons, Coughs, Quinsey, Whooping Cough, Consumption, Fits, Liver Complain, Erisinclus, Denfuers, Itchings of the Skin, Colds, Gout, Gravel, ous Complaint AND A VARIETY OF OTHER DISEASES ARISING FROM IMPURITIES OF THE BLOOD, AND OBSTRUCTIONS IN THE ORGANS OF

Measles Salt Rheum, Heart Burn, Worms, Chelera Morbus,

DIGESTION.

Experience has proved that nearly every Disease originates from Impurities of the Blood or detangements of the Digestives Organs; and to secure Health, we must remove those obstructi mor rescore the Blood to its institutabilitie.

The aversion to taking medicine is most effectually removed by CLICKNER'S VEGETABLE PURDATIVE PLLLs, being completely cavel sped with a conting of pure white Sugar, (which is as distinct from the internal ingredients as a nut shell from the kernel) and have no taste of medicine.

But are as easily swall used as bits of candy. Moreover they neither museute or gripe in the slightest degree, but operate equally on all the diseased parts of the system, instead of confining internselves to, and meking any particular region. Thus, if the Liver be affected one ingredient will operate on that particular organ, and, by cleaning it of an Excess of Rile resore it to its natured state. Another will operate on the Board and remove all impurities in its circulation; while a third will effectually expel whatever impurities may have been discharged into the stamach, and hence they strike at the root or disease remove all Impure Humars from the body, open the perce externally and internally; separate all foreign and observious particles from the chyle, so that the blood may be thoroughly pare—thus securing a free and healthy action to the Heart, Langsand Liver and thereby they restore health even when all other means have failed.

The entire truth of the above can be ascertained by the trial of a single box; and their virtues are as a sative and DIGESTION.

iled. entire truth of the above can be ascertained by the

CALIFORNIA GOLD!

DISCOVERED BY SIGNOR D'ALVEAR'S GOLDMETER! GOLD SEEKER'S GUIDE!

Secret Art of finding Mines of Gold, Silver, Iron, Lead, Copper, Coal, and other Mine-ral Riches. THE first discovery of Gold in Criffornia was made by DON JOSE D'ALVEAR, an eminent Spanish Geologist, Chemist and Natural Philosopher, by means of a newly invented Magnetic instroment, called . THE GOLDOMETER OR GOLD SEEKER'S

Signor D'Alvear has just arrived at New York, from the Gold regions of California, by way of Panama, Chagres, and New Orleans, bringing with him a very large quantity of Gold ore, valued at nearly one million of Dollars, which he collection. ted there, long before the existence of the Gold mines became known to the residents of California

HISTORY OF THE DISCOVERY! Signor D'Alvear went out to California nearly two years ago, in consequence of certain informa-tion which he had received of the geological char-acter of that country, with the firm belief that vast mines of precious metal would be revealed there upon careful investigation. He was encouraged to this enterprise, also by his confidence in the powers of a certain Magnetic instrument which he had invented, called "Goldometer," by whose aid he expected to be directed at once to the "Gold Placers," if any such existed. Nor were his expectations disappointed. His scientific calculations proved to be found in truth and profound wisdom, and his new instrument, the "Goldometer," fulfilled his highest hopes. In less than two months after reaching California, he struck upon one of the richest gold mines in that country, upon an obscure branch of the Sacrato river, in a gorge of hills extremely rockey and difficult of access, and seldom visited by the native Californians. Dis-guising his object under the pretence of purely scientific research, he obtained the aid of some fifteen or twenty simple and faithful Indians, and steadily pursued his task, collecting often more than \$2,000 worth of gold in a single day, which he concealed in a deep ravine, without exciting any suspicion whatever, until after the discovery of gold at Captain Sutter's Mill, when the mountains were ransacked by gold seekers, and Signor D'Al-vear's "gold placer," the richest in all California, was beset with greedy adventurers. It is now found that the real mines or sources of the gold, lie in the gorges of the mountains, and not in the beds or sands of the rivers. Previous to leaving California, Signor D'Alvear sold his instrument, the Goldometer, a very imperfect one, for \$3,000. The person who purchased it confidently expected to make a handsome fortune, by simply finding "gold placers" and selling out the right of digging

to the gold workers.

MANUFACTURE OF THE GOLDOMETER
PUBLICATION OF THE GUIDE. Signor D'Alvear, in compliance with the request of numerous scientific gentlemen, has commenced the manufacture of his new Magnetic Instrument, the Goldometer, which he now offers for sale, in the United States, at the remarkably low prine of \$3 each, accompanied by full instructions for use, and a variety of Philosophical hints drawn from

the ancient and modern science, or the ART OF FINDING MINES OF GOLD! Silver, Platinum, Quicksilver, Coal, Iron, Cop-per, Lead, and other Mineral Riches, the whole being given in a publication called the GOLD SEEKER'S GUIDE!

This new work, and the Goldometer, are now ready for sale.

The Goldometer is so simple an instrument. that a child may learn to operate with it in five minutes. It is not affected by climate, moisture or any other known cause, (except the natural magnet,) and will retain its power of pointing out mineral riches in the earth for any number of years. By the aid of the Guide any person may

use the instrument at ance with perfect success.

FARMERS AND LAND OWNERS. Farmers and Land Owners throughout the United States, who have reason to suspect the existence of any kind of Mineral riches upon their lands, should avail themselves of this opportunity to test that fact, by the surest of all known tests, before the abundance of discoveries in all parts of the country shall have lessened this source of

ADVENTURERS TO CALIFORNIA. Persons going to California cannot make a bet ter investment than by purchasing one of these instruments, which will not only be worth fifty times its value there, to sell again, but will be of inestimable worth to those who go in search of Gold, as has been proved by the most abundant experiment both in California and the United States

TESTIMONIALS. Signor D'Alvear does not does not deem cessary to encumber this notice with a long list of testimonials, in proof of the value of his GOLD-OMETER and GOLD-SEEKER'S GUIDE. The brilliant results of his labors in California, and the discovery, this very week, of fresh veins of Gold in Virginia, and beds of Coal in Rhode Islaud, by it use, are alone sufficient to stamp it as the greatest discovery of the age. Nothing but the extreme cheapness of the instrument, and his desire to see it used for the benefit of mankind induces him to dispose of it at the low price of which he offers it. Besides this, his own desire for wealth is nearly

antistacted.

The following Testimonials, in proof of the value of the Goldometer, selected from a great number equally satisfactory, must suffice for the

ASTOR HOUSE, N. Y., Dec. 21, 1848. The undersigned, having this day withessed the practical operation of Signor Jose De Alvear's newly invented magnetic instrument, the Gold-emoter, feel entirely satisfied that it possesses the extraordinary power of desecting Mineral ores hidden beneath the surface of the earth, and have no doubt that it will prove invaluable sid in the discovery of the Mineral resources of the United ates and the world.

J. R. DHAPER, Jr., Chemist. L. S. TIERMANN, Magnetic Ins. Maker, G. S. DANA, Geologist.

Los Angrios, California, Aug. 1848.

This may certify that the undersigned is fully convinced that Signor Jose De Alvear was the first discoveror of the Gold desposites of California, and that this discovery was made by the aid of a Magnetic instrument called the Goldometer, which I have seen successfully applied to the discovery of veins of Goldore, places where no indications of the earth.

T. W. SHERMAN,

Lieut, 3d Artillery, U. S. Army,

NO AGENTS.

In consequence of the difficulty of finding faithful agents, and of preventing frauds, where articles of this nature are sent out for general sale, Signor Heave powder for diseases of the lungs, 75c dc.
Urine powder for "kidneys, 75c do.

LOOK OUT FOR FRAUD.

The triumphant success of Andrews Pain Killer in removing the causes that produce death, the untimely death of millions of our race, has induced some men of whem it may be truly said, their villamous occupations manifest their villaliny, to attempt to put in circulation, spurious and counterfeit articles called "Pain Killer," using fictitious names for the pretended author, forged certificates, &c. Some have appeared, and others no doubt will appear. Let all remember that Andrews Genaine Pain Killer has the written signature of I. Andrews on the label of each bottle in black ink. Don't simply ask for Pain Killer, but ask for Andrews Pain Killer, and have no other.

It is too precious a boon to be tampered with, by trying all sorts of experiments upon it. The sick should use those A PHYSICIAN'S TESTIMONY. [From Catakill, Green County, New York.]
Dr. W. Weight—Dear Sir: I have found your Indian

Vegetable Pills a valuable remedy in cases of General De-bility of the system, and in all Billious disorders. I am also in the habit of recommending them to femnies in posuliar I observe them to sperate in the system without producing debility or pain, leaving it in a healthy condition.

JOHN DOANE, M. D. June 20, 1818. THE BEST FAMILY MEDICINE. [From Norton Hill, Green County N. Y.]

Dr. Wright: We have used and sold your Indian Vegeta* ble Pills for three years past, and do not hesitate to recommend them to our friends and customers as the best Family

e. N. & L. Ramsum.t..
[From Marble Hall Ph.] Medicine in use. To Dr. W. Wright-Dear Sir : For the last two years have had the agency for the sale of your Indian Vegetable Pills at this pace, and have sold annually large quantities at retail. They have in every instance given entire satisfac-sion. Many families in ricis section keep them, and consider them invaluable as a family medicine. There is no medicine sold here that can be so universally recommended as Wright's Indian Vegetable Pills. Yery truly yours,

February 1, 1848. W. M. LUKENS TESTIMONY OF ANOTHER PHYSICIAN. The following letter is in reply to a note from our agent asking Dr. Bouton's opinion of this medicine:

Tunkhannock, August 29, 1848.
Mr. A. Durham-Dear Sir: In reply to your note of yesterday, I would state, that I have occasionally found it conveniet to use the various "Patent Pills" vended in the shops and while I am unwilling to say anything to depreciate th value of others, I am free to confess that I consider Wright's Indian Vegetable Pills superior to all others with which I am acquainted. I have used them for many years both in my own family and in my practice generally, and they have uniformly proved mild, certain and safe in their operations. The care and skill with which these pills have been hitherto manufactured are, in my opinion, a sufficient guarantee for like good results in future. Very respectfully,

B. A. BOUTON, M. D. Mr. B is a practitioner of long experience, well known in and even beyond the lines of Wyoming county. He is a graduate of Pennsylvania, and highly popular with the people among whom he resides.

Beware of Sugar Coated Counter-

Remember that the original and only genuine Indian Vegetable Pills have the written signature of Wm. Wright on the top label of each box.

Agr culture. A VALUABLE HINT TO FARMERS.

The celebrated Robert Bakewell, of D'sh-

lay, Leicestershire, and the founder of the

new Leicester sheep, used to tell an anecd ste

with exceeding high glee of a farmer not

only of the old school, but of the olden times:

This farmer, owned and occupied 1000 acres of land had three daughters When his eldest daughter married, he gave her one conriter of his land for her portion, but no money; and he found, by a little more speed and r little better management, the produce of his farm did not decrease. When his second daughter married, he gave her one third of the remaining land for her portion, but no money. He thou set to work, and began to atalogue of its triumphs.

A MILLION OF BOXES are distributed annually withgrub up his forze and fern, and ploughed up, when the furze covered in some closes nearly prise he found that his produce increased , he made more money because his new broken up forze land brought excessive crops. and at the same time he farmed the whole of his land better, for he employed three times more laborers upon it; he rose two hours sooner in the morning, had no more dead fallow once in three years; instead of which he got two green crops in one year, and ate them upon the land. A garden never requires a dead fallow. But the great advantage was, he had got the same money to manage 500 acres as he had to manage 1000 acres; therefore he laid out double the money upon the land. When his third and last daughter married, he gave her 250 acres, or half what remained, for her portion and no money. He then found that he had the same money to farm one quarter of the land as he had at first to farm the whole. He began to ask himself a few questions, and set his wits to work how he was to make as much of 250 as he had done of 1000 neres. He then paid off his bailiff, who weighed twenty stone! rose with the larks in the long days, and went to bed with the lamb; he got as much more work done for his money ; he made his servants, laborers, and horses, move faster.; broke them from their snail's pace; and found that the eye of the master quickened the pace of the servant. He saw the beginning and the ending of everything; and to his servants and laborers, instead of saying. "Go and do it," he said to them, "Let us go. my boys, and do it." Between come and go he found out a great difference. He grabbed up the whole of his furze and ferns, and ther ploughed the whole of his poor grass land up, and converted a great deal of corn into ment for the sake of manure, and he preserved his blank water, (the essence of manure;) cut his hedges down, which had not been plashed for forty or fifty years; straightened his zigzag fences; cut his water courses straight and gained a deal of land by doing so; made dams and sluices, and irrigated all the land. he could; he grubbed up many of his hedges and borders covered with bushes, in some places from 10 to 14 yards in width, some more in his small closes, some not wider than streets; and threw three, four, five, and six closes into one. He found out that, instead of growing white thorn hedges and haws to feed foreign birds in the winter, he cogrow food for man instead of migratory birds. After all this improvement he grew more and more of 250 acres than he did from 1000; at the same time he found out thathalf of England at that time was not celtivated from the want of means to cultivate it with. I let him rams and sold him longhorned bulls, (said R. Bakewell,) and told him the real value of labor, both in-doors and out, and what ought to be done with a certain number of men, oxen, and horces, within a given time. I taught him to sow less and plough better; that there were limits and measures in all things; and that the husbandman ought to be stronger than the farm I told him how to make hot land colder, and cold land hotter, light land stiffer. and stiff land lighter. I soon caused him to shake off all his old deep-rooted prejudices, and I grafted new ones in their places. I told him not to breed inferior cattle, sheep or horses, but the best of each kind, for the best consumed no more than the worst. My friend became a new man in his old age, and died rich .- Gardiner's Chronicle. 2000 PREMIUM BLINDS.
