POETRY.

☞ The following lines are evidently from a youthful aspirant to "poetic fame" who is anxious to see herself in print; and as we would rather encourage, than dampen the ardor of youthful genius, we give them a place in our columns. Lest some of our readers should be disposed to scan the verses of "Claire" with a critics eye, we would suggest they probably have the merit of containing "more truth than poetry." If so, the young man who was "that night" exposed by the moon breaking through a cloud, to her who observed his "nightly revels" with "despair," must be desperate indeed, if he does not profit by this lesson.

For the American.

NIGHT.

Calm thou art in thy mystic light,
Glorious and beautiful night!
The lone star of even' gives note of thy coming;
'Tis followed by twilight roaming,

As twilight fades gem after gem,
Shines forth in the Heavenly diadem;
Followed by the mild queen of night,
Asserting o'er the beautiful train her right.

Imagination wanders forth, 'tis her hour
To the forest, where the darkened shadows lower
To the bubbling rill, where the fairy laves her tiny feet;
To the bent oak seat, where lovers often meet.

Night is the time to rest from toil and cares,
In the airy visions that dream land wears,
'Tis the hour for the reckless assassin to seek
Plunder and murder, darkness may cover the mock.

Ah! why so unhallowed this magic hour,
With staggering step, and swaggering power!
'Tis *young man* because thy deeds are dark and young,
And *thou* thinkest that darkness will leave them all unsung.

We oft told *her* of thy nightly revels,
But she would not raise thee to that level.
On the still night wind, thy voice was borne above,
To where we sat, yet she believed not; such is woman's love.

Her. I oft saw watch thee with a proud glance,
As thy manly form step'd lightly through the dance;
But alas! *that night*; can I paint her despair
The moon broke from a cloud, exposing *thee* there.

Night! 'tis the time to break from earth, away! away!
Far up in the blue sky, to list to the night stars lay;
Then pray! mortal pray! that thy home may be on high,
When on earth thou breath'st thy last sigh.

AUTHENTIC INTELLIGENCE OF GOLD COMING FROM SAN FRANCISCO.—We are permitted to publish the following extract from a letter, written to a highly respectable mercantile house of this city, by a gentleman who left here in November last for California, via Cape Horn. The letter was received this morning.—*N. Y. Mirror.*

VALPARAISO, 25th February, 1849

Dear Sirs—Great was my astonishment on my arrival here, on the 14th inst., to find over a million of dollars worth of gold from California on board of a vessel in the harbor, bound for the United States.

I have seen $250,000 worth in bars and washings, the proceeds of two cargoes, the "Udine," and the "Virginia," sold by Ward & Smith at San Francisco. The "Virginia" returned with the gold, and the "Udine" had sailed for Canton; more than 20 cargoes have been sent from this port, and 17 are now shipping from San Francisco.

AT QUINCY, Illinois, on the 20th ult., there were five fatal cases of cholera.

Three splendid new cars, with India rubber springs, are this week to be placed on the Oswego and Syracuse Railway.

A Yankee is said to have shipped a couple of hogs for the gold diggings in California—to root up the "filthy lucre."

THE LOUISVILLE JOURNAL says, it is supposed that five thousand persons will leave Port Smith some time this month for California.

LITTLE MEN.—Little men can neither lie long in bed nor wear *great* coats.

COUNTERFEITS.—Counterfeit notes, of the denomination of five dollars, on the Merchants' and Manufactures' Bank of Pittsburg, are in circulation in Baltimore.

THERE WERE $850,000 in coin in the Subtreasury at Boston on Wednesday last.

BOARDING.

AND A VARIETY OF OTHER DISEASES ARISING FROM IMPURITIES OF THE BLOOD, AND OBSTRUCTIONS IN THE ORGANS OF DIGESTION.

Experience has proved that nearly every Disease originates from Impurities of the Blood or derangements of the Digestives Organs; and to secure Health, we must remove those obstructions or restore the Blood to its natural state.

The averson to taking medicine is most effectually removed by CLICKNER'S VEGETABLE PURGATIVE PILLS, being completely envelaped with a coating of pure white Sugar, (which is as distinct from the internal ingredients as a nut shell from the kernel) not have no taste of medicine.

But are as easily swallowed as bits of candy. Moreover they neither nauseate or gripe in the slightest degree, but operate equally on all the diseased parts of the system, instead of confining themselves to, and tacking any particular region. Thus, if the Liver be affected one ingredient will operate on that particular organ, and, by cleansing it from excess of Bile restore it to its natural state. Another will operate on the Board and remove all impurities in its circulation; while a third will effectually expel whatever impurities may have been discharged into the stomach, and hence they stir up the root of disease remove all Impure Humors from the body, open the pores externally and internally; separate all foreign and obnoxious particles from the chyle, so that the blood may be thoroughly pure—thus securing a free and healthy action to the Heart, Lungs and Liver and thereby they restore health even when all other means have failed.

The entire truth of the above can be ascertained by the trial of a single box; and their virtues are so positive and certain in restoring Health, that the proprietor binds himself to return the money paid for them in all cases where they do not give universal satisfaction.

COLUMBIAN SERIES OF

Arithmetics.

The Pupil's friend and Teacher's comfort.

THE COLUMBIAN CALCULATOR.—This work is already introduced into some of the best Academies and a large number of Schools, where its use has given decided and universal satisfaction, both to teacher and pupil. It is purely American in its character, based upon our own beautiful *decimal system of currency*. It contains more, the arrangements are better, and it is the easiest and cheapest work of the kind now in use; and it is so considered by hundreds of the most competent teachers and men of science in the Union, who have recommended it. It is the book, particularly and expressly prepared for our *American Scholars: By Almon Tielnor.*

THE YOUTH'S COLUMBIAN CALCULATOR.—This volume contains 91 pages, with about 900 examples for solution on the slate. It embraces the Fundamental Rules, Compound Rules, Simple and Compound Reduction, Single Rule of Three, Proportion, &c.

TICKNOR'S ARITHMETICAL TABLES, is destined for the use of younger classes in the Schools of the United States. A beautiful little book and pleasing to children, and the only one of the kind of any value.

There are Keys to both Arithmetics bound single or double, for the convenience of teachers, in which the solutions of the questions are given with much extra matter for the black board. These Keys are the most complete works of the kind ever published, and contain, in addition, about two hundred examples in Mensuration, &c., for the use of the Teacher. All that is wanted is to have the above books examined, and no teacher who is acquainted with the science of Arithmetic, will hesitate to pronounce them the best works that have ever been published in this or any other country.

Although issued but a few months, they have already been introduced into the Night Public Schools of New York City—in all the Schools public and private, except two, in the City of Reading. Also, in about twenty Academies in the State of Pennsylvania—in a large portion of the Schools in the City of Wilmington, in the City of Lancaster, and in the Boroughs of Harrisburg, York, Chambersburg, Lebanon, Doylestown, Pottsville, Orwigsburg, &c., &c.

CALIFORNIA GOLD!

DISCOVERED BY

SIGNOR D'ALVEAR'S GOLDMETER!

THE

GOLD SEEKER'S GUIDE!

OR

Secret Art of finding Mines of Gold, Silver, Iron, Lead, Copper, Coal, and other Mineral Riches.

THE first discovery of Gold in California was made by DON JOSE D'ALVEAR, an eminent Spanish Geologist, Chemist and Natural Philosopher, by means of a newly invented Magnetic instrument, called

THE GOLDOMETER OR GOLD SEEKER'S GUIDE!

Signor D'Alvear has just arrived at New York, from the Gold regions of California, by way of Panama, Chagres, and New Orleans, bringing with him a very large quantity of Gold ore, valued at nearly one million of Dollars, which he collected there, long before the existence of the Gold mines became known to the residents of California generally.

HISTORY OF THE DISCOVERY!

Signor D'Alvear went out to California nearly two years ago, in consequence of certain information which he had received of the geological character of that country, with the firm belief that vast mines of precious metal would be revealed there upon careful investigation. He was encouraged to this enterprise, also by his confidence in the powers of a certain Magnetic instrument which he had invented, called "Goldometer," by whose aid he expected to be directed at once to the "Gold Placers," if any such existed. Nor were his expectations disappointed. His scientific calculations proved to be found in truth and profound wisdom, and his new instrument, the "Goldometer," fulfilled his highest hopes. In less than two months after reaching California, he struck upon one of the richest gold mines in that country, upon an obscure branch of the Sacrato river, in a gorge of hills extremely rocky and difficult of access, and seldom visited by the native Californians. Disguising his object under the pretence of purely scientific research, he obtained the aid of some fifteen or twenty simple and faithful Indians, and steadily pursued his task, collecting often more than $2,000 worth of gold in a single day, which he concealed in a deep ravine, without exciting any suspicion whatever, until after the discovery of gold at Captain Sutter's Mill, when the mountains were ransacked by gold seekers, and Signor D'Alvear's "gold placer," the richest in all California, was beset with greedy adventurers. It is now found that the real mines or sources of the gold, lie in the gorges of the mountains, and not in the beds or sands of the rivers. Previous to leaving California, Signor D'Alvear sold his instrument, the Goldometer, a very imperfect one, for $3,000. The person who purchased it confidently expected to make a handsome fortune, by simply finding "gold placers" and selling out the right of digging to the gold workers.

MANUFACTURE OF THE GOLDOMETER

PUBLICATION OF THE GUIDE.

Signor D'Alvear, in compliance with the request of numerous scientific gentlemen, has commenced the manufacture of his new Magnetic Instrument, the Goldometer, which he now offers for sale, in the United States, at the remarkably low prine of $3 each, accompanied by full instructions for use, and a variety of Philosophical hints drawn from the ancient and modern science, or the

ART OF FINDING MINES OF GOLD!

Silver, Platinum, Quicksilver, Coal, Iron, Copper, Lead, and other Mineral Riches, the whole being given in a publication called the

GOLD SEEKER'S GUIDE!

This new work, and the Goldometer, are both now ready for sale.

The Goldometer is so simple an instrument, that a child may learn to operate with it in five minutes. It is not affected by climate, moisture, or any other known cause, (except the natural magnet,) and will retain its power of pointing out mineral riches in the earth for any number of years. By the aid of the Guide any person may use the instrument at once with perfect success.

FARMERS AND LAND OWNERS.

Farmers and Land Owners throughout the United States, who have reason to suspect the existence of any kind of Mineral riches upon their lands, should avail themselves of this opportunity to test that fact, by the surest of all known tests, before the abundance of discoveries in all parts of the country shall have lessened this source of wealth in their estate.

ADVENTURERS TO CALIFORNIA.

Persons going to California cannot make a better investment than by purchasing one of these instruments, which will not only be worth fifty times its value there, to sell again, but will be of inestimable worth to those who go in search of Gold, as has been proved by the most abundant experiment both in California and the United States

TESTIMONIALS.

Signor D'Alvear does not does not deem it necessary to encumber this notice with a long list of testimonials, in proof of the value of his GOLDOMETER and GOLDSEEKER'S GUIDE. The brilliant results of his labors in California, and the discovery, this very week, of fresh veins of Gold in Virginia, and beds of Coal in Rhode Island, by it use, are alone sufficient to stamp it as the greatest discovery of the age. Nothing but the extreme cheapness of the instrument, and his desire to see it used for the benefit of mankind induces him to dispose of it at the low price of which he offers it. Besides this, his own desire for wealth is nearly satisfied.

The following Testimonials, in proof of the value of the Goldometer, selected from a great number equally satisfactory, must suffice for the suffice for the present:

ASTOR HOUSE, N. Y., Dec. 21, 1848.

The undersigned, having this day witnessed the practical operation of signor Jose DeAlvear's newly invented magnetic instrument, the GOLDOMETER, feel entirely satisfied that it possesses the extraordinary power of dessecting Mineral ores hidden beneath the surface of the earth, and have no doubt that it will prove invaluable aid in the discovery of the Mineral resources of the United States and the world.

J. R. DRAPER, Jr., Chemist,
L. S. TIERNANS, Magnetic Ins. Maker,
G. S. DANA, Geologist.

LOS ANGELES, California, Aug. 1848.

This may certify that the undersigned is fully convinced that Signor Jose De Alvear was the first discoverer of the Gold deposites of California, and that this discovery was made by the aid of a Magnetic instrument called the Goldometer, which I have seen successfully applied to the discovery of veins of Gold ore, places where no indications of the earth.

TESTED BY THOUSANDS AND

UNANIMOUSLY APPROVED!

Every day is this celebrated medicine extending the sphere of its usefulness, and every year adding to the long catalogue of its triumphs.

A MILLION OF BOXES are distributed annually without fully meeting the demand! For some time past, the sales have been limited solely for want of facilities of supply. Truly this is a universal remedy! Unherald, these pills have found their way into the remotest corners of the Union, everywhere proving their title as the poor man's friend—rich man's hope—the marvel and blessing of the age.

For a trifling sum, every individual and every family may have HEALTH INSURED to them for an indefinite period; and what is life without health but a miserable existence!

It is too precious a boon to be tampered with, by trying all sorts of experiments upon it. The sick should use those medicines only which experience has shown to be the best.

[From Marble Hall Pa.]

To Dr. W. Wright—Dear Sir: For the last two years I have had the agency for the sale of your Indian Vegetable Pills at this place, and have sold annually large quantities at retail. They have in every instance given entire satisfaction. Many families in this section keep them, and consider them invaluable as a family medicine. There is no medicine sold here that can be so universally recommended as Wright's Indian Vegetable Pills. Very truly yours,

TESTIMONY OF ANOTHER PHYSICIAN.

The following letter is in reply to a note from our agent asking Dr. Boutin's opinion of this medicine:

TENNHASSOCK, August 29, 1848.

Mr. A. Durham—Dear Sir: In reply to your note of yesterday, I would state, that I have occasionally found it convenient to use the various "Patent Pills" vended in the shops; and while I am unwilling to say anything to depreciate the value of others, I am free to confess that I consider Wright's Indian Vegetable Pills superior to all others with which I am acquainted. I have used them for many years both in my own family and in my practice generally, and they have uniformly proved mild, certain and safe in their operation. The care and skill with which these pills have been hitherto manufactured are, in my opinion, a sufficient guarantee for like good results in future. Very respectfully,

E. A. BOUTIN, M. D.

Mr. B is a practitioner of long experience, well known in and even beyond the lines of Wyoming county. He is a graduate of Pennsylvania, and highly popular with the people among whom he resides.

Beware of Sugar Coated Counterfeits.

Remember that the original and only genuine Indian Vegetable Pills have the written signature of Wm. Wright on the top label of each box.
