## Miscellaneous Matter.

NAUVOO, ILLINOIS .- Nanvoo, Illinois, is becoming an object of attention again in the West. The Missouri Republican contains a

West. The Missouri Republican contains
letter from Nauvoo, which says:

Only a week since, there was an arrival at
Nauvoo, of three hundred citizens of France,
who are seeking that repose in quiet of our
own well regulated government which they
could not enjoy amid the stormy and procould not enjoy amid the stormy and procontaining spirit which has so long agitated
serintive spirit which has so long agitated

and Pain in the Side,
and Pain in the Side, their own country. This band of emigrants, struck with the picturesque beauty of the place, and impressed with the fertility of the sorrounding country and the healthfulness of the locality, have come to the conclusion that no place can be better adapted to their wants than Nauvoo. This company of emigrants is headed by the distinguished Cabet, who is determined to make this place a nucleus for emigration. It is said that seven hundred, who belong to the same association, are expected to meet their friends here in a short time, and that thirty thousand, who are still in France, and who are said to belong to the brotherly fraternity, will emigrate and settle with their brethren who are already in the United State, under the flattering expectations that Nauvoo will be made the nucleus of this emigration.

PLEASANT AMUSEMENT .- "Ma, ma, cousin Bill he's in the parlor with sister Jane, and he keeps biting her."

"What, William biting my Jane!" "Yes'm, I seed him do it ever so many times; bite her rite on the mouth, and the tarnal gal didn't holler a bit, mother." "Ah! never mind Ned, I guess he didn't

hurt her much." "Hurt her! cracky, why she loves it, she does; cos she kept letting him, and didn't say nothing, but just smacked her lips as if it was good, she did; I seed it all through the keyhole. I'll fire taters at him next time. see if I don't."

G. P. R. JAMES, the novelist, has commen eed writing little books for little children .-He has tired out the grown people.

The great central coal field of the Missississippi valley covers an area of 70,000 square miles, or 44,800,000 square acres-six times the area of all the coal fields in Great Britain; and yet, this vast supply is seldom taken into the account when estimates are made of the coal resources of the United States.

More or it .- Mr. De Witt, of the firm of De Witt & Co., arrived at New York, on Monday, the Sun of that city says, from San Francisco, (California,) with \$50,000 in gold dust from the mines.

MORALS IN TEXAS .- A Galveston paper,

Over Eating Apples .- A lump of salaratus of the size of a common apple, dissolved in water, will give instantaneous relief to cattle that have eaten too liberally of apples.

CHOLIC IN HORSES .- Dissolve in a quart of pure water as much salt as will thoroughly eaturate the liquid, and drench the animal thoroughly until you discover symptoms of relief. This is a simple and effectual remedy, and has been successfully applied in cases of botts.

CURE FOR FOUNDER .- Mix one pint of the seed of the common sunflower in the animal's food as soon as you discover symptoms of founder, and you will give immediate and certain relief. This the best remedy known.

REMEDY FOR THE GALLS ON THE BACKS OF Horses .- Anoint them with an ungent composed of white lead and milk. I cases of long stading, it will be necessary to repeat the application frequently. Milk is prefera-

To PRESERVE FLOWERS .- Ladies who wish to preserve flowers are recommended to try nitrate of soda. As much as can be held between the thumb and finger placed in the water with the flowers will preserve them fresh, it is said, for a fortnight.

Couch Syave .- Take Thoroughwort Hoarhound and Pennyroyal, of each a good handful, and boil them in just water enough to extract the strength; then strain off the liquor, and add an equal quantity of molasses, and boil until it form a caudy. Eat freely of this every time an inclination to cough is felt, and your cough will soon leave you.

SOFT GINGER BREAD, TO EAT WITH CORN Bren .- Take four tea-caps full of flour, two of molasses, one half do, of butter, two of buttermilk, one of thick cream, three eggs, one table-spoonful of ginger, and the serve of spoonful of ginger, and the same of alerates. Mix them all together, except the stermilk and saleratus; the later should be dissolved in the buttermilk and added to the saidue. Instead of two cups of molasses, prefer it. Bake soon after mixing, and eat warm or cold - Exchange Is staff transmission.

cases of consumption reported as cured by the use of Dr. Townsen's Sarsaparilla. The following was recently received:

Dt. Townsend—Dear Sir: For the last three years I have been afflicted with general debility, and nervous consumption of the last stage, and did not expect to ever gain my health at all. After going through a course of medicine under the cure of some of the most distinguished regular physicians and members of the Board of Health in New York and elsewhere, and spending the most of my earnings in attempting to regain my health, and after reading in some paper of your Sursaparilla I resolved to try it. After using six bottles I found it done me great good, and called to see you at your office; with your advice I kept on, and do most heartdy thank you for your advice. I persevere in taking the Sarsaparilla, and have been able to attend to my usual labors for the last four mentus, and I hope by the blessings of God and your Sarsaparilla to continue my usual labors for the last four mentus, and I hope by the blessings of God and your Sarsaparilla to continue my health. It helped me beyond the expectations of all who knew my case.

Read the following, and say that consumption is in incurable if you can:

New York, April 23, 1847.

Dr. Townsend: I verify believe that your Sirsapariila has been the means, through Providence, of saving my life I have for several years had a bad cough. It became worse and worse. At last I raised large quantities of blood, had night sweats and was greatly debilitated and reduced, and did not expect to live. I have only used your Sersapariila but a short time, and there has a wonderfai change been wrought in me. I am now able to walk all over the city.—
I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results. Your obedicat servant.

LOST HER SPEECH.

The annexed certificate tells a simple and truthful story of suffering and relief. There are thousands of similar cases in this city and Brooklyn, and yet there are thousands of parents let their children die for fear of being humbagged or to save a few shillings.

Brooklyn, Sept. 13, 1847.

Dr. Tewnsend: I take pleasure in stating, for the benefit of those whom it may concern, that my dangater, two years and six months old, was afflicted with general debility and loss of speech. She was given up as post recovery by our family physician; but fortunately I was recommended by a friend to try your Sarsapariila. Before having used one bottle she recovered her speech and was enabled to walk alone, to the astonishment of all who were acquainted with the circumstances. She is now quite well, and in much better health than she has been for Is months past.

JOSEPH TAYLOR, 128 York st., Brooklyn.

TWO CHILDREN SAVED.

Very few families indeed—in fact we have not heard of one—that used Dr. Twonsend's Sarsapariila in time, lost any children the past Summer, while those that did not, sickened and died. The cercificate we publish below is conclusive evidence of its value, and is only another instance of its saving the lives of children:

Dr. Townsend-Dear Sir. I had two children cured by your Sarsaparii

where your medicine has effected great cures; and also hearing it recommended for such cases as I have described, I obtained a bottle of your Extract of Sorsaparilla and followed the directions you gave me. In a short period it removed her complaints and restored her to health. Being greatful for the benefits she received, I take pleasure in thus acknowledging it, and recommending it to the public.

DYSPEPSIA.

No fluid or medicine has ever been discovered which so nearly resembles the gastric fluice or saliva in decomposing food and strengthening the organs of digestion as this preparation of Sarsaparilla. It positively cures every case of dyspepsia, however severe or chronic.

Dr. Townsend—Sir: I have been efficient extreme henriturn, and a great aversion to all kinds of food, and for weeks, (what I could earl) I have been unable to retain but a small portion on my stomach. I tried the usual remedies, but they had but little or no effect in removing the complaint. I was induced, about two months since, to try your Extract of Saraparilla, and I must say with little confidence; but after using nearly two bottles, I found my appetite restored and thu hearthurn entirely removed; and I would carnessly recommend the use of it to those who have been afflicted as I have been. BRUVEMATISM.

Dr. Druke's Panucen is used with the greatest success in Rheumatic Compsimits, especially such as chronic. It cures by driving out all impartites and foul humours which have accumulated in the system, which are the cause of Rheumatism, Gout, and Swellings of the paints. They were pronounced by the attending physicians to be PULMONARY CONSUMPTION, and alandoned by them as in CUBARLE. One of the persons had been under the treatment of several very able practitioners for a number of years, and they said she had "old fashioned Consumption combine with Scrodia," and that she might linger for some time but could not be permanently relieved. In both cases the effect of the Punacea has been most gratifying. Only four or five bottles were used by one of the persons before she began to improve rapidly. The other took about ten. I will only addithat familiar as I am with consomption by inheritance and by extensive observation as a study, and knowing also the injurious effects in time cases out of ten of tar, beneset, and other vegetable tonics, as well as of many of the expectorants and solutives, I should never have recommended the use of Drake's Panacea if I had not been acquainted with the ingredients. Suffice it to say that these ore recommended the use of Drake's Panacea if I had not been acquainted with the ingredients. Suffice it to say that these ore recommended by our most popular and scientific physicians, and in their present combined state, form probably the best alternive that has ever been made. The cure is in secontaince with a theory of Consumption bronched in France a few years ago, by one of her most eminent writers on medicine, and now established by facts which admit of no dispute.

Very Respectfully Yours, L. C. GUNN. To use the language of another, "Dr. Drake's Panneen in always salistary in its effects—never injurious. It is not as Opiate—it is not and Expectorant. It is not intended to full the invalid into a fatal security. It is a great remedy—a grand healing and curative compound, the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquered malady. And no person afflicted with this dread disease, will be just to himself and his friends, if he go down to the grave without testing its virtues. A single bottle, in most cases, will produce a favorable change in the condition of any patient, however low."

TO THE LADIES. TO THE LADIES.

Ladies of pale complexion and consamptive habits, and such as are debiliated by those obstructions which females are hable to, are restored by the use of a bottle or two, to become vigor. It is by far the best remedy ever discovered for weakly children, and such as have bad hamors; being pleasant, they take it. It immediately restores the appetite, strength and color.

Nothing can be more surprising than its invigorating effects on the human frame. Persons, all weakness and lassitude before taking it, at once become robust and full of energy under its influence. It immediate counteracts the nervelessness of the female frame.
