NEW TRIAL REFUSED. -In the Nisi Prius, on Saturday, the motion to grant a new trial to the defendants in the Hinchman case, and the opposing motion of plaintiff to make parties the defendants who had been acquitted, came up before Judge Burnside. The Judge said he did not want to he a any argement, as he had concluded to refuse to grant a new trial. The counsel for defendants asked to press one te son alleged for a new trial "that was, that undue means had been taken to prejudice the jury against the defendants." This was by means of newspaper comments; and Mr. Gibbons brought into Court a large collection of daily and weekly newspapers, containing reports of the case, and comments upon it after it was over. These papers, Mr. Gibbons said, had exercised great influence upon the jury, and he asked that they might be filed as part of the record, and taken to the Supreme Court. He said it was a rule of the English law, that whenever, during the course of a trial, the newspapers attempted to influence a case, even though the party benefitted by it had no connection with the matter, to grant a new trial on that point alone. Mr. G. read from Graham, on new trials, a case in which, before the trial, handbills had been posted up over a city, containing ex parte statements as to the cause, and had also been distributed in Court before the trial, and given to the audience and jurors. The Judge said that was hardly a case in point; if there were publications in the papers caculated to effect the case, the jurymen had nothing to do with them. He did not know that the jury in this case had seen the publications alluded to; they may have had an effect, and they may not have had, he expressed no opinion on the subject. The doctrine of the English law never was law in this country. In this State the liberty of the press was guarantied, and he was not disposed to meddle with it. He believed that the force of public opinion somtimes bore against parties; whenever it was so, he had always leaned strongly against it in favor of the other side, and he believed he had done so in the present case. The newspapers could not be made part of the record-they had nothing to do with it; and the Supreme Court, if the case was taken there, would not look at them. There was no use of disensing the question; he had determined to discharge both rules for a new trial, and order judgement in favor of the plaintiff. The defendants then took a writ of error to the Supreme Court, entering surety in \$20,000. The sureties are, William Scattergood, Horatio C. Wood, Joseph B. Matlack, Joseph Elkinton, Wm. Kinsey. David Scull, and Mordecai L. Dawson .- Phila. Ledger.

A daughter of Major General Sewart, in England, only 15 years of age, was so fond of a horse she was accustomed to ride, as often to go into his stall and feed him with her own hands. Not long since she was found dead between the horse's legs, covered with

AND A VARIETY OF OTHER DISEASES ARISING FROM IMPURITIES OF THE BLOOD, AND

DIGESTION.

Experience has proved that nearly every Disease originates from Impurities of the Blood or derengements of the Digestives Organs; and to secure Health, we must remove those obstructs into or restage the Blood to its natural state.

The aversion to taking medicine is most effectually removed by CLICKNESS VEGUTARIS FUEGATAINE PILES, being completely enveloped with a coating of pure white Sogar, (which is as distinct from the internal ingredients as a not shell from the kernel) and have no tasts of medicine.

But are as easily swall-wed as bits of candy. Moreover they neither manuste or gripe in the slightest degree, but operate equally on all the diseased parts of the system, instead of couldning themselves to, and racking any particular region. Thus, if the Liver be affected one ingredient will operate on that particular organ, and, by cleaning it of an Excess of Hile restore it to its natured state. Another will operate on the Board and remove all impurities in its circulation; while a third will effectually expet whatever impurities may have been discharged into the atomach, and hence they strike at the root or disease remove all Impure Humora from the body, open the porce externally and internally; separate all foreign and chooxious particles from the chyle, so that the blood may be thoroughly pure—thus securing a free and healthy action to the Heart, Lungsand Liver and thereby they reatore hashe even whos all other means have failed.

The entire truth of the above can be ascertained by the trial of a single box; and their virtues are so positive and certain in restoring Health, that the proprietor biods himself to return the money paid for them in all cases where they do not give universal satisfaction. DIGESTION.

CALIFORNIA GOLD! DISCOVERED BY SIGNOR D'ALVEAR'S GOLDMETER

GOLD SEEKER'S GUIDE!

THE first discovery of Golo in California was made by DON JOSE D'ALVEAR, an eminent Spanish Geologist, Chemist and Natural Philosopher, by means of a newly invented Magnetic instroment, called tic instroment, called THE GOLDOMETER OR GOLD SEEKER'S

GUIDE!
Signor D'Alvear has just arrived at New York, from the Gold regions of California, by way of Panama, Chagres, and New Orleans, bringing with him a very large quantity of Gold ore, valued at nearly one million of Dollars, which he collected there, long before the existence of the Gold mines became known to the residents of California generally. enerally.
HISTORY OF THE DISCOVERY!

two years ago, in consequence of certain informa-tion which he had received of the geological charcater of that country, with the firm belief that vast upon careful investigation. He was encouraged to this enterprise, also by his confidence in the powers of a certain Magnetic instrument which he had invented, called "Goldometer," by whose aid he expected to be directed at once to the "Gold Placers," if any such existed. Nor were his expectations disappointed. His scientific calculations proved to be found in truth and profound wisdom, and his new instrument, the "Goldometer," fulfilled his highest hopes. In less than two months after reaching California, he struck upon one of the richest gold mines in that country, upon an obscure branch of the Sacrato river, in a gorge of hills extremely rockey and difficult of access, and seldom visited by the native Californians. guising his object under the pretence of purely scientific research, he obtained the aid of some fifteen or twenty simple and faithful Indians, and steadily pursued his task, collecting often more than \$2,000 worth of gold in a single day, which he concealed in a deep ravine, without exciting any suspicion whatever, until after the discovery of gold at Captain Sutter's Mill, when the mountains were ransacked by gold seekers, and Signor D'Al-vear's "gold placer," the richest in all California, was beset with greedy adventurers. It is now found that the real mines or sources of the gold, lie in the gorges of the mountains, and not in the beds or sands of the rivers. Previous to leaving California, Signor D'Alvear sold his instrument, the Goldometer, a very imperfect one, for \$3,000. The person who purchased it confidently expected to make a handsome fortune, by simply finding "gold placers" and selling out the right of digging to the gold workers.

MANUFACTURE OF THE GOLDOMETER PUBLICATION OF THE GUIDE. Signor D'Alvear, in compliance with the request of numerous scientific gentlemen, has commenced the manufacture of his new Magnetic Instrument, the Goldometer, which he now offers for sale, in the United States, at the remarkably low prine of \$3 each, accompanied by full instructions for use, and a variety of Finite ophical hints drawn from the ancient and modern science, or the
ART OF FINDING MINES OF GOLD!

Silver, Platinum, Quicksilver, Coal, Iron, Cop-er, Lead, and other Mineral Riches, the whole beng given in a publication called the
GOLD SEEKER'S GUIDE! This new work, and the Goldometer, are now ready for sale.

The Goldometer is so simple an instrument, that a child may learn to operate with it in five

ninntes. It is not affected by climate, moisture or any other known cause, (except the natural magnet,) and will retain its power of pointing out mineral riches in the earth for any number of years. By the aid of the Guide any person may ise the instrument at ance with perfect success.
FARMERS AND LAND OWNERS.

Farmers and Land Owners throughout the Uni ed States, who have reason to suspect the existence of any kind of Mineral riches upon their lands, should avail themselves of this opportunity to test that fact, by the surest of all known tests, before the abundance of discoveries in all parts of the country shall have lessened this source of wealth in their estate. ADVENTURERS TO CALIFORNIA.

Persons going to California cannot make a bet-ter investment than by purchasing one of these instruments, which will not only be worth fifty times its value there, to sell again, but will be of inestimable worth to those who go in search of Gold, as has been proved by the most abundant experiment both in California and the United States

TESTIMONIALS.
Signor D'Alvear does not does not deem it ne cessary to encumber this notice with a long list of testimonials, in proof of the value of his GOLD-OMETER and GOLD-SEEKER'S GUIDE. The brilliant results of his labors in Culifornia, and th discovery, this very week, of fresh veins of Gold in Virginia, and beds of Coal in Rhode Islaud, by it use, are alone sufficient to stamp it as the greatest discovery of the age. Nothing but the extreme cheapness of the instrument, and his desire to see it used for the benefit of mankind induces him to dispose of it at the low price of which he offers it. Besides this, his own desire for wealth is nearly

The following Testimonials, in proof of the value of the Goldometer, selected from a great number equally satisfactory, must suffice for the

suffice for the present:
Aston House, N. Y., Dec. 21, 1848. The undersigned, having this day withessed the practical operation of Signor Jose DeAlvear's newly invented magnetic instrument, the Goldonorea, feel entirely satisfied that it posseses the extraordinary power of desecting Mineral ores hidden beneath the surface of the earth, and have no doubt that it will prove invaluable aid in the discovery of the Mineral resources of the United

Dr. Wrigh; : We have used and sold your Indian Vegete. ble Pills for three years past, and do not hesitate to recommend them to our friends and sustomers as the best Pamily

Medicine in use. N. & L. RAMSDOLL (From Markle Hall Da 1 To Dr. W. Wright-Dear Sir : For the last two years Pills at this place, and have sold annually large quantities at etail. They have in every instance given entire satisfacsion. Many families in this section keep them, and consider them invaluable as a family medicine. There is no medicine sold here that can be so universally recommended as Wright's Indian Vegetable Pills. Yery truly yours,

TESTIMONY OF ANOTHER PHYSICIAN. The following letter is in reply to a note from our ages asking Dr. Bouton's opinion of this medicine:

TUNKHANNOCK, August 29, 1848. Mr. A. Durham—Dear Sir: In reply to your note of yesterday, I would mate, that I have occasionally found it conveniet to use the various "Patent Pills" vended in the shops . and while I am unwilling to say anything to depreciate the value of others, I am free to confess that I consider Wright's Indian Vegetable Pills superior to all others with which I am acquainted. I have used them for many years both in my own family and in my practice generally, and they have uniformly proved mild, certain and safe in their operations The care and skill with which these pills have been hitherto manufactured are, in my opinion, a sufficient guarantee for like good results in future. Very respectfully

Mr. B is a practitioner of long experience, well known and even beyond the lines of Wyoming county. He is a graduate of Pennsylvania, and highly popular with the people among whom he resides.

Beware of Sugar Coated Counterfelts. Remember that the original and only genuine Indian Vegetable Pills have the written signature of Wis. Wright the top label of each box.

APPLE ORCHARDS.

People who pay attention to their fruit

trees are sure to make them bear. We have a glorious fruit soil and climate, the best on the face of the clobe, and we ought to produce it in such quantities that every househeld should be profusely supplied with the cho cest varieties throughout the year. The best may be as easily raised as the worst, as the trees of such are not unfrequently the greatest bearers. Shrewd men who raise fruit for sale, now generally select one, two or at most three or four kinds, which are of standard demand in market, good yielders, and proved to grow in perfection where cultivated, and confine themselves entirely to A MILLION OF BOXES are distributed annually with. They see that they are properly set out fully meeting the demand. For some time past, the out, properly manured, the land properly ales have been limited solely for want of facilities of supand properly managed in every particular, Union, everywhere proving their title as the poor man's and they are sure to find an abundant supply For a trifling sum, every individual and every family may have HEALTH INSURED to them for an indefinite period; and what is life without health but a miserable existance of the Hudson river, of less than seven acres, which produces from \$500 to \$750 worth of apples annually. This is not one year of plenty, and another or two of famine, but is a steady, regular, average yield. This man does not have, what we

hear often called by hap-hazard farmers. bearing years, or rather he has no other --Vegetable Pills a valuable remedy in cases of General De-bility of the system, and in all Billious disorders. I am slao And all this secured by the simplest process, viz: good management. He scrapes the trunks of his trees every year, and immediately, and before the insects and their larve can find a hiding place; when thus exposed, he gives them a thorough drenching of wood ashes and hot water, as thick as can be made to run freely from a whitewash brush. This practice, with lime occasionally added about the roots at the trunk, with the management we have before indicated, give the satisfacto ry results we have mentioned. After carehave had the agency for the sale of your Indian Vegetable fully hand-picking his apples, he heads them up in barrels, with a few auger-holes in each end, which are then thrown upon their bilge. or sides, and allowed to remain exposed to the weather, under the trees, till there is danger of freezing, when they are housed, if not previously sold .- American Agriculturist. ANNEXATION OF CUBA .-- We saw a gentle. man the other day, who had been spending

the winter in Havana, and he told us he was surprised to find the subject of the annexation to the United States so generally discussed there, and that the sentiment among the people was almost unanimously in favor of it. We also learn from him that annexation was not only regarded there as possible. but as a probable thing, and that the impression was, that something looking to it had passed between the government of the United States and Spain .-- Baltimore American.

The experiment of cheap postage has been successful in France. The amount of matter transmitted had increased more than half. NEW YORK ELECTION .- Owing to the unfortunate division still existing among the

Democracy of the Empire City, the Whigs were enabled to carry their candidate for Mayor, and a majority of the Aldermen, at the charter election on Tuesday last. THE TIME TO BIE.

Howl sadly o'er the earth and sea; Nor when the thunder's troubled voice Mutters amid the darkened sky. Let me not die when evening steals With darkning footsteps o'er the plain; Nor when the sable veil of night

Lur me not die when stormy winds

Sheds o'er the world its gloomy stain Let me not die when nature droops In autumn's sad'ning, fading hours, Nor when winter's rude, unkindly touch Hath robbed of beauty all the flowers:

But let me die when earth is calm, And morning's rosy light steals down, When nature blooms in freshness new, Then be it said "his spirit's gone."
