BALTIMORE, April 29. From the returns received from the Sixth Congressional district, it appears that J. M. Botts has been certainly defeated, J. A. Seddon, the Democratic candidate, having a majority of about 300.

The whole vote of C. C. Lee, irregular Whig candidate, opposed to Botts. is 153. The result in the Fredericksburg District is doubtful.

Fourth District .- Result doubtful, but chances in favor of the election of Thomas S. Bocock, (Dem) over Henry P. Irving,

(Whig. Third District - Thomas S. Flournoy, (Whig) the late member, is gaining as far as heard from, though the result is still in doubt. Thos. H. Everett, (Dem.) is his opponent. Flournoy is probably elected.

Eighth District-In seven counties heard A. R. Holliday, (Dem.) is 25 ahead of James M. Forbes, (Whig.) This is the Fredericksburg District. Result very doubtful.

From the Wheeling district, passengers in the Western cars brought report that Charles W. Russel, (Whig) is elected. Alexander Newman, (Dem.) was his opponent. It is a large district, and the result must continue for some time undecided. If it is as reported it will be a Whig gain.

The Whigs, thus far, have gained four members of the State Legislature, and lost two, probably-being a net gain of two. In the Seventh district, T. H. Bayley, the

Democratic candidate loses so far 178, and the result is doubtful. The result in the Fifth district, now repre

sented by W. L. Goggin, is doubtful. Jeremiah Morton, (W) is elected in the Ninth district. The Democrats had no candidate, but the regularly nominated Whig candidate was Wm. S. Pendleton, the Representative in the last Congress.

BALTIMORE, April 29. A duel occurred at Old Point Comfort, on Thursday last, between J. P. Jones, a midshipman in the Navy, and Doctor James Pope, a nephew of Com. Barney. Both were severely wounded.

A letter from Rio Janeiro, received here by the barque R. H. Douglass, dated March 13th, states that the Emperor was about giving a pubile reception to the American emigrants bound to California, at his palace. About 2000 would be present, passengers on the various ships at Rio at that time. Those who left Philadelphia in the brig Osceola, Capt. Fairfowl, would be among them. Many privileges had been extended by the Empefor to the Americans, that were not allowed to native citizens.

IT DOES NOT COST much in this country, after you have bought a house, to get the necessary papers completed. In England it is different. The expense of an ordinary conveyance of a small house there, inclusive Fawn street, the of the title, stamps, &c , usually amounts to over o hundred dollars! It is not at all un- in all its branches, and keeps constantly on hand, usual for the transfer of a farm to cost a thousand dollars law expense.

Mrs. John Quincy Adams still lies in a critical state, at the house of Mrs. Frey, in the seven buildings, where, two weeks ago. she was prostrated by a paralytic stroke. The left side is said to be entirely dead. On Monday she was somewhat easier in condition than previously, but cannot be removed to her own house .- Washington Whig.

As a medicine of the Liv? Complaint, Jaundice, Nervous Deblity and Dyspepsis, it has been found invaluable, effecting curse and thoroughly eradicating diseases, when all other medicines have failed. We feel convineed, that in the use of the German Britters, the patient does not become debilitated, but constantly gains strength and vigor to the frame—a fact worthy of great consideration. The Britters are pleasant in inste and smell, and can be administered under any circumstances, to the most delicate stomach—indeed, they can be used by all persons with the most perfect safety. It would be well for those who are much affected in the nervous system, to commence with one tes spoonful or less, and gradually increase. GOLD SEEKER'S GUIDE! Secret Art of finding Mines of Gold, Silver, Iron, Lead, Copper, Coal, and other Mine-ral Riches.

THE first discovery of Gold in California was made ty DON JOSE D'ALVEAR, an eminent Spanish Geologist, Chemist and Natural Philosopher, by means of a newly invented Magne-

tie instroment, called
THE GOLDOMETER OR GOLD SEEKER'S THE GOLDOMETER OR GOLD SEEKER'S GUIDE!
Signor D'Alvear has just arrived at New York, from the Gold regions of California, by way of Panama, Chagres, and New Orleans, bringing with him a very large quantity of Gold ore, valued at nearly one million of Dollars, which he collected there, long before the existence of the Gold

nines became known to the residents of California

generally.
HISTORY OF THE DISCOVERY! Signor D'Alvear went out to California nearly wo years ago, in consequence of certain information which he had received of the geological char-cater of that country, with the firm belief that vast mines of precious metal would be revealed there upon careful investigation. He was encouraged to this enterprise, also by his confidence in the powers of a certain Magnetic instrument which he had invented, called "Goldometer," by whose aid he expected to be directed at once to the "Gold Placers," if any such existed. Nor were his expectations disappointed. His scientific estculations proved to be found in truth and profound wisdom, and his new instrument, the "Goldometer," fulfilled his highest hopes. In less than two months after reaching California, he struck upon one of the scheme and the richest gold mines in that country, upon an bscure branch of the Sacrato river, in a gorge of hills extremely rockey and difficult of access, and seldom visited by the native Californians. Disguising his object under the pretence of purely scientific research, he obtained the aid of some fifteen or twenty simple and faithful Indians, and steadily pursued his task, collecting often more e concaled in a deep ravine, without exciting any suspicion whatever, until after the discovery of gold at Captain Sutter's Mill, when the mountains were ransacked by gold seekers, and Signor D'Al-vear's "gold placer," the richest in all California, was best with greedy adventurers. It is now found that the real mines or sources of the gold, lie in the gorges of the mountains, and not in the beds or sands of the rivers. Previous to leaving California, Signor D'Alvear sold his instrument, the Goldometer, a very imperfect one, for \$3,000. The person who purchased it confidently expected to make a handsome fortune, by simply finding "gold placers" and selling out the right of digging

to the gold workers,
MANUFACTURE OF THE GOLDOMETER PUBLICATION OF THE GUIDE. Signor D'Alvear, in compliance with the requeof numerous scientific gentlemen, has commenced the manufacture of his new Magnetic Instrument, the Goldometer, which he now offers for sale, in the United States, at the remarkably low prine of \$3 each, accompanied by full instructions for use, and a variety of Philosophical hints drawn from

the ancient and modern science, or the ART OF FINDING MINES OF GOLD! Silver, Platinum, Quicksilver, Coal, Iron, Cop-per, Lead, and other Mineral Riches, the whole being given in a publication called the GOLD SEEKER'S GUIDE!

This new work, and the Goldometer, are both now ready for sale. The Goldometer is so simple an instrument. that a child may learn to operate with it in five minutes. It is not affected by climate, moisture, or any other known cause, (except the natural State of Pennsylvanis—in a large portion of the Schools in the City of Wilmington, in the City of Lancaster, and in the Boroughs of Harrisburg. By the sid of the Guide any person may

use the instrument at ance with perfect success,
FARMERS AND LAND OWNERS. Parmers and Land Owners throughout the Uni ted States, who have reason to suspect the existence of any kind of Mineral riches upon their lands, should avail themselves of this opportunity to test that fact, by the surest of all known tests before the abundance of discoveries in all parts of

the country shall have lessened this source of wealth in their estate.

ADVENTURERS TO CALIFORNIA.

Persons going to California cannot make a better investment than by purchasing one of these instruments, which will not only be worth fifty times its value there, to sell again, but will be inestimable worth to those who go in search of Gold, as has been proved by the most abundant experiment both in California and the United States TESTIMONIALS.

Signor D'Alvear does not does not deem it necessary to encumber this notice with a long list of testimonials, in proof of the value of his GOLD-OMETER and GOLD SEEKER'S GUIDE. The brilliant results of his labors in California, and the discovery, this very week, of fresh veins of Gold in Virginia, and beds of Coal in Rhode Islaud, by it use, are alone sufficient to stamp it as the greatest discovery of the age. Nothing but the extreme cheapness of the instrument, and his desire to see it used for the benefit of mankind induces him to dispose of it at the low price of which he offers it. Besides this, his own desire for wealth is nearly

satisfactied. The following Testimonials, in proof of the value of the Goldometer, selected from a great number equally satisfactory, must suffice for the

Asron House, N. Y., Dec. 21, 1848. The undersigned, having this day withessed the practical operation of Signor Jose DeAlveat's newly invented magnetic instrument, the Gold-onorth, feel entirely satisfied that it possesses the extraordinary power of desecting Mineral ores hidden beneath the surface of the earth, and have no doubt that it will prove invaluable aid in the discovery of the Mineral resources of the United States and the world.

Los ANGELOS, California, Aug. 1848. This may certify that the undersigned is fully convinced that Signor Jose De Alvear was the first discoveror of the Gold desposites of California, and that this discovery was made by the aid of a Magnetic instrument called the Goldometer, which I have seen successfully applied to the discovery of veins of Gold ore, places where no indications of the earth.

TUNERANNOCE, August 20, 1848.
Mr. A. Durham-Dear Sir: In reply to your note of yes erday, I would state, that I have occasionally found it conveniet to use the various "Parent Pills" vended in the shops . and while I am unwilling to say snything to depreciate the value of others, I am free to confess that I consider Wright's Indian Vegetable Pills superior to all others with which I am acquainted. I have used them for many years both in my own family and in my practice generally, and they have uniformly proved mild, certain and safe in their operations The care and skill with which these pills have been hitherto manufactured are, in my opinion, a sufficient guarantee for like good results in future. Very respectfully,

Miscellancous Matter.

The New York Courier of Saturday has the fellowing singular statement :

SALE OF OFFICES.-The recent discovery of a large defalcation in the office of Marshal, has led to other discoveries equally astounding. It now appears from an affidavit of Mr. Moore made in the Court of Chancery, that immediately upon the receipt of his appointment, he disposed of his office for the sum of \$16,000 and \$175 per month! Mr. Moore in justification of himself for this most unjustifiable proceeding, alleges that the practice is common, and that his two prelecessors in like manner sold their offices to the same person—the Deputy Marshal!

This will doubtless lead to further investigation into the manner in which offices have been disposed of under the VAN BUREN, TYLER and Pour dynasties.

More Counterseiting .- A new counterfeit bank note of the denomination of twenty dollars on the Cumberland Bank of Alleghany, has been circulated in this city during the last few days. They are signed S. Shris ver, cashier; D. Shriver, president; No. 438. letter B ; on the left appears the figure of a female, and on the right the word twenty. The execution of the bill and its general appearance are calculated to deceive the unsuspecting .- Balt. Sun, April 27.

The Philadelphia Belletin of Friday says-Counterfeit \$5 notes, purporting to be of the Marine Bank of Baltimore, were offered at the Pennsylvania Bank this morningnumbered 1854, letter A. payable to F. Morgan, dated March 1, 1848 Phil Littig, Jr., Cashier: J. Birt. President. Paper flimay, some blueish and some yellowish cast, badly executed.

GEN. JOHN A. QUITMAN has been nomineted for Governor by the Democratic State Convention of Mississippi. He will undoubtedly be elected.
