

NEWS FROM SANTA FE.

Combination of Indians Against the Whites—A Philadelphian Killed—Robberies—Gold Digging, &c.

St. Louis, May 17, 1849. By the arrival of Mr. Skinner in this city, to-day, we have intelligence from Santa Fe to the 30th of April.

We learn that a dangerous combination has been formed against the whites by the Apache and Eutaw Indians, and some murders have already committed.

Two of the party that went out with Col. Fremont, Bill Williams and Ned Kearns, were killed by the Eutaw, in March last, while on an expedition in search of the philosophical instruments of other property lost by Col. F. during his unfortunate journey.

Mr. Kearns has mentioned in one of the three brothers of that name from Philadelphia, who belonged to Fremont's expedition. He had escaped death from starvation to fall by the hands of the Indians. Williams mentioned is the guide of Fremont's band, whom Col. F. attributed all his misfortunes to, but of whom the men belonging to the expedition speak in the highest terms, ascribing their misfortunes to another person.

Mr. Aubrey and three others are reported to have been killed by Indians near El Paso.

Two persons were also killed, lately, near Taos.

A band of American robbers have been making deceptions upon settlers and travellers in the neighborhood of El Paso and Santa Fe. Eleven of them were recently captured and taken to Santa Fe.

The Santa Fe Republican complains bitterly of the neglect of Congress to provide properly for the government of New Mexico.

The weather was very cold at Santa Fe in the latter part of April; but the country was generally healthy.

There were many persons working at the Colorado, gold mines, which are said to be very rich.

THE THREATENED INUNDATION OF NEW ORLEANS. BALTIMORE, May 18.

The New Orleans Delta, of the 11th inst., received this evening, gives further particulars of the various crevasses in the Levee, by which the city is threatened with inundation.

The water continued rushing through the upper crevasse, and although six hundred men are at work endeavoring to block up the gap, the prospect is very discouraging.

The Picayune says that three hundred men, armed to the teeth, were stationed at the new canal, to prevent the residents of the Second Municipality from making further breaches on the embankment, in order to divert the course of the torrent. A row is apprehended.

The crevasse below the city, at the English Turn, also threatens to overflow the Third Municipality. Three hundred men are stationed there, and are doing their utmost to prevent the threatened evil.

DESTRUCTIVE FIRE IN MILWAUKEE. MILWAUKEE, May 17—6 P. M.

A fire broke out this morning, between 3 and 4 o'clock, in the building occupied by W. Haukins as a planing and stove manufactory, and from the combustible nature of the materials on the premises, the building, together with the store of David Moore and the lively stable of S. Davis, was consumed before the engines reached the ground.

The fire is supposed to have been the work of an incendiary. The total loss is between \$50,000 and \$60,000—Phila. Ledger.

WOMEN IN THE ARMY FIGHTING.—The late German papers say that the Hungarian ladies are fighting with the same enthusiasm for freedom as their countrymen. Among one hundred and forty Hungarian captives taken by General Simbush, there were nineteen Hungarian ladies, with muskets in their hands, and dressed in military uniform. A countess of the highest rank, has raised a regiment at her own expense, and her sister is the commander of this regiment.

With such enthusiasm it is not surprising that the Austrians have fared so badly.

RIGHTS OF AUDIENCES. It was decided by Chief Justice Mansfield, in 1811, in the case of Clifford vs B andou, for disorders in Covent Garden Theatre, that any co-operation, even of the least violent nature, in a deliberate and premeditated tumult at the theatre, is a breach of the peace and is punishable by law. His language is as follows:

"The audience have certainly a right to express by applause or hisses the sensations which naturally present themselves at the moment; and nobody has ever hindered, or would ever question, the exercise of that right. But if any body of men were to go to the theatre with the settled intention of hissing an actor, or even of damning a piece, there can be no doubt that such a deliberate and preconcerted scheme would amount to a conspiracy, and that the persons concerned in it might be brought to punishment. It is not necessary, to constitute this crime, that personal violence should have been committed or that a house should have been pulled in pieces."
