following account of a strange affair:

It appears that Mr. Joshua Gregg, of the firm of Daniel Hankins & Co., merchants of Connersville, had been paying attentions to Miss Sarah Stephens, of the same place, and finally, some four or five months ago, succeeded in seducing her. Recently an abortion was attempted, which failed. Gregg positively refused to marry the girl, and, on her proposition, they mutually agreed to commit suicide. So he procured four ounces of laudanum. Miss S. poured the contents into two equal portions. Gregg, with the utmost calmness raised his to his lips and drank it off at a draught. Miss S. hesitated at first, then swallowed part of it, and set the glass on the table. Gregg told her to "be a woman and finish it." She raised it the second time and drained it to the bottom.

It had been arranged that she should go immediately to the residence of Mr. Abram Boyce, across the street, and wait until he should return from his boarding house, which he said would be in about fifteen minutes. They should then retire to die, leaving a written request to be buried as they had met death-together. He started for the boarding house, but by the time he reached it it was evident that he never could fulfil his part of the engagement, so quick and so powerful had been the influence of the poison .-He walked up stairs into his room, gave directions that Thos. D. Hankins should be sent for, said that he was going to die, pulled soff his boots and coat, and laid down with singular coolness and self-possession to meet his fate. Mr. Hankins having arrived and discovered the matter, immediately called on the attendance of physicians, and every means that professional skill could devise were-employed to save him, but without effeet. He retained his senses for some time : and exhibited to the last the same remarkable calmness and deliberation that distinguished thim in every stage of the transac-

He repeatedly said that he "was weary of the world." that he "was tired of living." that be "wanted to die," begged that nothing should be done to prevent it, and steadfastly refused any emetic or antidote until he was informed that in all probability Miss S. would recover, when he reluctantly consented, expressing, however, his entire indifference as to the result. He died the next morning. Miss S. in the mean while had proceeded to the house assigned, and waited for the arrival of G. Her wild and agitated air soon attracted attention, and by means of emetics she soon ejected the greater portion of the poison. When it was first announced to her that Gregg was dead, she beat her breast, tore her hair and went into parox. ysms of grief and frenzy, and announced her determination to put an end to her existence. She had born an unblemished reputation previous to this affair, and Gregg was connected with some of the best business men in the State, was in fine circumstances, popular, and bid fair to rank among the most influential and wealthy citizens of the place. Miss S. related the above circumstances after her partial recovery from the effects of the poi-

December 31st mays:—
AN INVALUABLE MEDICINE.—We have frequently heard the Celebrated German Batters, manufactured by Dr. Hooffand, spoken of in terms of commendation, and we know deservedly so. It is a too common practice, in certain quarters, to puff all manner of useless trash, but in the above Bitters, hundred, are living witnesses of their great moral and physical worth. As a medicine of the Liver Complaint, Jaundice, Nervous Debility and Dyagegian, it has been found invaluable, effecting cures and theroughly enstituating discusses, when all other medicines have failed. We feel couvinced, that in the use of the German Bitters, the patient shoes not become debilitated, but constantly gains strength and vigor to the fraine—a fact worthy or great consideration. The Bitters are pleasant in taste and smell, and can be administered under any circumstances, to the most deficate stomach—indeed, they can be used by all persons with the most perfect safety. It would be well for those who are much affected in the nervous system, to commence with one ten spoonful or less, and gradually increase. We speak from experience, and are or course, a proper judge. The press for and wide, have united in recommending the German Bitters, and to the afflicted we most containly udvise their use. Much attention has been paid to ECONOMY, in the construction of these Lamps, and such are made as will produce the greatest amount of light

ladelphia. This Essence is warranted to possess in a concentrated form, all the valuable properties of Jamaica Ginger, and will be found on triol at-excellent Family Medicine. It is particularly secommended as a tonic, to persons recovering from fever or other diseases, a few drops imparting to the stomach a glow and vigor, equal to a wine glass of brandy or other stimuland, without any of the debilitating effects, which are sure to follow the use of liquor of any kind; and it is therefore especially serviceable to children and females. To the aged, it will prove a great comfort; to the dyspeptic, and to those who are predisposed to gout or rheumatic affections, it gives great relief; and to the inchriate who wishes to reform, but whose stomach is constantly craving the notious liquor, it is invaluable—giving tone to the digestive organs, and strength to resist temptation; and is consequently a great agent in the cause of temperance.
