GREAT FIRE IN MAUCH CHUNK.

It is our painful duty to announce an awful conflagration and great loss of property which occurred in Mauch Chunk on Sunday. All the business portion of that flourishing borough is laid in ruins.

Upwards of thirty buildings were consumed by fire in Allegheny city on the 16th inst. The fire raged with great violence for about four hours. The loss is estimated from \$30,000 to \$40,000.

GOLD AT THE MINT.—We understand from sources of the mint, that the whole amount of Florida gold received there for coinage, amounts very nearly to two millions of dollars.

THE TULAREE PLAINS IN CALIFORNIA.

The Galena Advertiser publishes the following extract from a private letter from California: The gold mines have actually ruined California in an agricultural point of view. In fact, agriculture will never be of any consequence in this country, except where water can be found to irrigate the land, and water is scarce all over the country, except in the mountains.

CHOLERA ON THE JUNIATA.

Captain Hooper, of one of the canal packets on the Juniata died of Cholera on the 12th inst., after an illness of a few hours. Our informant, a gentleman who was on board, states that the captain was in apparent good health at noon, excepting a diarrhoea, for which he was using the usual remedies.

MR. PIERCE, THE EMPEROR OF ALL THE LIONS.

His performances differ from all others, not only in the skill and grace which he displays in his exercises with the lions, tigers, leopards, cougars, panthers, &c., but in the matchless and almost superhuman command which he exerts the obedience of these fiercest and most remorseless tenants of the forest and the jungle.

THE FORMAL COMMENCEMENT OF THE OHIO AND PENNSYLVANIA RAILROAD.

It was witnessed by about 4000 persons. It has been found, by experiment, that 1 lb. of cork, floating in water, will sustain nearly ten times its own weight.

THE TULAREE PLAINS IN CALIFORNIA.

The gold mines have actually ruined California in an agricultural point of view. In fact, agriculture will never be of any consequence in this country, except where water can be found to irrigate the land, and water is scarce all over the country, except in the mountains. As a grazing country, it is probably the best in the world; and a statement of the numbers of cattle, horses, elk, deer, antelope, &c., that roam wild over the Tularee Plains, would not be credited if stated.
