We received yesterday, per brig Adams Gray, from our attentive Havana correspondent, some interesting details af an offair of late occurrence in Coba, which in atrocity. unnatural brutality, and complicated tragedy, nearly equals the horrible story of the Borgias. Condensed from the documents sent us by our correspondent, the facts of the case

In the district of Pina del Rio, there resided, some time ago a wealthy planter, whose name was Don Jose. This man, or rather brite in human form, had been for some time living criminatly with his own daughter, to the knowledge of the wife and mother, who, however, was afraid to excite the brutal vengeance of the mouster, by denouncing and exposing his crime. But as the daughter began to bloom into womenhood. the sense of shame and degredation beginning to operate on her mind, she determined to resist the approaches of the unnatural parent She threatened to proclaim his infamy c and denounce him before the tribunals, if he persisted in his atrocities. Shortly after this poor girl was found in her bed, ernelly mur- finest quality consisting of dered. The father was arrested, tried, found guilty, and sentenced to be executed by the garrote, a kird of guilletine, which extinguishes 'ife by means of a shorp wire, which is made by a certain spring to penetrate the spine of the victim, as he sits in a chair or stocks. To execute this sentence, the P blic functionary, as he is styled in legal parlance, or in plain language, the executioner, was sent from Havana. Now, as this individual is held in great horror by the people, who have lately been threatened with a visitation from him, on account of their aspirations for liberty, it was deemed prodent to lodge the executioner in a secure place. He was therefore provided with quarters in the district prison, in the same apartment with several felone, who were apprehensive of becoming better acquainted with him.

In the morning, Jack Ketch was found dangling by the neck, from a rope attached to the gratings of the prisons. H's fellow-inmates of the prison did not appreciate his company, and had thus rid thems lees of it A fa etons prisoner, how ver, lege that he exe utimer h dle nee z dwith en orse, an ! disgusted with his profession, had resolved to retire from the salvide. But hi served d o impose upon the intelligent Governor of the district, who went to work, in the old style of the inquisition, to ascertain the truth by the application of torture to the prisoners --In the process of his ingenious devices for most murderous looking of the accused was tied up so tightly, that by the merest accident in the world, he was quite unable to give the desired information although when taken down he bowed his head affirmatively. He was dead !

The Captain General has sent down an especial officer to ascertain the facts in this complicated tragedy. Our correspondent suggests that he should follow the example of the District Governor, and hang a few of the individuals connected with the rigid application of the torture.

There being no applicant for the office of own child, was taken out and shot by a file of soldiers. These are the simple facts of this affair, which are sufficiently tragical without the episodical additions of the horior loving Spaniards of Havana. They are sufficient to illustrate the benighted state of morals and of the administration of justice in this unhappy and opressed island.

Marrisdarg Telegraph states that propositions have been made by English colliers, to furhish the Harrisburg Gas Company with English coal, at a lower price than that at which the same article can be procured from Pittsburg. This is literally bringing coal to News Castle. The importation of coal to Pennsylvenia is emphatically another evidence of the working of the Tatiff of '46.

This Company takes no risks in exposed parts of villages or on Stores, Mills, Shops or Machinery, nor insures exceeding \$2000 in one locality. The rates are exceedingly low, avaone locality. The rates are exceedingly low, avaraging less than \$5 per thousand for Policies running 5 years or \$1 per year. A small premium note is required, but the prosperous condition of the Company and the large accumulated cash fund, precludes all probability of there ever being an assessment. The Policies of this Company are free from objectionable conditions often found in policies of other Companies: the Company being also responsible for the correctness of business done by its Agents. It is now the most extensive Mutual Company in the United States, and universally popular among the farmers of N. Y. Mass., and Conn. All losses, however, SMA-1. after due notice will be promptly paid either at the place of loss or the Branch Office at Harrisburg.
