MASON'S CHALLENGE BLACKING.

March 2, 1850,-1m

THE immense and steadily increasing demand for the celebrated MASON'S CHALLENGE BLACKING

Has induced numerous unprincipled persons to attempt an imitation of his Box Labet, varying it slightly, with a view to evade the law, but at the same time designed to impose upon the univer-sal confidence of consumers, in favor of Mason's Blacking; and as the counterfeit bears no resem-blance to the original, except in the label, and has none of its good properties, Country Merchants, when ordering blacking, should be careful to ask for "MASON'S ORIGINAL CHALLENGE BLACKING," which is sold by all respectable Wholesale Dealers, in every City in the Unite States. Mr. James Williams:

Purlangthelia, October J. 1849.

Dear Six :—It gives me great pleasure to know that you are again preparing you medicine for the cure of Dyspenia, for many of my acquaintances have repeatedly asked me where it could be produced, knowing that I had been cured by it. As I think that a public acknowledgment of the great benefit I have received from the use of your medicine is not only due to you, hot may be useful to others; I now make it. For several years I suffered from Dyspensia, which increased to such an extent that my health and constitution were rapidly sinking under it. I was compelled to restrict myself to the most simple food, and even that I chylid not digen. I felt a loss of strength, disinchination to exercise, and, as you have it in your advertisement, a general feeling of depression and indescribable weariness. In the year 1839, heating from others high recommendation of your Anti-Dyspeptic Elixir, I procured and used it with the most happy effect; under it influence languor and wariness gradually passed away, and my appetite retirned which I could gratify with impunity. Ten years have now eigned, and my confidence in the curative powers of your medicine has of course increased, for it completely cured me when I failed to obtain relief from any other source.

Very respectfully yours.

SPITTING BLOOD

SPITTING BLOOD

Is always alarming. It leads to the worst kind of Consamption, and unless arrested in time is generally fatal. Sherman's All-Healing Balsam is the best remedy known; it heals the wounded or ruptured blood vessels of the lungs, and thereby effects a permanant cure, while other remedies only stop the blood for the time. A few doses of this Balsam will satisfy the usual skeptical that it is the medicine required—It has been successful in many cases, and thirt too where they had run into a rapid decline, or as more generally expressed, "HASTY CONSTITION" Young perwas, or those of middle age, are more subject to those attacks than the aged.

CANCEROUS SCROPULA!

This is the case of a Dying man who yet lives. Caution Extra.

OLD DOCTOR JACOB TOWNSEND, THE ORIGINAL DISCOVERER OF THE Genuine Towns end arsavarilla f OLD Dr. Townsend is now about 70 years of age, and has long been known as the author and discoverer of the Genuine Original "Townsend Saraspariia" having poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the mass bircumseribed to those only who have proved its worth and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed sore discovery and saved from death, proclaimed its excellence and wear defful

Healing Powish.

Knowing, many years ago, that he had, by his skill, selmee, and experienced, devised an article which would be incalcuable advantage to mankind, when once known and extensively used, he hoped and persevered, expecting the time to arrive when the means would be furnished to ring it into universit notice, when its inestimable virtual would be known and appreciated. This time has come, the nears are supplied; this

GRAND AND UNEQUELLED PREPARATION, Is manufactured on the largest scale, and is called for roughout the length and broadth of the land, especially as

rilin ought to droup and die.

The Od Dr's. Sarasparilin will keep pure and purfeet 100 years.

Unlike young S. P. Townsend's it improves with age, and never changes, but for the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the Art have all been brought into requisition in the manufacture of the OLD DR'S SARRAPARILIA. The Sarssparilia root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which, if retained in preparing it for use, produce fermentation and seld, which is injurious to the system. Some of the preparties of Sarsaparilia are so vokalle, that they entirely exportate and are lost in the preparation, if they are not preserved by by a scientific process, known only to those experienced in its manufacture. Moreover, these vokalle principles, which fly off in vapor, or as an exhibitation, under heat, are the variet essential modical properties of the root, which give to 7 nil its value.

then call it "Sarasparilla Extract or Syrap." But such as not the article known as the GENUINE GLD DR. JACOB TOWNSEND'S SAR-This is a prepared, that all the inert properties of the Saraparilla root are first removed every Using capable of becoming acid or of fermentation, is extracted and reject ed; then every particle of medical virtue 's secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the finish pewerful agent in the

CURE OF INNUMERABLE DISEASES. Hence the reason why we hear commendations on avery side in its favor by men, women, and children. We find it doing wonders in the cure of Consamption, Dyspepsia, and Liver Compaint, and in Rheumatism, Seroluis, Piles, Contiveness, all Cutaneous Eruptions, Pimples, Biotekes, and all affections existing from

ther part.

But in nothing is its excellence more manifestly seen and

and is a effectual in curing all the forms of Kidney Dissessibly removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and their cutter all forms of NERVOUS DISEASES AND DEBILITY.

And thus prevents or relieves a great variety of other manders, as Sminal Irritation, Neuraleya, S., Vitus Danes, Swooning, Epideptic Fits, Convaisions, &c.
And yet he would then have it understood that Old Dr. Jacob Townsend's Genuine Original Sarasparille, and IMITATION of his interior preparation?

Hencen forlid that we should deal in an article which would hear the most distant resemblance to S.P. Townsend's article and which would bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold, and parchisers who have used S.P. Townsend's Fermenting Compound. We wish it inderstood, because it is the alsolute truth, that \$1.7 Townsend's article and Old Dr. Jacob Townsend's Strapparilla are heaven-while apart and infinitely dissimilar; that they are untilted in every particular, having not one single thing in common.

As S. P. Townsend is no director, and payer, weir and the property was a support who have the support with the support of the particular, having not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no

thing in consistent.

As S. P. Townsend is no decire, and never was, is no chemist, its pharamaceutist—knows no more of medicine or disease than any other cumman, unactentifit; unprofessional train what guarantee can the public have that they are receiving a genuine scientific medicine, containing all the virtues used in preparing it, and which are incapable of changes which might render them the agents of disease instead of health?

Hat what che should be expected from one who knows nothing comparatively of medicine or disease? It requires a pers in of some experience, to cook and serve up even a common decent meal, how much agere important is it that, the pers on who immufacture medicine, designed for vocal anoman decent meal, how much agere important is it that, the pers on who immufacture medicine, designed for vocal anoman decent meal, how much agere important is it that, the pers on who immufacture medicine, designed for vocal anoman decentrating their healing virtues, also vocal know well the medicine to decire and conventional and concentrating their healing virtues, also vocal expension and how to adapt remedies to these discusses?

It is not possible for this medicine to these discusses.

It is not possible for this medicine to the good: it has nething in it which can ever harm, it can never sour of spoil and threeforce, can ever loose to curative properties. It cleanses the blood, excites the liver to healing actions, tones the stomach, and gives good sige tion, reserves the bowels of tops and consciprate, allays inflamation, particular field the stomach, and gives good sige tion, reserves the bowels of tops and consciprate, allays inflamation, particular particular properties. It is not this, this, the medicine you pre-emimently used? But on any of these things he said of S.P. Townsend's inferior erticle! This remains liquid is not to be COMPAUED WITH THE OLD DR'S.
