dence of the N. American and U. S. Gazette Great Suffering on the Plains. \$700 offered for a cup of water and refused— Flour \$40 per pound—The Cholera on Platte River.

STOCKTON, California, Sept. 30, 1850. I have just conversed with a gentleman menths' journey across the country. He states that about 70,000 persons are on the road now. The four brothers started with two six mule teams, plenty of provisions, clothing, money, etc., and arrived in Stockton with loss of almost every thing.

He states that on both branches of the Platte the cholera prevailed to a horrible exthe Platte are thick and moddy, and he atcributes the escape of his party from sickness o their precaution in boiling the water, clearng it with isinglass, and making it into tea or coffee before drinking. The graves of smigrauts, he says, were thick at every campng places near the Platte. In crossing the treat Basin this side of the great Salt Lake, heir suffering were indescribable.

The sand was knee deep, the sun broiling iol : not a tree was to be seen ; there was no vater, and their provisious were all gone .fortunately, after passing over about 100 niles of this hideous desert, they came across man who had gone 40 miles further, found good spring, and returned with two barrels of water. This water he first sold for \$1 per callon, then \$1 per quart, then \$10 per pint: nd as the emigrants came along, each chokd almost to death and completely exausted, tis prices raised, and no sum he could name within the power of the poor emigrant was efused to be paid. When the water was early all gone, a man came along who or three whole days and nights had drank ut a half pint of fluid. He was almost dead, .nd begged for some water. The answer vas, "I have not enough to last myself and mimals back to the Spring." \$50, \$100, 500, 8700 was offered in succession for one little cup full of water, and the dealer reused it. The wretched emigrant threw lown \$700, all he had in the world, and by nain force grasped the cup and quenched his

This statement seems incredible ; but my formant is a man of jutelligence and proity, and his word cannot be doubted. Soon fter leaving the water trader, the party ame across acompany who had a little flour, thich they would not part with until the ofer of \$40 per lb. tempted them to sell. One bl. of flour was sold for eight hundred dolus, and glad enough was the purchaser get it Upon arriving at Carson's river ney found provision plenty, but very high. lour was \$2 50 per pound. A single meal I two small pies, coffee, and some pilot bread, est them \$11 per man. Provisions, it was spected, would soon be much lower on Carm's rivier, as my informant met immence ains of provisions on the way from this valsy. Whilst crossing the Sierra Neveda ionntains, the party was enveloped in a snow form, and at the last pass the snow fell six r seven inches in one night. This pass is ot over 150 feet in width, and is on the side f a steep 'eclivity. Above the road the ock towers almost perpendicularly, 250 feet, a 271 cts. and bbls at 28 cts. chilst below it is almost equally abrupt. At jules, cattle, and wild animals. My inforand says it is the almost universal opinion t Carson's River that not one-third of the migration can cross the Sierra Nevada mounains before the winter sets in and renders he road impossable. He thinks they can vinter very well in Carson' Valley. His par- white was sold to-day at 110 cts. y expected to meet with, and thought they Sales of old white at 61 cts., and of old yalse has traveled extensively through Europe, nt no scenery there equals in sublimity and seasty many of the views on the land route cross this continent. Nevertheless, he detlares he would give all he possesses in the world, or all he hopes to possess, if he could only banish from his memory the many horrors he felt and witnessed on his terrible journey. Yours truly,

A NEWLY INVENTED STEAM DIVING BELL BOAT is performing wonders on the western waters in rescuing property from sunken vessels. It had been at work at the wreck of the steamer Charles Carroll, and in about three or four weeks the entire cargo in the hull, consisting of some 4500 barrels of pork and lard, was taken out, and finally the huli itself was raised and removed from the channel of the river, to which it had formed a very serious obstruction. This extensive job completed, the boat proceeded to the Ohio, where the machinery and boilers of a sunken boat were taken out. Thence she was directed to the spot, a short distance below Cairo, where the steamer Neptune sunk, thirty years ago, and with a dive of fifty-five feet, a number of articles were rescued, which were considered hopelessly lost. The iron chest of the boat, containing sundry articles and a docket book filled with what were once bank notes, were among the contents of the chest! but they disappeared as soon as brought in contact with the air, and nothing remained but the calfskin in which they were envelop. ed. About five hundred pigs of lead, in a good state of preservation, were also taken from the deep, and a jar of butter, decidedly the oldest now extant.

THE ESTATE OF JOHN McDONOUGH -In speaking of the wealth of the late Mr. Mc-Donough, the New Orleans True Delta says his suburban property was immense, he having pursued the policy of buying up the rear of the city and suburbs, and thus securing enormous profits from the enterprise and improvements of others. He owned 300 squares in the rear of the 2nd municipality, and 16, 000 lots in the rear of the 1st and 3rd municipalities. He also owned the whole of Mc-Donough, opposite to New Orleans. His productive property in the city yields an annual revenue of \$200,000.

MISSISSIPPI STEAMBOATS AND HUMAN LIPE. -The annual amount of travel on the Mississippi river is about 500,000. The annual loss of buman life for several years Trade has been over 200; by burning, blowing up, and drowning, to say nothing of sickness.

HINTS FOR IMPROVEMENT .- Charles Butler, distinguished English lawyer, and a fine scholar, ascribes his saving of time to these rules: Very early rising; a systematic division of his time; absence from all company, and from all diversions not likely to amuse him highly; modern party politics; and from New York, who with three of his bro- above all, never permitting a bit or scrap of thers, arrived here yesterday, after a four time to be unemployed—have supplied him with an abundance of literary hours.

His literary acquisitions are principally owing to the rigid observance of four rules-1. To direct his attention to one literary topic only at a time; 2. To read the best book upon it, consulting others as little as possible; 3. Where the subject was conten' tious, to read the best book on each side; 4. tent, hundreds dying daily. The waters of To find out men of information, and when in their society, to listen, not to talk.

#### State Mutual Fire Insurance COMPANY. OF HARRISBURG, PA.

THIS COMPANY, chartered by the Legislature during the last session, is now prepared to take applications for Insurance against loss by fire upon Buildings, &c., upon terms more advantageous to the insured than any other Company

doing business in the State.

This Company, in accordance with the provisions of its charter, divides property into two separate classes, viz :- Farmers' Property, called the "Farmers' Company," and the other property, in-cluding property in towns and villages, called "Merchants' Class": the funds of each being kept entirely separate; consequently each class pays its own losses and no other. It will be the endeavor of the Company to arrange their business that no assessment will be necessary on their premium notes. The rates of Insurance will be very reasonable

furnish full reports of the debates of the two Houses of Congress; and having recieved their sancion as such, the best Reporters will be engaged to write out the debates of each day, will undergo the revision of the Members. The work, after passing through the DAILT GLOBE and receiving

correction, will be presented, as finished, in the Congressional Globe and Appendix. The debates will probably increase in interest luring the next session. The one subject which engrossed the last, will doubtless give way to others of great variety, which, in this progressive country, the conflicte of party and the ambition for place and distinction, necessarily produce. Vast interests will be at stake upon the decisions of the next Congress; and there is great talent in both branches, which will be evoked in their dis-cussion. All the honors of the Republic, dependent on the succession to the Presidency, as well as all the great and permanent interests which go to the advancement of the power of the country, will give impulse to the action of the next session of

The Daily Globe will be published daily during the session of Congress, and weekly the remainder of the year. It will contain full and faithful reports of the proceedings of both Houses of Congress; and miscellaneous articles on those general subjects to which it is devoted.

The price of the weekly Globe is reduced to one

dollar, with a view to obtain a more general circu-The Congressional Globe will embody, as it

has done for the last seventeen years, Congress sional proceedings and debates exclusively. The Appendix will embrace the revised speeches separately and the messages of the President of the United States and the reports of the Heads

of the Executive Departments.

The Congressional Globe and Appendix will be published as fast as the proceedings of Congress will make a number. Subscribers may expect one number of each a work during the first four weeks of a session, and two or three numbers of each a week afterwards, until the end of the

Complete indexes to the Congressional Globe and Appendix will be sent to subscribers soon af-

ter Congress adjourns.
Nothing of a political party aspect will appear
in the Gronz save that which will be found in the Congressional reports. A paper sessuming to be an impartial vehicle for all sides, cannot maintain its character if the editorial columns reflect a par-

THE FALLACIES OF THE FACULTY, WITH THE

Chrono-Thermal System of Medicine. By S. Dickson, M. D., of London-Edited by William Turner, M. D., of New York CONTENTS —Physiology of Healthy Life shown to be a Periodic or Tidal Alternation of Attractive and Repulsive Movement in the various Organs of the Body—Disease consists in a greater or less Error in one or more of the corporeal Periculs, with a corresponding Error of Tem-perature—All disorders, fitful or intermittent— Fever, the Type of all Disease—Elements of Cause and Cure identical—Poison and Medicine act by Attraction and Repulsion—The Agency of both Electrical—Blood-letting the invention of an age or larbarism-The successful application of Medicine depends on its proper adjustment to the temperature of the patient and the period of the attack of the Disease; What is right in the cold fit of a disease is wrong in the hot; The treatment during the periodic remission, which happens in all diseases, must be different from that practices in either stage of the pyroxysm; Time and Ters perature the basis of the Chrono-Thermal System

Single copies mailed on the receipt of \$1, (post paid.) addressed to DR. TURNER.

Broadway Hotel, New York. Sunbury, Oct. 26, LIVER COMPLAINT.

JAUNDICE, DYSPEPSIA, CHRONIC OR NERVOUS DEBILITY, DISEASE OF THE KIDNEYS, A ND sil discusses arising from a disordered liver or sto-mach, such as constitution, inward Plies, Fullness, or blood to the head, Acidity of the Stomach, Nausca, learthura, disgust for Food, fullness or weight in the stomach, sour Ernetations, sinking or fluttering at the pit of the Stomach, swimming of the head, hurried and difficult creathing, fluttering at the heart, choking or sufficenting centations, when ma lying congrete. Dimension of vision. sensations when in a type posture, Diumens of vision, dots or webs before the sight, Fever and dull pain in the head, deficiency of perspiration, yellowness of the skin and eyes, pain in the side; back, chest, limbs, &c., sudden flushes of heat burning in the flesh, coustant imaginings of evil, and great depression of spirits,

# CAN BE EFFECTUALLY CURED BY DR. HOOFLAND'S DR. C. M. JACKSON.

GERMAN MEDICINE STORE, No. 120 Arch St., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians bad foiled.

THE GLOBE:

Congressional, Agricultural, and Literary Newspaper.

The Stockholders are hereby notified that an Election will be held at the Banking House, on Monday the 18th day of November, between the hours of 10 o'clock, A. M., and 3 o'clock, P. M., for the purpose of choosing thirteen directors to serve for the ensuing year.

A general meeting of the Stockholders will be held at the Banking House on the first Tuesday in November, at 10 o'clock, A. M., in accordance with the set of Liver Complex from the second the case of the case of the reaction of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the disease of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the Stockholders will be act of the ensuing year.

The undersignep submits to the dublic his proposals for the Globe and its reports for the next season of Congress. Congress has now so liberally patronized the undertaking that it will be established as a standard work worthy of its official imprimatur, unless the undertaking that it will be established as a standard work worthy of its official imprimatur, unless the undertaking that it will be established as a standard work worthy of its official imprimatur, unless the undertaking that it will be established as a standard work worthy of its official imprimatur, unless the undertaking that it will be established as a standard work worthy of its official imprimatur, unless the undertaking that it will be established as a standard work worthy of its official imprimatur, unless the undertaking that it will be established as a standard work worthy of its official imprimatur of the day. These Bitters are worthly discussed the Liver and lesser glands, certain and distiled.

These Bitters are worthy they attention of diseases of the Liver and lesser glands to the Liver and lesser gl that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great constantly ration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomeths with safe-y, under any circumstances. We are speaking from ex-serience, and to the afflicted we advise their use." Judge M. M. Noatt, a gentleman with great scientific-ud literary attainment.

ty, under any circumstances. We are speaking from experience; and to the afflicted we advise their use."

Judge M. M. Noan, a gentlemant with great scientific and literary attniuments, said in his "New York Weekly Messenger," January 6, 1850.

"Dr. Hoodhand's German Bitters.—Here is a preparation which the leading presses in the Union appear to be manimous in recommending, and the reason is obvious. It is made after a prescription rushed by one of the most celebrated physicians of modern times, the late Dr. Chr stepher Wilhelm Heodhaid, Professor to the University of Jena, private Physician to the King of Prussia, and one of the greatest medical writers Germany lass ever produced. He was emphatically the enemy of humbag, and therefore a medicine of which he was the inventor ind andorser may be confidently relied on. He specially fecommended it in Laver Complaint, Dyspepsia, Debility, Verligo, Acidity of the shounds, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intextines. Nine Philadeldhia papers express their Jouviertion of its excellence, and several of the editors speak of its efforts from their own individual experience. Under these circumstances, we feel warranted, dot only in calling the attention of our readers to the present present proprietor's (Dr. C. M. Jackson's) preparation, but in recommend. lift the American of the Scidence.

More Evidence.

The "Philadelphia Saturday Gogette," the best family awspaper published in the United States, the editor says Dr. Hoofland's German Bitters.

"It is seldom that we recommend what are termed Patent Medicines, to the confidence and patromage of our readers; and, theirefore, when we recommend Dr. Hoofland's German Bitters, we wis it to be distinctly understood that we are not speaking of the nontrains of the day, that are noised about for a lifet period and then forgotten after they have done their guilty race of muschief, but of a medicine long established, universally prized, and which has met the hearty approved of the Faculty itself."

That this medicine will cure Liver Complaint and Dyspepsin, no one can doubt, after taking it as directed. It acts specifically upon the stormach and livet—it is preferable to calomel in all billious diseases—the effect is immediate. They can be administered to Female or Infant with safety and feliable benefit, at any time. Dr. Hoofland's German Bitters.

BEWARE OF COUNTERFEITS. This medicine loss stained that high character which is accessary for all medicines to attain to induce counterfeiters to put forth a spiffious article at the risk of the lives of those are innotently deserved. LOOK WHILL TO THE MARKS OF THE GENUINE

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, with-sir which they are sput-ais.

ANOTHER SCIENTIFIC WONDER. PEPSIN!

DIGESTIVE FLUID GASTRIC JUICE ! A GREAT DYSPEPSIA CURRE,

Prepared from RENNET, or the fourth Stomach of the Ox, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful restreety for INDIGENTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBLUTY. CONSTIPATION, and DEBILITY, Curing after Nature's own method, by Nature's own agent, the Gastrie

Juice.

13 Half a tempoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roses Beef to about two hours, out of the stomach.

DIGESTION. DIGESTION.

DIGESTION is chiefly performed in the stouach by the uid of a fluid which freely exades from the inner dest or that organ, when in a state of health, called the Gastrie Juice. This fluid is the Great Solvent of the Poed, the Purifying, Preserving, and Stimulating Agent of the stomach and intestines. Without it there will be no digestion—of conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, petafon, and dearchettive condition of the whole digestive apparatus. A weak, ball dead, or injured stouach produces no good Gastrie Juice, and hence the disease, distress and debility which ensure.

PEPSIN AND RENNET. PEPSIN AND RENNET.

PEPSIN is the chief element, or great Digesting Primitiple of the Goarrie Juice, it is found in great abundance in the solid parts of the human stomach rafter death, and sometimes causes the stomach to digest itself, or cat itself upsition of the interest of the interest of animals, as the ox, call, &c. It is the insterial used by farmers in making cheese, called Romac, the effect of which has long been fits special wonder of the dairy. The curding of milk is the first process of digestion. Remet possesses astonishing power—

The stomach of a calf will cardle nearly one thousand times its own weight of milk. Boron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Discascel stomachs produce no good Goatrie Juice, Remet or Pepsin. To show that this want may be perfectly supplied, we quote the fellowing

SCIENTIFIC EVIDENCE! SCIENTIFIC EVIDENCE!

BARON LIEBTO, in his celebrated work on Animal Clemistry, says: "An Artificial Digestive Plaid analogous to the Gastrie Julee, may be readily prepared from the macous membrane of the stomech of the calf, in which various articles of food, as ment and eggs, will be softened, changed, and digestied, just in the same manner as they would be in the human stomach."

Dr. PEREIRA, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

preparation. There are few higher authorities than Dr. Pereira.

Di. COMBE, in his valuable writings on the "Physiology of Digestion," observed that "a dimination of the due quantity of the Gastrie Juice is a prominent and all-preyailing cause of Dyapepsia;" and he states that "a distinguished professor of medicine in Leudon, who was severely afflicted with this complaint, finding every thing close to fall, had recourse to the Gustrie Juice, obtained from the stormeth of living minusls, which proved completely successful."

Dr. GRAHAM, author of the famous works on "Vegenable Diet," says: "it is a remarkable fact in physiology, that the atomachs of animals, macerated in water, impart to the find the property of dissolving various articles of food, and of effecting a kind of artificial digestive process."

Dr. SIMON'S great work, the "Chemistry of Man," (Lea & Blanchard, Phila. 1846, pp. 221-2) says: "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the intural Gastrie Jules itself.,"

Professor DUNGLISON of the Jefferson College, Phila-

itself.,?
Professor DUNGLISON of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Benumont, on the Gastric Juice, obtained from the living human stometh and from animals are well known. "Iff all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

AS A DYSPEPSIA CURER,
Dr. HOUGHTON'S proparation of PEPSIN has prodaeed the most marvellous selects, curing cases of Debility,
Emaciation, Nervous Decline, and Dyspeptic Consumption,
supposed to be on the very verge of the grave. It is impossible to give the details of cases in the dimits of this advertisement—but suthenticated certificates have been given
of more than TWO HUNDRED REMARKABLE
CURES, in Philadelphia, New York, and Boston alone.—
These were nearly all desperate cases, and the cures were
not only rapid and wonderful, but permanent.
It is a great NERVOUS ANTIDOTE, and particularly
useful for tendency to believe disorder, Liver Complaint,
Fever and Ague, of badly tranted Fever and Ague, and the
evil effects of Quintine, Mercury, and other drugs upon the
Digestive organs, after a long sickness. Alse, for excess
in enting, and the too free use of ardent spirits. It almost
reconcides Health with Intemperance.

OLD STOMACH COMPLAINTS. AS A DYSPEPSIA CURER.

"DEATH'S DOOR."

How frequently do we hear this expression, which is mount to convey to the mind the hast stage of sickness that a patient can be reduced to, and live. Mrs. Harrison, a member of the Trinity Chirch, was as she expresses herself, brought down to "Death's door," by Rhesmatian and Nervous Headache, when, like an angel of mercy. Radway's Ready Relief relieved her of her severe pains and restored her to her friends in perfect health.

The very instant Radway's Ready Relief a applied, ith beneficial effects are experienced, it wouldes, heal, cleanses and purities; it instantly aflays irritation; reduces in flammations and swellings, relieves the most severe Nearligic pains, gives uses to Baras, Scales, Sores, Euglions ourse Rhemmatism, Lambage, Gout, Paralysis, Sprains, Strains, Syssams, Siff Neck, Weakness in the Sale and Rack, Sores of all kinds, Galls, Braises, Chafes, Sure Throat, Influenza, Hearfeness, Coughs, Colds,

TOOTH ACHE, CURED IN ONE SPECOND. How frequently do we hear this expression, which is

TOOTH ACHE CURED IN ONE SECOND.

This torturing affection can be cared in an instant, for the moment the Relief touches the nerve, the pair is mitigated. So with The Dolectors and Hestinerants, Nexturing and Sick Hendaches—bothe the pairs where the pairs is most severe, and in a few militates you will be entirely reflected. Taken internally it will arrest the most violent Spasms and Cramps, stop vomiting or to trace particular in most severe, and in a few militates you will be entirely reflected. Taken internally it will arrest the most violent Spasms and Cramps, stop vomiting or to trace particular in the case for pair, health for sickness. No Ready Relief is genuine unless algored by RADWAY & CO., 102 Fulton Street.

ELEGANT TOILET REQUISITES.

TO EMBELLISH AND ENHANCE THE CHARMS OF BEAUTY.

Ranway's Medicated Soup, so invertably known througheout the fashiciable world for its extremely based; purifying said seedshing effects on the skin; while by its action on the pores and the number secretory vessels it explets all impurities from the surface, shays every tensioney to infamination, and effectually dissipates all ceducas, tan, pimples, spots, freekes, discolvantions and other extaneous emptions. The reducal bleom it impures to the cheek, the softness and defining which it induces to the cheek, the softness and defining which it induces of the hands and arms, it expanditly of soothing irritation and removing cutaneous defects, fender it unimpensable to every toilet.

Gentlemen after shaving will find it allays all itritation and teaderness of the eking, and readers it soft, smooth and pleasant.

Boring the heart and dost of summer, or frost and bleak

and tenderness of the skin, and fenders it soft, smooth and pleasant.

During the heat and does of sammer, or frost and bleak winds of winter; and in cases of samburn, stings of insects childnian, chapped hands, or incidental inflammation, its virtues have long and extensively been acknowledged. Its purifying and retreshing properties have obtained its seteration from the thousands of other essmetics, both of European and charactic imanufacture, by the bon ton of all parties of the fishingable world, from the burning tropies to the frozen realms of the lee King. The public will please hear in mind that Radway's Medicated Soap, is the only safe preparation for the skin now in use; this has been certified to by our most prominent chemists. Radway's Soap is free from poisonous, irritaining and permicious ingrelients, it can be used on the tender skin of the infant with the same happy results as upon beauty in its prime. See that each cake is curebayed in a spiendid label off steel engraving—and further see that the signature of R. G. RADWAY is upon each cake. Price 28 seats, large-cakes.

Warranted the best Hour Tonie in use,

Warranted the best Hiter Tonics in use,.

For Dressing and Beautifying the bair.

It cleanuses the Scale from Dandruff, keeps it clean, careas Scurvey. Baldness, and Sayes on the Head stops the hair from falling out, renders it strong, fine, smooth, soft and gloosy. Fersons who have best their bair by sickness with find a complete antidote it Radway's Circussian Balm. It also gives it a dark and beautiful color, and will prevent it from turning groy. From its exequinite purity, it is admirably adapted for the hair oftenhighen of the most tenderage. It is said in large bettles for 25 cents per bottle, and is warranted the best hair proporation in use, it will not soil the ball, cap, or the finest fabric. See that the signature of RADWAY & CO., is upon each bottle—no Circussian Balm is genuine without the signature of Radway & CO.
